Welcome to the PhD in Counseling Program at Montclair State University! We are committed to helping you make this experience professionally and personally rewarding.

This handbook is designed to supplement the Montclair State University Graduate School Doctoral Policy Manual and accompanying resources (see http://www.montclair.edu/graduate/current-students/doctoral-students/). As a result, many policies and procedures set forth on the Graduate School website are not repeated in this handbook, but are binding for PhD students.

The purpose of this handbook is to serve as an overview of policies and procedures of our PhD program, as well as your rights and responsibilities. Answers to questions most frequently asked by students are found within this document. Please review the handbook carefully and keep it close at hand as you are responsible for abiding by the requirements and policies delineated in this guide. If you have questions after reading the handbook, please contact your temporary advisor, myself, or any doctoral faculty member. We are here to help.

While every attempt has been made to include the most current information within this handbook, you are expected to stay current with any procedural changes that may have been instituted since your admission. Changes in policies and procedures made by the Counseling faculty will be shared via e-mail and our Counseling PhD Students Community website located in Canvas (hereafter referred to as Canvas).

When filing a particular form, please obtain the current version from our Canvas page, the Registrar's website, and/or the Graduate School's website.

Again, welcome to the program! We look forward to working with you.

Sincerely,

[Signature]

Angela I. Sheely-Moore, PhD, NCC
Doctoral Program Director
PROGRAM INTRODUCTION

Our PhD Program’s Mission Statement

The primary objective of the Counseling PhD program is to prepare culturally responsive scholars, faculty, advanced practitioners, clinical supervisors, consultants, and directors of counseling services in mental health and educational settings, and social justice counseling advocates to be leaders in maximizing the mental health and quality of life for individuals, families, communities, and educational organizations.

It is the goal of the program to prepare outstanding counseling professionals who: (a) demonstrate multicultural awareness, (b) are sensitive to life developmental issues, (c) can recognize and successfully address mental health needs, (d) are effective social justice advocates who can assist individuals and communities overcome barriers to well-being, (e) are prepared to teach counseling students, supervise practicing counselors, and (f) conduct research and evaluations that make significant contributions to schools, agencies, the counseling profession, and society.

The first cohort of students was admitted into the PhD Counseling program in the fall of 2009. To date, we have had fifteen students graduate who have obtained positions as faculty members in counseling programs, directors of counseling services in higher education settings, and advanced practitioners and clinical supervisors in community settings.

Program Philosophy

The MSU PhD in Counseling program is committed to:

• Developing Scholar-Practitioners
• Promoting Intentional Diversity
• Fostering Innovation and National Recognition
• Nurturing Community Engagement

Our program affords students a unique student-centered doctoral program experience. Students have the opportunity to develop scholarly expertise, tailored to the student’s specific interest, while also learning and engaging in faculty research. Our diverse renowned faculty of scholar-practitioners provide mentoring and advising in research, coursework, and the counseling profession.

The guiding philosophy, goals, policies, and practices of the Counseling program are shaped by its central commitment: to provide learning experiences allowing each graduate to become a fully functioning helping professional in an evolving and diverse world. Inherent in the concept of a fully functioning individual is the notion that emotional and intellectual growth, as well as the worth of each person is emphasized, in addition to academic and professional activities.
PROGRAM OBJECTIVES

By completion of the program, doctoral students will:

1. Design and conduct scholarly research that yields an understanding of research literature and produce results that will make significant contributions to the counseling profession.

2. Utilize and integrate theory and proficient counseling skills into clinical practice, supervision, teaching, and research.

3. Demonstrate skills in the design and evaluation of counseling related services, academic curricula, and professional policy.

4. Demonstrate cultural competence, leadership, and sound ethical decision making in counseling, supervision, teaching, and consultation.

5. Investigate and be aware of local, regional, national and international social contexts and policies concerning human behavior of diverse populations and provide leadership on advocacy and social justice issues in working with marginalized and disenfranchised populations.

6. Provide leadership and participation in local, state, regional, and national professional counseling organizations and conferences.

7. Develop consistent and ongoing self-motivation towards a path of holistic professional growth and life-long learning in the field of counseling.

DESIRED STUDENT QUALITIES

Students admitted to the Counseling program are engaged in a professional preparation curriculum, are accepted as professionals-in-training, and are expected to conduct themselves in accord with professional standards. In this context, a professional is a person engaged in an endeavor which requires advanced training in a body of knowledge that is based on theoretical and applied research, on a set of appropriate skills, and on ethical standards adhered to by members of the profession.

Doctoral students in Counseling are expected to demonstrate the following:

- Academic aptitude for doctoral-level study
- Previous professional experience
- Fitness for the profession, including self-awareness and emotional stability
- Verbal and written communication skills
- Potential and interest for scholarship, professional leadership, and advocacy

Appropriate to their progress in the sequence of course work, doctoral students are encouraged to display an increasing refinement of the following qualities:

**Accountability**

The most respected students and professionals take responsibility for their actions and apply initiative.

**Personal and Professional Growth**

The faculty believes that the most effective professionals and students continually evolve, and that one avenue for growth is personal counseling in either a group or individual setting. However,
because of the ethical prohibition against dual relationships, students should not expect therapy to be provided by the program faculty, in courses or otherwise.

**Commitment**
The faculty places emphasis on:
- *Equal accessibility*—students are sensitive to the inequities many groups and individuals experience, and embrace a multicultural and diverse worldview.
- *Advocacy*—as appropriate, students advocate at various levels to identify and address potential barriers that negatively impact individuals' access to resources, development, and mental health.
- *A lifespan perspective*—students are aware of the developmental stages of different populations and are committed to lifelong development for themselves and those served.
- *Ethical practice*—students are committed to their ethical responsibilities as counselors, supervisors, instructors, researchers, leaders, and advocates; they aspire to meet the spirit, not simply the mandates, of the *ACA Code of Ethics* (2014).
- *The counseling professional*—participation is encouraged in academic, honors, and the American Counseling Association and other professional counseling organizations, on the national, regional, state and community level.

