UPS

Title: 2017 Summer Internship

Location: Mahwah/Wayne/Paramus, NJ

Job Type: Co-op/Internship

Compensation Type: Hourly

Start Date: 5/15/2017  End Date: 8/24/2017

Job Description: Are you a student looking to launch your Information Technology career? If so, then UPS is the place for you!

Once known as a trucking company, UPS is now recognized as a technology company with trucks and is poised for success. Spending more than $1 billion a year on information technology, UPS provides its customers unparalleled capability in tracking and distribution intelligence. This technological infrastructure also enables UPS to provide fully integrated Web-enabled, business-to-business solutions.

UPS Information Services, a leader in information technology, is currently seeking college students to join our team. If you are a highly motivated college student working on a degree in Computer Science, Information Technology, MIS, Mathematics or a related degree, then UPS is a great place for you to start your career.

Qualifications:

- Positions are available requiring one or more of the following skills:
  - Java, JSP, C++, C#, .Net, SQL, Scripting, XML, HTML, Web Development
  - Linux/Unix, Servers, Queries, Mainframe
  - Business Analysis
  - Database Administration, Data Modeling, Data design, Documentation
  - Tools: Testing, QTP, Quality Center, SharePoint
  - Experience developing software for the iPhone, Blackberry and Android
  - Microsoft Office (Access, Excel, Word, PowerPoint)
  - Strong written & verbal communication skills

- Additional Requirements:
  - Must be a U.S. Citizen or National of the U.S., an alien lawfully admitted for permanent residence, or an alien authorized to work in the U.S. for this employer
  - Now or in the future UPS employment sponsorship, such as H1B, TN, J-1, F-1, etc., is not needed in order to start or continue temporary or permanent employment with UPS
  - Student currently enrolled in a degreed college/university program
- Able to work 40 hours per week during the summer months (Monday through Friday)

**Application Instructions:**

Please send resumes to isrecruiter@ups.com.

**About the Organization:** We are a global leader in developing technology that helps our customers optimize their shipping and logistics business processes to lower costs, improve service and increase efficiency. Our expertise in Logistics and Supply Chain Management enables us to offer a broad range of solutions including the development and deployment of advanced technology, the transportation of packages and freight across the world, and the facilitation of international trade to more efficiently manage the world of business. Rooted in the innovative development and use of technology, UPS’s unmatched global network enables the broadest and most reliable solutions in the industry.

UPS leverages technology to empower customers with personalized solutions that simplify global trade and optimize supply chains. No matter what a customer is shipping or where, UPS helps its customers grow, manage costs and improve their customer service.

UPS spends more than $1 billion a year on information technology, so we can provide customers with unparalleled intelligence and services. For example, developed in 2013, ORION (on-road integrated optimization and navigation) delivers significant operational impacts ranging from extensive cost savings to positive environmental effects and raises the bar on efficiency and customer service. The tool uses expansive fleet telematics and advanced algorithms to take route optimization to an unparalleled level. The result of a long-term operational technology investment and commitment by UPS, ORION enables UPS to offer enhanced services and customizable solutions, such as UPS MyChoice.

UPS has a strong promote-from-within culture, allowing you to always find exciting new opportunities at every level of the organization. From training and education to growth and empowerment, you have the freedom to forge a career path that can take you anywhere you want to go.
