

## Spend Authorization Request

The Spend Authorization Request is used to grant permission for a future business expense. These authorizations are initiated by employees on behalf of themselves or others, as indicated. Spend Authorization is only required for an overnight business expense or requesting a per diem only cash advance. Once approved, the spend authorization will encumber the amount of the request against the Cost Center's budget.

## Check Budget

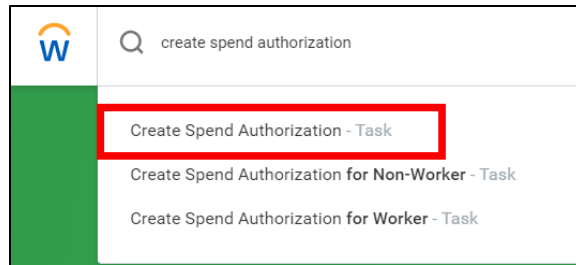

The first step in creating a Spend Authorization is to check the available budget. For cost center and gift transactions, run the R002 Report. If the transaction is for a grant, then the R134 Report should be run.

- In the *Search* field, enter **R002** to find and run the **Budget Report**.
- In the *Search* field, enter **R134** to find and run the **Grant Summary by Ledger Account** report.

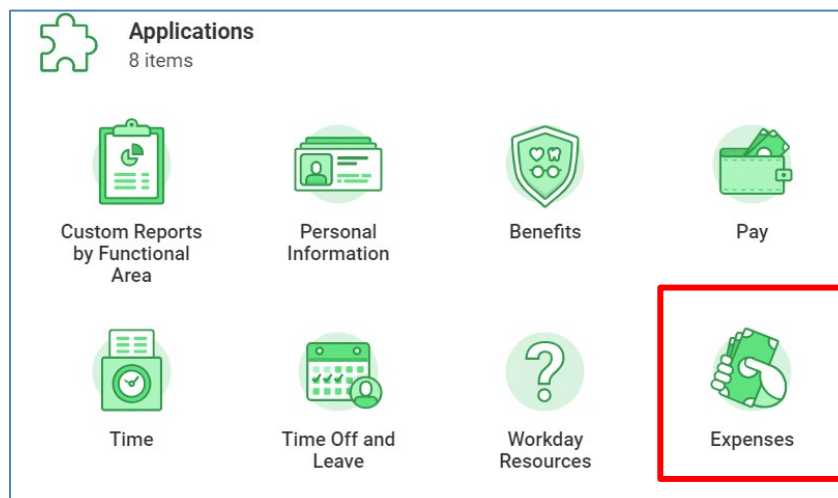

- 1) In the **Organization** field of the R002, select the **Prompt** icon and search for the organization you wish to view. To view a list of all Cost Centers or Gifts to which you have access, select **Active Cost Centers** or **All Gifts**.
- 2) In the **Organization** field of the R134, select the **Prompt** icon and search for the project you wish to view.
- 3) Click the **OK** button.

**OR**, click on **Expenses** from homepage *Applications* and select the **Expenses** application. Then click on **Create Spend Authorization** under **Actions**.

2) From the *Create Spend Authorization* screen, go to the *Spend Authorization Information* section and enter the following:

- **Company:** This field defaults to Montclair State University.
- **Start Date:** Select the start date of the trip.
- **End Date:** Select the end date of the trip.
- **Description:** Enter the title of the request (name of the event, etc.).
- **Business Purpose:** Select the item associated with the purpose of the travel, by typing the name of the classification (i.e. conference). This is a required field.

| Spend Authorization Information |                              | Spend Authorization Details  |                  |

| Description *                   |                              |                              |                  |
| Business Purpose                |                              |                              |                  |
| Currency                        | USD                          |                              |                  |

3) In the *Spend Authorization Details* section enter the following:

If different worktags need to be indicated, click the **X** in the corresponding field to remove the default and search for the appropriate worktag via the **prompt** icon.

**Note** – if these fields are changed on the first line, then all lines added in afterwards will reflect the new information.

Spend Authorizations can **NOT** be split amongst worktags. If cost need to be divided between multiple Cost Centers, Grants, etc., that should be done on the corresponding expense report.

- **Division:** Identifies the division that will pay for the item/service.
- **Additional Worktags:** Identifies what Fund and Program the item/service is being charged to. This field defaults in with the worktags associated to the employee's Cost Center.