**Evolving Personal Philosophy**
The Counseling program does not espouse a favored theoretical/philosophical approach regarding counseling; instead, the program exposes students to a variety of perspectives and expects students to formulate a personal philosophy of counseling. Students are expected to become capable of designing effective strategies for counseling which consider the nature and purposes of clients and the competencies of the counselor or consultant.

**Professional Identity**
Students are expected to be involved in the American Counseling Association and other professional counseling associations relevant to their areas of specialization, to conduct themselves ethically as professional counselors, and identify as members of the counseling profession in multi-disciplinary settings.

**Research Orientation**
The doctoral program is a research and practice degree. Students will gain a comprehensive awareness of pertinent research during their training, and will develop personal research skills appropriate to their academic and professional goals.

**Leadership**
Members of the faculty strive to model professional leadership and to make students aware of leadership opportunities. Membership in the American Counseling Association is required and active affiliation in ACA and ACA divisions and other organizations related to students' goals is strongly encouraged. Students are encouraged to seek out leadership roles appropriate to their interests.
ACADEMIC TOOLS

There are two websites frequently used within the MSU student community: NEST and Canvas. Students should become familiar with both of these tools. Also, do not forget to check The Graduate School webpage and its dropdown menu for Current Students when looking for forms and policies: http://www.montclair.edu/graduate/

NEST (Network Engagement and Student/Staff Transactions)
NEST is designed to provide students with a convenient method of registering, accessing their schedules, grades, financial accounts and more. Students have access to NEST by logging on with their University NetID and password. To access NEST and learn about its features, go to http://www.montclair.edu/registrar/fall-2016-registration-information/.

Canvas
Canvas allows students to manage their courses online as well as to interact with fellow classmates and instructors. Many instructors choose to use Canvas and it is helpful to become adept at using it. In the case of hybrid courses, Canvas is typically used to supplement days when class does not meet in person. Students can log onto Canvas and view any courses in which they are enrolled, as well as access our Counseling PhD Students Community page: https://montclair.instructure.com/login.

Doctoral Lounge
The CEHS Doctoral Student Lounge is located on the 4th floor of University Hall, room 4017 and is made available to doctoral students only. Students must have a registered MSU ID card to access the lounge. For assistance accessing the lounge, contact the Program Assistant and/or the Department secretary.

CURRICULUM GOALS & POLICIES

The doctoral program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Previous graduate work must include coursework that reflects the CACREP common core areas of study as listed below:

- Career Counseling
- Counseling Techniques
- Counseling Theories
- Group Counseling
- Human Development
- Legal and Ethical Issues in Counseling
- Multicultural Counseling
- Research Methods
- Testing/Appraisal
- Practicum and Internship

Building on the foundation gained at the master's level of preparation, the learning experiences of the Counseling program include activities that focus on three domains:

1. **Knowledge** – using primarily didactic methods to convey theories and facts.
2. **Skills** – using didactic and experiential methods in conjunction with individual supervision.

3. **Personal Development** – by encouraging self-examination, responsibility, and openness to diverse experiences.

To encourage student growth in the aforementioned domains, faculty members strive to meet the following goals:

- Prepare students to work in a dynamic counseling profession and world;
- Train students to be professional *counselors* first and *specialists* second; and
- Immerse students in fundamental knowledge and skills that current professionals deem essential in counseling, counselor education, and counseling supervision.

Based on the above considerations and CACREP standards, the Counseling program serves to address the following categories: experiential, theoretical, clinical, and research. Below is an overview of program requirements along with program planning considerations. Throughout the program, we advise students to consult with their Advisors and members of their Advisory Committees in planning their program of study.

---

**PATH TO DEGREE:**

**PROGRESSING THROUGH THE DOCTORAL PROGRAM**

**Advising and Advisory Committees**

When students are accepted into the program, the Doctoral Program Director (DPD) will initially serve in an advisory role to help students register for their first fall courses. Soon after, each doctoral student is assigned a Temporary Advisor, who will shepherd the student through the first semester and a half of study. By March 15, 2017 students will compose an Advisory Committee with a minimum of three faculty members. The committee chair and at least one other committee member must hold Counseling doctoral faculty status. See Appendix A for list of Departmental and doctoral faculty.

During the first semester of the program we strongly encourage students to get to know faculty members. It is recommended that you select the members of your advisory committee based on content expertise and relational support. When forming the Advisory Committee, students may ask their Temporary Advisor to chair the Committee or ask another Counseling faculty member with granted doctoral faculty status to chair the Committee. In the latter case, students need to decide whether they want their Temporary Advisor to continue on as a member of the Committee or not and discuss their decision with the faculty member. Once the Advisory Committee is finalized, the student and committee members meet to complete an approved *Program of Study* and an *Approval of Advisory Committee* form on or before March 15, 2017.

Members of the Advisory Committee assist students in selecting courses, developing a program course of study to reach the student's goals, approving changes to the plan as needed, mentoring students professionally, and working with students until completion of the comprehensive examination. The Committee is responsible for writing the Doctoral Comprehensive Examination questions for the student and for evaluating responses to the questions. The Advisory Committee also conducts the Oral portion of the comprehensive exam. Upon successfully passing both aspects of the comprehensive examination, the Advisory Committee no longer exists and students form a Dissertation Committee.
Doctoral Student's Record of Progress

The PhD program serves both full and part-time students. Students are expected to maintain "normal progress" in their degree programs. It will be up to the student's Advisor and the DPD to define normal progress for each student. Factors to be taken into consideration include, but are not limited to: (a) grade point average; (b) courses successfully completed toward the degree; (c) unresolved incompletes; (d) progress toward comprehensive examination; and (e) progress towards completion of the dissertation.

