ING Financial Services, LLC.

Title: Technology Intern

Location: New York, NY

Job Type: Co-op/Internship

Compensation Type: Hourly

Job Description:

We are seeking 4 Computer Science majors to intern with ING Americas in the Information Technology (IT) department. We are open to working around your class schedule. The interns will be working in our Totowa, New Jersey office.

The main premise of the internship is to assist with the migration of data and process to an ORACLE data warehouse. The internship is in IT supporting the Financial Markets (FM) team through the use of utility databases using Microsoft Access to help them with reconciliation, reporting, tracking and other functions.

Primary Responsibilities:

The FM Operations group has developed several utility databases using Microsoft Access to help them with reconciliation, reporting, tracking and other functions. There is a need to migrate the data and processes to an ORACLE data warehouse with a .NET Front-end to achieve a robust, scalable, automated and more secure processing environment.

The Technology Intern will be responsible for the following:

- Conducting an analysis of the existing MS Access databases and their functions
- Programming the User Interface in a .NET framework
- Migrating the data, queries and reports to ORACLE

The candidate will gain a lot of exposure to the underlying business processes related to account maintenance, settlement, clearing and regulatory reporting.
