Matheson Tri-Gas

Title: Senior Applications Developer

Location: 150 Allen Rd Suite 302 Basking Ridge, NJ 07920

Job Type: Full-Time

Compensation Type: TBD

Start Date: ASAP

Job Description: The Senior Applications Developer role requires that the individual be a self-starter with demonstrated skills in .NET development, 3-tier application architecture and SQL Server schema design and T-SQL development.

Primary Responsibilities:

- Design and develop n-tier .NET web applications, web services, windows services for applications using ASP.NET, .NET, C#, JavaScript technologies and SQL Server
- Design database schema, develop stored procedures and SQL Server Integration Services (SSIS) packages
- Perform unit testing and troubleshooting applications built on ASP.NET, .NET, C#, JavaScript technologies and SQL Server
- Practice standard development process leveraging agile methodologies such as SCRUM and Test Drive Development.
- Consistently write, translate, and code software programs and applications according to specifications.
- Run and monitor software performance tests on new and existing programs for the purposes of correcting errors, isolating areas for improvement, and general debugging.
- Administer critical analysis of test results and deliver solutions to problem areas.
- Liaise with network administrators, DBA, and software developers to assist in resolving problems with software products or company software systems.
- Create technical documents for software products using Visio, PowerPoint and Office.

Qualifications:

- Bachelor's degree in engineering, computer science, information systems, or a related field from an accredited college or university is preferred
- 5+ years of experience designing/developing web applications for products using ASP.NET, .NET, C#, JavaScript technologies and SQL Server Design database schema, developing stored procedures (T-SQL) and SQL Server Integration Services (SSIS) packages
- Full SDLC experience utilizing Scrum/Agile methodologies
- Ability to complete all phases of software development life cycle including analysis, design, functionality, testing and support
- Ability to innovate and provide functional applications with intuitive interfaces
- Proven analytical and problem-solving abilities.
- Ability to effectively prioritize and execute tasks in a high-pressure environment.
- Experience working both independently and in a team-oriented, collaborative environment.
- Excellent communication skills.
Required Skills:

- C#
- ASP.NET
- .NET Framework version 3.x & 4.x
- Team Foundation Server (TFS)
- Entity Framework
- SQL Server (Transact SQL)
- SQL Server Reporting Services (SSRS)
- SQL Server Integration Services (SSIS)
- XML
- Web Services
- AJAX
- JSON
- Javascript
- DHTML
- ASP
- Microsoft Visual Source Safe (VSS)

Experience with the following is a plus:

- 3rd party controls (Infragistics)
- MVC
