

Investigation 4-5: Epi Log Worksheet - Homework Concept Map

Date: ____/____/____

Place the following words and phrases into a Concept Map that depicts how they connect with each other to answer Essential Question 4:

Acceptability of Risk

Epidemiology

Relative Risk

Stakeholders

Analytical Epidemiology

Possible Explanations for an Association

Risk

Association

Hypothesis

Risk Management Strategy

Descriptive Epidemiology

Prevent Disease

Perception of Risk

What should individuals and society do when preventable causes of disease are found?

When a causal association has been identified, decisions about disease prevention strategies are based on more than the scientific evidence. Given competing values, social, economic, and political factors must also be considered.