Doctoral students with the Advisor, Dissertation Chair, and committee members will submit various forms to document their progress throughout the program. Required program forms are posted on Canvas. The forms generated by the Graduate School are available online at http://www.montclair.edu/graduate/current-students/doctoral-students. In each instance, it is the students’ responsibility to: (a) initiate the approval process for the forms; (b) secure appropriate signatures; and (c) submit completed forms to the relevant person.

The student's ability to maintain normal progress will be assessed each year during the faculty’s annual review of graduate student progress. Refer to p. 18 Faculty Evaluation of Students’ Fitness and Performance for additional information.

Prerequisite Courses

Students whose admission into the program entail prerequisite courses are required to complete those courses as soon as possible (refer to p. 6 Curriculum Goals and Policies). Depending on the actual course(s) needed, students will not be allowed to enroll in the related doctoral level courses until these prerequisites are completed.

Students admitted into the program with the condition that they complete additional internship experiences may be required to complete them before they can enroll in COUN 812 Counseling Supervision, COUN 824 Internship I: Instructorship, or before engaging in teaching or supervision of students in our master’s program.

</tbody>
</table>

## Cognate or Elective Courses (9 - 12 credits)

Students complete a minimum of three courses from a discipline that is relevant to the study of counseling, to be approved by the student's doctoral Advisory Committee. The program requires 9 credits of Cognate courses and 9 credits of Clinical Experience or 12 credits of Cognate courses and 6 credits of Clinical Experience. Cognate courses create a specialization in a given area beyond general doctoral courses. Examples of such academic areas might include, but are not limited to:

- Advanced school counseling and leadership
- College student development and administration
- Social justice/advocacy for social change in counseling
- Issues of gender and multiculturalism in counseling
- Counseling children/counseling adolescents
- Program evaluation and consultation

## Doctoral Dissertation (15 credits minimum)

TOTAL CREDITS: 66
Doctoral Practicum

All doctoral students are required to complete a minimum of 100 hours of practicum, 40 hours of which must be direct service. Students complete the practicum across the following three courses: COUN 812 Counseling Supervision, COUN 816 Advanced Clinical, Leadership, and Organization Assessment, and COUN 818 Advanced Group Counseling. Students are responsible for documenting their hours across the courses using appropriate logs, typically provided by the respective course instructors. A hard copy of these logs must be submitted to the course instructor, and are maintained in the student’s permanent file at the end of each practicum experience. Further, the data are entered into an excel database and tracked to ensure that students complete the required hours across the practicum experiences. Supervision is provided by instructors of each course, all of whom are core counseling faculty.

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>COUN 812: Counseling Supervision</td>
<td>Course work under faculty supervision while providing supervision of master's students. These activities require approximately three to four hours per week outside of scheduled course time.</td>
</tr>
<tr>
<td>COUN 816: Advanced Clinical, Leadership, and Organizational Assessment</td>
<td>Students administer and interpret standardized instruments, meet with each other, as well as with a student in our master's program, and engage in assessment of an organization.</td>
</tr>
<tr>
<td>COUN 818: Advanced Group Counseling</td>
<td>Students facilitate five to six sessions of personal growth groups for master's students (or similar assignment) during the scheduled time of the master's class and then supervise pairs of master’s students in their co-leading a group.</td>
</tr>
</tbody>
</table>

Doctoral Internships

Doctoral internships are planned according to the student's previous experience and professional goals, and approved as a part of the student's doctoral plan of study. All doctoral students are required to complete two doctoral-level internships: a) COUN 824 Internship I: Instructorship, and b) COUN 826 Internship II: Fieldwork. A minimum of 300 hours total in Internship II is required, along with a minimum of 600 total clock hours across the two semesters of Internship I & II. During all internship experiences, students must receive weekly individual or triadic supervision, which may be performed by a site supervisor or university supervisor. Group supervision will be provided by the university during the Internship Seminar throughout the duration of all internship experiences. Liability insurance is required for all internship experiences.

Students complete one semester of COUN 824 Internship I: Instructorship at MSU under the supervision of Counseling faculty. During this internship, students co-teach one 3-credit, master’s counseling course (including Counseling Techniques and Group Counseling), other than practicum or internship (which may be co-taught or taught as part of Internship II). Note that students are not permitted to teach online classes or hybrid classes for COUN 824. Specific requirements for Instructorship are further delineated in Canvas.

All students must complete one semester of COUN 826 Internship II: Fieldwork during which they complete a minimum of 300 hours of fieldwork. If students opt to complete 9 semester hours of cognate courses, they must complete two semesters of COUN 826 (equaling total 600 hours of Internship II). Internship II experiences are to include a combination of at least three of the five doctoral core areas (counseling, teaching, supervision, research, and scholarship) as approved by
students’ Advisory Committees. Students describe the type of work to be completed during Internship II on the Doctoral Internship II: Fieldwork Application Form. Please refer to our Canvas page for forms and specific requirements.

PROGRAM PLANNING CONSIDERATIONS

Below you will find helpful information to consider in planning for progression through the doctoral program.

1. **Students are responsible for:** (a) becoming familiar with the procedures of the University (see the MSU Graduate Catalog and other materials available through the Graduate School); (b) knowing deadlines for registration, add/drop, filing for graduation; (c) meeting with their Advisor and using that person for advice and counsel; and (d) getting to know program faculty during the first semester in the program as it will help when selecting Advisory Committee members.

2. **Out-of-class requirements:** Many of the doctoral courses require time commitments beyond actual class meetings. It behooves students to plan accordingly for these course requirements to maximize the learning experience. This is especially true for the courses that comprise the Practicum (see description page 10).

