Cantel Medical

Title: Summer Associate I

Location: Little Falls, NJ

Job Type: Co-op/Internship

Compensation Type: Hourly  Wage: $20/hour

Start Date: 5/23/2016  Application Deadline: 5/20/2016

Job Description:

Work with Cantel Medical Master Data team to help standardize master data between the different ERP systems (customer, product and supplier). This is critical for the Business Intelligence Initiatives as well as the future global ERP Project.

This position will help with cleanup of master data within the organization. It will have widespread impact in terms of improving the quality of management reporting.

Primary Responsibilities:

- Gather and compare data dictionaries from each of the ERP Systems
- Identify areas where there is an overlap/duplication in customer and part numbers
- Assist with the definition of future standards for key master data
- Assist with the introduction of processes to minimize future "data contamination"
- Support efforts to clean up the existing data

Qualifications:

We are looking for a student who is studying for a degree in Computer Science or Business Systems. Strong knowledge of Excel and Access is required. Experience with SQL and relational databases is a plus, but not required.

Creative problem solving skills and the ability to take initiative are essential. Having the ability to juggle multiple projects and work under tight deadlines is important.

Application Instructions:
