Book by Danicka Capuli

Our purpose is to provide a safe and clean environment for students to gather and participate in community games and activities. We provide a central point for the many Montclair students who enjoy gaming that they would not have otherwise.

We are a community club, linking students with each other and introducing people to others that share their hobbies and interests, allowing for a richer and developed sense of community amongst the Montclair student body.

Montclair University Gamers is a well established organization on campus that runs a wide variety of tournaments with fun, food, and the possibility of prizes for all who wish to attend.