3. **Practicum and internships:** All students must complete a minimum of 100 hours of advanced practicum and a minimum of 600 hours of internship, which includes three credits of COUN 824 and three credits of COUN 826 (300 hours minimum for COUN 826). Students who enroll in one semester of Internship II must complete 12 credits of Cognate courses.

4. **Course offerings:** Most doctoral courses are offered in the evening, with very few alternate Saturdays. Each fall a tentative schedule of courses for a 2-year period will be available to assist students and Advisors in their planning. See Appendix D for chart detailing proposed course offerings for the next two years. **All course offerings are dependent on adequate enrollment.**

Required research core course offerings are scheduled through the Educational Foundations Department. All four required EDFD courses are typically offered each fall and spring with introductory courses being offered on Wednesdays and advanced courses offered on Thursdays. The EDFD Department periodically offers special topics courses. EDFD 820 and EDFD 821 are typically offered during alternate summers. Please note that the EDFD courses are for students in all doctoral programs in the College of Education and Human Services and fill quickly. Hence, we strongly recommend students to register for any of the required EDFD courses as soon as registration opens.

5. **Cognate courses:** Students are required to complete three or four elective courses (9 or 12 semester hours) related to their area of specialization. Students who complete three cognate courses must complete one semester of Internship I and two semesters of Internship II (6 credits of Internship II/600 hours). Cognate courses must be approved by the members of students' Advisory Committees. Because of this approval requirement, it behooves students to focus on completing core course requirements (including research courses) until they have formed their Advisory Committees. With Committee approval, cognate courses may be taken from any program on campus. Some courses fill quickly so students are advised to register for them promptly and to avoid deferring cognates to the end of coursework if possible.
6. **Eligibility to take comprehensive exams:** Students are eligible to take the comprehensive exam after completing the core requirements. Upon recommendation of their Advisory Committee and approval of the DPD, students may be enrolled in Internship II, their last cognate course, and/or an advanced research course. See the section in this handbook on the Doctoral Comprehensive Examination.

7. **Personal and professional issues:** Course work frequently requires students to deal with personal and professional issues, both situational and developmental in nature. Students’ openness to self-examination and constructive feedback are integral parts of professional development. Moreover, as professionals who adhere to the ACA *Code of Ethics* (2014), faculty are committed to an on-going screening process designed to assist students whose issues interfere significantly with their progress in the program.

8. **Collaboration with faculty members:** Students are strongly encouraged to seek opportunities to collaborate with faculty members on research projects, conference presentations, professional organization involvement, and other professional and scholarly activities. This will enrich your experience and enhance your professional standing.

9. **Non-enrolled individuals in classrooms:** Due to the advanced and often confidential nature of our course content, only instructors, University faculty and administrators, and students enrolled in the specific class will be allowed in the classroom for any Program course during scheduled class time, with the exception of guests specifically invited and/or approved by the instructor. When possible, advance notice will be provided to all class participants.

---

**DOCTORAL COMPREHENSIVE EXAMINATION**

All students are required to successfully complete the comprehensive examination which comprises of two components: 1) written, and 2) oral. This two-part examination is administered fall and spring semesters as well as summer pre-session. The primary goal of the comprehensive exam is to ensure that students have attained knowledge and demonstrated competencies specified for program graduates by the Counseling Program faculty. Students are expected to demonstrate their ability to:

1. Analyze and synthesize information from their doctoral coursework and professional literature;
2. Apply this information to assess effectively issues in counseling, counselor education, counseling supervision, their cognate areas, and related professional issues; and
3. Appropriately apply research methodology to issues impacting practice.

Students may take the comprehensive exam after completing core required courses or, with approval from their Advisory Committee and the DPD, students may take the comprehensive exam while concurrently enrolled in Internship II, the last cognate class required, and/or either Advanced Quantitative or Qualitative Methods of Inquiry. Students must be enrolled in one or more courses or ask the DPD to be enrolled in COUN 920 Qualifying Exam during the semester in which they intend to take the exam. With approval of their Advisory Committee Chairs (on behalf of the Advisory Committee), students submit an *Application for Comprehensive Examination* by the dates on the form (refer to our Canvas page). If the student has not completed all required course work, Advisors shall consult with the DPD before moving forward.
The comprehensive exam includes a written and oral component. Students must successfully pass both components of the comprehensive examination before moving on to the dissertation phrase of the program. Please refer to our Canvas page for details about the Comprehensive Examination, including scheduled dates.

**DISSETRATION**

Following is an overview of information about forming dissertation committees and the dissertation process. Carefully read *Doctoral Dissertation Procedures and Guidelines* posted on The Graduate School website (http://www.montclair.edu/graduate/current-students/doctoral-students/) for current policies, procedures, and forms set forth by the Graduate School. In addition, please refer to our Canvas page for additional information on preparing your dissertation.

**Committee**

Once students have successfully met their previous program requirements, they must appoint a doctoral Dissertation Committee. It is recommended that you select the members of your committee based on content expertise, familiarity with research methodology, or relational support.

The Dissertation Committee Chair may be the student's Advisory Chair or students may ask a new person to serve in this role; faculty members who serve as Chairs or as members of Advisory Committees do not assume that they will be on a student's Dissertation Committee. The members of the Dissertation Committee are responsible for the approval of a dissertation proposal after it has been presented and defended, the supervision of the dissertation, the final approval of the dissertation based on its written form and the student's oral defense.

The Dissertation Committee must be comprised of a minimum of three members, of whom the Dissertation Committee Chairperson and at least one additional member must be Counseling Program faculty with doctoral faculty status. Students must submit the *Approval of the Dissertation Committee* form (go to http://www.montclair.edu/graduate/current-students/forms/).

