Organization: Elsevier

Title: Technologist

Location: New York or Philadelphia

Job Type: Full Time          Salary: $70,000-75,000

Start Date: Summer 2016      Application Deadline: 3/30/16

Job Description:

We take graduate recruitment very seriously at Elsevier. Part of the 4th largest information provider in the world, we are looking for talented, insightful and innovative graduates to join our 2016 Technology graduate program. Graduate entrants to the Elsevier Technology Group join a team that strives to innovate and constantly improve our range of technologically advanced products. In doing so you will be provided with exciting, challenging assignments; where innovation is the order of the day and where technology drives the global business forward; where you will be using the latest tools and encouraged to explore the opportunities opened up by using new ones.

Primary Responsibilities:

We are offering 10 Technology graduate opportunities for 2016; roles will be based in our offices in New York and Philadelphia.

You will be trained over the course of 2 years in disciplines such as Project Management, Software Engineering, Business Analysis and Information Security and you will gain exposure to technologies and processes such as CRM, BI & Analytics, Cloud Computing, Java, HTML, PHP, Agile and Big Data concepts such as AI and Machine Learning.

Qualifications:

• First and foremost you should be a 2015/2016 graduate
• Ideally you will be a Computer Science, Software Engineering, Business & Computing, Mathematics, Physics major or similar.
• You should have a natural passion for technology and a desire to learn and progress quickly.
• You must be a strong communicator with well-formed interpersonal skills.

Application Instructions:

For consideration, please submit your resume and cover letter to https://reedelsevier.taleo.net/careersection/jobdetail.ftl?job=ELS001U7&lang=en

First round telephone screenings will take place in January/February with assessment days in March/April.
