Argus Information and Advisory Services

Title: Summer Intern Associate, Client & Modeling Solutions

Location: New York, NY

Job Type: Co-op/Internship

Compensation Type: Non-paid

Start Date: Ongoing

Job Description: Argus Information and Advisory Service offers a 10 week summer internship program geared toward highly analytic juniors or first year master students interested in learning more about the Finance Industry and the work we do.

The Summer Intern Associates have similar responsibilities as our full-time Associates and are offered challenging work assignments. These individuals will shadow full-time Associates while working in small teams and gaining exposure to everyday life at Argus. These students have the opportunity and potential to join our team as a full-time Associate upon graduation.

Primary Responsibilities:

- Leverage extensive datasets and various statistical software applications to develop and execute strategic quantitative analysis
- Investigate and report on complex data interactions to help identify and address our clients’ key strategic business opportunities
- Create statistical data models to be used as tools in the development of client portfolio strategies

Qualifications:

- Current Junior or first year Master student in statistics, industrial engineering, mathematics, economics, computer science, finance, or related field
- A track record of outstanding academic performance
- Ability to work creatively and analytically in a problem-solving environment
- Demonstrated quantitative and qualitative skills
- Strong communication (written and oral) skills
- Familiarity with SQL and/or SAS or other data mining or statistical software is desired

Application Instructions: Interested candidates should apply online:

About the organization:

Argus Information and Advisory Services is a Verisk Analytics Company (NASDAQ: VRSK) and the leading provider of analytics, information and solutions to consumer banks and their regulators. Argus helps its clients maximize the value of data and analytics to allocate and align resources to strategic objectives, manage and mitigate risk (default, fraud, funding and compliance), and optimize financial objectives.

Our professionals have substantial industry knowledge, typically greater than fifteen years of experience, in providing solutions to the financial services sector. We are known for our unique ability to blend the
highly technical, data-centered aspects of our projects with expert communication and business knowledge.

We maintain offices in New York, San Francisco, Sao Paulo, Australia, and London and employ approximately 275 professionals.

**Disclaimer information:** Argus Information and Advisory Services is an equal opportunity employer.