Students requesting someone from outside our Counseling program to be on their Committee must be approved by the student's Dissertation Committee Chair, the DPD, and the Dean of CEHS, after which the student must complete and submit the *Request for Approval of an Outside Dissertation Committee Member* form to the Graduate School. The final approval rests with the Dean of the Graduate School.

**Proposal**

After doctoral students have been admitted to candidacy and selected their Dissertation Chair and Dissertation Committee members, they are eligible to begin to work on the dissertation proposal. The proposal should set forth:

- Statement of the problem/inquiry
- Justification of proposed research
- Relevant prior research
- Procedures and methods of research/inquiry
- Data sources, if relevant
- Reference list
A formal defense of the proposal is required. The full Dissertation Committee must meet with the student and discuss the proposal prior to its approval. The Committee, through a unanimous decision, approves, modifies, or rejects the proposal. Once the student has successfully defended the proposal and it has been approved by the Dissertation Committee, the student must complete the Approval of the Dissertation Proposal form and submit it along with a hard copy of the proposal (that can be printed on both sides of the paper) to the DPD who will process and send it to the Graduate Dean for approval. The Approval of the Dissertation Proposal form will be returned to the student, indicating whether the proposal has been approved. The Institutional Review Board approval for the student's dissertation project should be filed at this time. Students are responsible for distributing a copy of the approved proposal to each member of the Committee and to the DPD.

**Important Notes:**
- Students should plan on a minimum of 7-10 working days between the submission of their drafts and receiving feedback from their Dissertation Chair and Committee members.
- A dissertation defense may **not** occur in the same semester as the approval of the dissertation proposal.
- Students must have an approved dissertation proposal within three years of advancement to candidacy (after successfully completing both oral and written components of comprehensive examination).

**Institutional Review Board (IRB) Approval**
The primary responsibility for insuring ethical treatment of research participants lies with the student and Dissertation Chair. Doctoral candidates must receive approval from the IRB before conducting research that involves human participants or animal subjects. Students usually complete and submit their IRB application approval request after their dissertation proposal has been formally approved by their committee. Under the following conditions, students may submit an IRB application prior to receiving approval of their proposal by their Committee and/or receipt of the Approval of Dissertation Proposal form from the Graduate Dean:

(a) A **written approval** from the Chair **and** all members of the student’s Committee must be submitted to the DPD and kept on file;

(b) The student submits a signed statement to the DPD, noting that the students understands that:

1. Even with IRB approval, students may **not** begin to recruit participants or collect any data related to their dissertation until the proposal has been approved by their Committee and they have received a signed Approval of Dissertation Proposal form from the Dean of the Graduate School; and,

2. If their Committee requires any changes to the student’s methodology that changes any information submitted on the IRB application, the student must submit an amendment to the IRB and that amendment must be approved before students do any recruitment or data collection.

**Writing the Dissertation**
The dissertation is the final example of the candidate's readiness for the degree. In close consultation with the Doctoral Committee, the student will develop an original research study as approved in the Dissertation Proposal. A doctoral dissertation must demonstrate the candidate's ability to conceive, design, conduct, and interpret independent, original, and creative research, and mastery of theoretical, methodological, historical, and empirical issues relevant to the chosen research topic. A
student's dissertation should relate to the student's program of study and make a unique contribution to knowledge in the professional literature.

Following the approval of the dissertation topic, students are required to maintain continuous enrollment during fall and spring semesters for dissertation study and through the dissertation defense. Continuous enrollment begins the semester after the dissertation topic is approved. Students are to enroll in COUN 900: Dissertation Advisement each semester while working on their dissertation. If the dissertation is not completed after a successful completion of 15 dissertation credit hours, students must enroll in COUN 901 (1 credit) to maintain continuous enrollment. Students should access and complete the electronic enrollment form on the Graduate School’s website at http://www.montclair.edu/graduate/current-students/forms/.

Dissertation Oral Examination

Each candidate must pass a final oral examination regarding the completed dissertation, sometimes called the "dissertation defense" or the "dissertation oral." The Dissertation Oral is conducted by the Dissertation Committee, with the Chairperson of the Dissertation Committee as moderator. Working with the Dissertation Committee Chair, the student adheres to procedures outlined on the Dissertation Defense Chart provided by the Graduate School. Please refer to the link for the most current Doctoral Dissertation Procedures and Guidelines on the Graduate School’s website at http://www.montclair.edu/graduate/current-students/doctoral-students/.

The oral defense of the dissertation is scheduled for two hours. According to the Graduate School:

- Attendance by the candidate and all members of the Dissertation Committee is required.
- The DPD, an impartial department representative, or a representative from The Graduate School (Dean or Associate Dean) will attend Dissertation Orals as an observer and ensure that the defense is carried out in a manner consistent with University policy.
- There are three possible outcomes which are determined by the committee: Pass, Fail, or Pass with Conditions. The outcome must be listed on the Report of Dissertation Defense form, signed by all Committee members and returned to The Graduate School for final approval by the Graduate Dean within 24 hours of the defense.

Notes: (a) Students are responsible to review and adhere to the most current policies and procedures posted on the Graduate School website; (b) the subject content and appropriate supervision of all aspects of the dissertation process is the responsibility of the Dissertation Chair and Committee; (c) an electronic copy of the dissertation as approved by the Committee must be submitted to the Graduate School for approval; (d) the Graduate School will approve the dissertation only if style, form, and content standards appropriate for the discipline are maintained; further, students must submit completed signature page(s) to the Graduate School prior to final approval; and (e) students are to submit electronic copies (both word and pdf documents) of the dissertation as approved by the Graduate School to the Doctoral Program Assistant.

