

Friends of Detectives

Science Education Partnership Award
2005

Summer

Dear Friends,

In our efforts to disseminate *Detectives in the Classroom*, we have had three "firsts" during the past two weeks:

1. We held our first 2-day Professional Development Workshop with Arkansas teachers at the University of Arkansas for Medical Sciences, hosted by fellow SEPA grantee, Bob Burns and his Partners in Health Sciences Program. We appreciated the invitation and the more than 60 teachers with whom we had an opportunity to interact.
2. While being introduced at the workshop, we learned that we were the first presenters in its 15-year history of the Partners in Health Sciences Program who were not from the University of Arkansas for Medical Sciences. The following link will tell you about the Workshop session. (<http://www.uams.edu/news/default.htm>)
3. We became linked for the first time with the Center for Disease Control and Prevention's Excellence in Curriculum Integration through Teaching Epidemiology (EXCITE) web site. We thank Ralph Cordell, Director of CDC's Office of Science Education and Justine Williams, CDC Internet Consultant for their support. (<http://www.cdc.gov/excite/classroom/index.htm>)

Thanks again for your interest and support.

Mark and Wendy
