›› Program Information

On this page, review the list of teacher preparation programs offered by your institution of higher education (IHE) or organization. If you submitted an IPRC last year, this list of programs is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to enter the programs in the appropriate reports. For the traditional report, list all traditional programs within the IHE. For the alternative report, list all alternative programs within the IHE. You may edit, delete, and insert new rows as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page. The system will automatically total the number of programs for you.

Program Information

List each teacher preparation program included in your alternative, ihe-based route. Indicate if your program or programs participate in a Teacher Quality Partnership Grant awarded by the U.S. Department of Education as described at **https://www2.ed.gov/programs/tqpartnership/awards.html**.

Admissions

1. Indicate when students are formally admitted into your initial teacher certification program:

Postgraduate ▼

If Other, please specify:

2. Does your initial teacher certification program conditionally admit students?

● Yes
○ No

3. Provide a link to your website where additional information about admissions requirements can be found:

https://www.montclair.edu/p-3-MAR

4. Please provide any additional information about or exceptions to the admissions information provided above:

Individuals must have a full time lead teacher or an assistant teacher position in a Pre-Kindergarten through Grade 3 classroom to enter the program. Individuals may be conditionally accepted and may complete up to six credits if they are not employed as a teacher. However, individuals cannot continue beyond 6 credits of the program if they have not secured a position as a lead teacher or teacher assistant within a Pre-Kindergarten through Grade 3 classroom.

Undergraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (§205(a)(1)(C)(i))

1. Are there initial teacher certification programs at the undergraduate level?

Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2016-17. **(§205(a)(1)(C)(iii), §205(a)(1)(C)(iv))**

Additional guidance on reporting supervised clinical experience and nonclinical coursework.

Average number of clock hours of supervised clinical experience required prior to student teaching	96
Average number of clock hours required for student teaching	600
Average number of clock hours required for mentoring/induction support	0
Number of full-time equivalent faculty supervising clinical experience during this academic year	0
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	9
Number of students in supervised clinical experience during this academic year	126

Please provide any additional information about or descriptions of the supervised clinical experiences:

The course "Inclusive Early Childhood Classrooms" accompanies ECEL 502 Seminar and through required fieldwork, the course provides clinical experiences in an early childhood setting to foster the skills and dispositions necessary to become effective and nurturing teachers. Students are provided with learning opportunities that support children's intellectual, social, and emotional development. They design environments that support culturally responsive teaching, and plan and assess high quality curriculum. Students develop skills as reflective and questioning practitioners, promote democratic values and communication in the classroom, and build relationships with school colleagues, families, and agencies in the larger community. Students are responsible for the full range of teacher activities in the classroom, and must demonstrate their strengths as a teacher during the visits from MSU's P-3 MAR program mentors several times throughout the clinical semester.

Enrollment

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2016-17	91
Unduplicated number of males enrolled in 2016-17	8
Unduplicated number of females enrolled in 2016-17	83

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. (§205(a)(1)(C)(ii)(H))

2016-17	Number Enrolled
Ethnicity	
Hispanic/Latino of any race	9
Race	

2016-17	Number Enrolled
American Indian or Alaska Native	0
Asian	2
Black or African American	8
Native Hawaiian or Other Pacific Islander	0
White	32
Two or more races	1

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2016-17. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. **(§205(b)(1)(H))**

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2016-17. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Completers

On this page, enter the total number of individuals who completed the program in AY 2016-17 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.

Annual Goals

On this page, review the annual goals in each subject area listed below. If you submitted an IPRC last year, the goals you entered last year are pre-loaded from your prior year's report. Please respond to the questions to report on progress towards the goals, and set new goals for the next academic year.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. **(§205(a)(1)(A)(ii), §206(a))**

Information about teacher shortage areas can be found at **https://www2.ed.gov/about/offices/list/ope/pol/tsa.html**.

8. Describe your institution's most successful strategies in meeting the assurances listed above:

In many of our courses students gain knowledge, skills and dispositions to work collaboratively with diverse families to support the development and

education of young children with special needs, including students with disabilities, limited English proficiency, and low socioeconomic status. Our program meets the needs of the state by recruiting talented individuals to enter the teaching profession. Many of our alternate route candidates can bring life experiences and a maturity to teaching that traditional route undergraduate students cannot. Our rigorous program helps the state bring diverse quality teachers into a profession that is suffering from high retirement and high attrition rates.

Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.**

   One of the classes in our 24 credit program specifically focuses on how to integrate science, math and technology into the classroom curriculum. Students learn strategies to engage children in active explorations aligned with the NJ Science, Math and Technology Standards. Students recognize the integration of science and math content as vehicles for critical thinking, and children's engagement in the wonder and study of the natural and physical world. Additionally, all of our courses utilize technology to facilitate instruction via web conferences, virtual class discussions, and collaborative group assignments. All of the program courses engage the alternate-route teacher to design learning based on the unique needs of each young learner. Faculty incorporate UDL principles to ensure teachers are prepared to provide multiple means of representation and engagement using technology within the learning environment.

The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Our mission is to prepare professionals who possess the knowledge, skills, and dispositions to transform early childhood, elementary, and life-long literacy education in the service of social justice, inclusivity and democratic values. As a department, we strive collectively with our students to ensure that their teaching is grounded in the following ideals: Respect for the value and high expectations for the learning of every person is a fundamental principle of teaching and learning; All students must be engaged in meaningful and intellectually rigorous learning; Collaboration with families, schools and communities is imperative: Teaching and learning are social processes with political implications; Educators are cultural and political workers who acknowledge their role in a democracy through the promotion of inclusivity and social justice; Critical education is a transformative process that works to change "what is" while simultaneously preparing people to participate in "what is yet to be."; Educators have a responsibility to recognize and disrupt privilege and oppression related to race, gender, LGBTQ identities, disability, immigration and linguistic differences, religious diversity, and class: Making positive social change requires taking initiative through collaborative and collegial engagement with other members of the school and local community.