Graduation

Students who have completed all requirements for the doctoral degree, including the successful defense and submission of the dissertation prior to dissertation filing deadlines listed on the Graduate School's website, will be invited to attend the appropriate May Graduate School Convocation and University Commencement ceremonies. Students must respond to the Graduate School if they intend to attend either one, or both, of these activities in order to be called by name at the ceremonies.
Students in the Counseling Program are encouraged to seek membership and active involvement in various professional organizations available at the university, state, regional, and national levels that are appropriate to their chosen areas of concentration. There are many benefits from membership in professional counseling organizations and counseling related organizations. For example, as a member of a professional organization one:

- Receives the organization's publications;
- Is entitled to reduced membership rates for registration for professional meetings sponsored by the organization and usually reduced rates for resources such as books;
- Is afforded opportunities for leadership and service activities and involvement in activities pertinent to the counseling profession and consumers of our services;
- Is eligible for member services (e.g., professional liability insurance, legal defense funds, library resource use); and,
- Is provided with opportunities to network with other professionals who share interests and areas of expertise. In addition to the possibility of helping in job searches, networking may lead to forming research partnerships.

The primary national organization to join is the American Counseling Association (ACA). Student membership in ACA is required for all students in the Counseling program. The ACA has national divisions, state branches, and organizational affiliates that span counseling, personnel, and guidance work at all levels in various settings. The website is http://www.counseling.org. The primary state organization is the New Jersey Counseling Association. There are also divisions within both the national and state organizations for counseling specialties.

The ACA’s 20 divisions enhance professional identity and are organized around specific interest and practice areas. The divisions provide professional strength and satisfy the diverse needs of the counseling community. The purpose for affiliating with a division is to enhance the networking, collegiality, and advancement of the counseling profession on a national level. Program faculty have been actively involved in many of the divisions. Students may find information for each of the 20 divisions at http://www.counseling.org/about-us/divisions-regions-and-branches.

Chi Sigma Iota (CSI) is the international academic and professional honor society of professional counseling. It was established for counselors-in-training, counselor educators, and professional counselors who are committed to research and service through professional counseling. Its mission is to promote scholarship, research, professionalism, leadership, and excellence in counseling, and to recognize high attainment in the pursuit of academic and clinical excellence in the profession of counseling. All doctoral students are encouraged to join our Chi Sigma Mu Chapter of CSI, which was established in 2006. Students eligible to apply for CSI membership will receive a formal invitation from the chapter. For more information about CSI visit www.csi-net.org.

Policies outlined in this section are specific to the Counseling Program. The program is also governed by University Policies, some which are outlined in the next section.
Doctoral Fellowships and Assistantships
There are a limited number of doctoral fellowships and assistantships available for qualified students who plan on attending the program and who indicated interest upon initial application. Inquiries should be made to the Graduate School and DPD.

Endorsement
In compliance with the ACA Code of Ethics (2014), faculty members endorse students for certification, licensure, and employment when such endorsements reflect the expertise students gained in their PhD program and in accordance with students’ areas of specialization. Regardless of academic qualifications, supervisors do not endorse students whom they believe to be impaired in any way that would interfere with the performance of the duties associated with the endorsement.

Liability Insurance
All students are required to obtain professional liability insurance when providing counseling services or supervising master's students; this coverage would include semesters in which students are completing COUN 812 Supervision, COUN 818 Advanced Group, COUN 816 Advanced Assessment, COUN 824 Internship I: Instructorship, and COUN 826 Internship II. While lawsuits involving student counselors are relatively uncommon, any service provided to the public by a professional or a professional-in-training is vulnerable to the threat of lawsuit. Liability insurance is available to ACA members.

Code of Conduct and Academic Integrity
The Counseling Program is committed to developing a community of learners and scholars within an environment that fosters respect and integrity among all of its members. Students have the responsibility to know and observe all requirements of the MSU Code of Conduct: [http://www.montclair.edu/dean-of-students/student-conduct/code-conduct/](http://www.montclair.edu/dean-of-students/student-conduct/code-conduct/).

Students are expected to know and adhere to the MSU Academic Honesty Policy ([http://www.montclair.edu/dean-of-students/student-conduct/academic-integrity/](http://www.montclair.edu/dean-of-students/student-conduct/academic-integrity/)). Academic dishonesty at the University involves acts that may subvert or compromise the integrity of the educational process. Specifically, any act by which a student gains or attempts to gain academic advantage through misrepresentation of him/herself, or another person, by his/herself, or another person's work. These acts include, but are not limited to: acts that interfere with the completion, submission, or evaluation of work; cheating; fabrication or falsification of information; multiple submissions of academic work; plagiarism; abuse of academic material; and, complicity in academic dishonesty. Do not plagiarize for any doctoral courses. Any suspected violation of the University Academic Honesty Policy will be immediately reported to the Office of the Dean of Students at MSU.

Academic Status
Students matriculated in the PhD Counseling Program are required to maintain a minimum overall GPA of 3.0 and must not earn more than one C level grade (C+, C, or C-) throughout their doctoral course work. A grade of “D” is not available for any courses taken by doctoral students. Earning two grades that are C level will result in dismissal from the program. If a student’s GPA falls below 3.0, s/he is placed on Academic Probation and must raise it above 3.0 within two (2) semesters or be dismissed from the Program. Further, if a doctoral student receives a grade of “C” in any course (including electives), the following procedures must be followed:

- The student is to meet with her or his advisor and, to continue enrollment in the next semester, the advisor will sign a form stating that the student and advisor met with about the
In addition, students must earn a grade of B- or higher in clinical courses. These include doctoral practicum courses (Counselor Supervision, Advanced Group Counseling, and Advanced Clinical, Leadership, and Organizational Assessment) and internship courses (Internship I: Instructorship and Internship II: Fieldwork). Students earning a grade of C in a clinical course will be subject to dismissal.

Counseling PhD Program Review and Retention Policies

Students’ academic and professional performances are assessed throughout their time in the program. The faculty regularly communicates with one another regarding individual student performance, as part of best practices in instruction, professional development, and gate-keeping. Students are expected to perform academically and conduct themselves in a manner that is congruent with the role of a professional counselor and counselor educator. This includes presentation of self on and off campus, all forms of communication, including in person and electronic, on-line presence, and overall comportment.

Retention decisions at all levels require demonstration of consistently high academic and clinical performance. These requirements are in accordance with the Faculty Annual Evaluation of Doctoral Student Performance and Progress (see Canvas) and the Annual PhD Student Self-Report of Progress (see Canvas) in which faculty review students’ academic, professional, and personal progress throughout the program. Students must demonstrate qualities of good character consistent with the program’s mission and policies, the ethical guidelines of the American Counseling Association, and the Council for Accreditation of Counseling and Related Programs.

Faculty Evaluation of Students’ Fitness and Performance

The faculty conducts a formal annual review of all students on 18 criteria via the Faculty Annual Evaluation of Doctoral Student Performance and Progress (refer to Canvas). Students must obtain a minimum average rating of satisfactory (3) in each of the assessment areas. Satisfactory student performance at the one-year review must be supported by two-thirds of the graduate faculty for program continuation.

Students submit an Annual Ph.D. Student Self-Report of Progress (see Canvas) in the fall of the academic year to their faculty Advisor. The faculty Advisor along with the Advisory Committee approves the report and any recommendations for improvement. The Advisor then presents the recommendations to the doctoral faculty for approval and disposition. Students receive feedback after formal evaluation by their faculty advisor and Committee. If a student is not making satisfactory progress as evidenced by the annual report submitted, the faculty Advisor meets with the student to discuss the evaluation and provide feedback. The DPD may be asked by the faculty Advisor to meet with the student and/or to initiate the appropriate action specified in the Student Remediation and Retention/Dismissal Procedures. Students receiving less than satisfactory evaluations in any area of their annual review will be given the opportunity to develop a remediation plan with their advisor except in situations requiring more immediate action, such as removal from client and/or student contact and/or the program.

If at any point in a student’s program, a serious form of unprofessional behavior has occurred, remediation may not be an option. Students can be removed from the program for unethical or
unprofessional behavior, regardless of academic standing. If a student is believed to be in violation of ethical or professional behavior that threatens client and/or student welfare, the student will be prohibited from seeing clients and/or working with students. All persons involved with the student's practicum or internship will be immediately informed of the decision.

**Student Remediation**

The members of the Counseling faculty endorse the American Counseling Association 2014 *Code of Ethics* that states that counselor educators have a responsibility to provide regular feedback to students (per evaluation of the *Faculty Annual Evaluation of Doctoral Student Performance and Progress* and *Annual Ph.D. Student Self-Report of Progress*) and to dismiss students who are unable to render competent service due to academic or personal limitations. Faculty members will make reasonable efforts to: 1) consult with colleagues and document their decision to refer students for assistance or to request that students be put on probation or dismissed from the program; 2) support students in obtaining remedial assistance; and 3) assure that students have adequate recourse to address decisions made.

Students may also be dismissed for overt violations of the current ACA 2014 *Code of Ethics* or for "personal unsuitability for the profession." Examples of behavior which would lead faculty to professionally judge a student "personally unsuitable for the profession" include, but are not limited to:

- Consistent inability to assess problem situations in a professional or educational setting and determine how to negotiate/compromise or otherwise resolve the situation.
- Consistent inability to recognize personal boundary/power issues which inhibit or prevent the student from learning appropriate professional behavior/counseling skills.
- Consistent inability to work as a team member.
- Consistent inability or refusal to participate, without advisor consultation, in learning activities designed to promote and improve the student's self-understanding, self-analysis skills, and interpersonal skills.

Faculty may work on an informal basis with students in their courses who are evidencing academic, clinical, or non-academic difficulties (e.g., personal issues are affecting student’s ability to work effectively) when circumstances indicate that this method may be productive. The faculty member and student will discuss the problem(s), review appropriate measures of correction, and establish a timeline for change. In addition, the faculty member may consult with the faculty advisor and/or other program faculty. This should be done prior to initiating formal remediation procedures except when the severity of the problem does not allow for an informal method. In such incidences, formal remediation procedures may be implemented as delineated in the section on remediation below.

**Process Remediation and/or Dismissal**

All students must participate in the annual reviews and complete the *Annual PhD Student Self-Report of Progress*. They may also be subject to evaluation throughout the program when concerns regarding students’ education, professional, ethical, and general suitability for the profession might be raised. Students are evaluated on clinical, professional, and interpersonal functioning. The process of evaluation, review, and retention is as follows:

- If informal remediation procedures do not resolve issues (as described above), then formal remediation procedures are initiated.
- A faculty member who is concerned about the behavior or performance of a student completes a *Disposition Form*. This form is kept in the student’s file.
The Doctoral Counseling faculty as a whole will meet to review the Disposition Form and discuss the concerns of the reporting faculty member. Out of this discussion, three options are considered:

1. No recommendations are made to the student.
2. Student is recommended for remediation (to be determined by the faculty).
3. Student is recommended for dismissal from the program.

If options 2 or 3 are decided upon, a meeting is scheduled with the student. This meeting may include the entire Advisory Committee or only the student's Advisor. Faculty's concerns and recommendations are to be clearly explained to the student. The student will be allowed to discuss his or her thoughts, feelings, and reactions.

Should remediation be recommended, the student will be presented with a written document stating the exact actions the student must take for remediation. At the meeting with the Advisory Committee, this recommendation will clearly specify what changes in behavior are expected and what time limits are operative. It will also include a statement to the effect that a failure of remediation may result in dismissal from the program. This constitutes "due process" - the student is advised of his or her shortcomings, is given an opportunity to correct them, and is made aware of the possible consequences of failure. Whenever a student is required to complete a remediation plan, the written plan will include the following information:

- A behavioral description of the problem;
- Course of remediation;
- Criteria stated in behavioral terms for completing the remediation or probationary status;
- Evaluation criteria;
- A specific time frame for meeting these criteria;
- A summary of the options available to the student (e.g., following the remediation plan, appeals, withdrawal from the program); and
- A description of the consequences of not meeting criteria within the time frame.

If there is insufficient improvement within the specified time period, the student will be so advised and given a period of time (2 weeks) to prepare her/his case for rebuttal.

If the decision is for dismissal, it will be presented to the student in writing, summarizing the nature of the problem, opportunities for remediation and the basis for the final decision. The student will be offered a chance to consult with career counseling available at the MSU Career Counseling Center.

The committee and/or the student may consult with other faculty and university employees, as appropriate to assist in making a more objective, informed decision.

Results of all meetings and consults will be documented and kept in the student's confidential file.

The student may choose to comply with recommendations or use the appeals process already in place at the university.

**Appeal of Decision**

Students may appeal charges or decisions that result from this process. Appeals are to be directed to the Chair of the Department of Counseling and Educational Leadership, who will determine the appropriate course of action.
Student Impairment
In accordance with the ACA Code of Ethics (2014), faculty members must address student impairment. Student impairment impedes a student's ability to achieve the competence and professional behavior expected of all counselors. Impairment is defined as an interference in professional functioning that is reflected in one or more of the following ways:

- inability or unwillingness to acquire and integrate professional and ethical standards into one's repertoire of professional behavior;
- inability to acquire professional skills and reach an accepted level of competency; or
- inability to control personal stress, psychological dysfunction, or emotional reactions that may affect professional functioning.

If warranted, the Counseling faculty reserves the right to recommend entry into personal counseling or psychotherapy as a condition of continuation in the Program. Identification of impairment can result in remediation, suspension, or termination from the program.

UNIVERSITY POLICIES

Academic Grievance Procedures for Graduate Students
The Graduate School recognizes that there may be occasions when a graduate student, as a result of dissatisfaction with some aspect of her or his academic involvement, has a grievance. It is the declared objective of this University that such a graduate student may have prompt and formal resolution of her or his personal academic grievances and that this is accomplished according to orderly procedures. The procedures are provided in the Graduate Catalog. Filing a formal academic grievance is a serious matter, and the student is strongly encouraged to seek informal resolution at the program and department level before taking such a step.

Continuous Matriculation Requirement
Students must complete at least six credits in each academic year (Fall/Spring/Summer), and must be continuously enrolled in the fall and spring semesters until completion of all requirements for graduation, including the semester in which they graduate. Students who do not register for a credit-bearing course or who have not been granted an approved Leave of Absence in either the Fall or Spring semesters must register for a 0 credit Continuous Matriculation course (GRADDC for Doctoral programs) in that semester and pay a continuous enrollment fee. This course is not part of the degree program and is not assigned a grade. Students must register for the Continuous Matriculation course by the end of the Drop/Add period (the second week of the semester). Students who do not register for this course by the deadline will have a registration hold placed on their account. For more information go to: https://www.montclair.edu/graduate/current-students/policies-procedures-guidelines/#ContinuousMat

During the semester in which students are taking their oral and written comprehensive exam, if they have already completed all required coursework and are therefore not registering for any courses, students are to request that they be enrolled in COUN 920 Qualifying Examination. Enrollment in COUN 920 acknowledges that students are actively engaged in their program during that semester but there is no credit assigned; the course is not part of the degree program and is not assigned a grade. To enroll in either GRADDC or COUN 920, students must contact the DPD.
Course Load
A course load of nine (9) semester hours constitutes full-time enrollment in fall or spring. With approval from the Advisor, a student may register for a maximum of twelve (12) credits in the fall or spring. A course load of six (6) hours in a summer session is considered full-time status. Although it is summer school policy that graduate students may take up to twelve (12) semester hours of coursework during the summer, we do not recommend students taking more than three courses during any combination of summer sessions. Note that students may take only two courses concurrently in an eight-week session and one course during a three-week pre- or post-summer session.

Grades of Incomplete
Only for unusual circumstances will a grade of Incomplete (IN) be given for any course. When it has been determined by the instructor that such a grade is appropriate, the student must fill out a Contract for an Incomplete form, located on the Registrar’s website at http://www.montclair.edu/media/montclairedu/graduateschoolthe/students/incompletecontract.PDF. This formal contract delineates conditions for removing the grade of IN. Students can carry no more than two IN grades at any time. Students who have two outstanding IN grades will not be allowed to register for courses until one or both have been completed.

For the IN grade to be removed, students are responsible for completing their work by the following dates:

<table>
<thead>
<tr>
<th>Semester Incomplete was assigned</th>
<th>Deadline to complete coursework to remove Incomplete</th>
</tr>
</thead>
<tbody>
<tr>
<td>Previous Fall and/or Winter Semester</td>
<td>February 15</td>
</tr>
<tr>
<td>Previous Spring Semester</td>
<td>June 30</td>
</tr>
<tr>
<td>Summer Sessions</td>
<td>October 15</td>
</tr>
</tbody>
</table>

Instructors submit a Change of Grade form once the student has completed all required work. If no change of grade form is submitted by the dates aforementioned, the grade of IN will become a grade of F. If there is reason to extend the deadline for an IN grade removal, it is the student's responsibility to submit a Request of Extension of an Incomplete Grade to the Office of the Registrar. This request must be signed by the instructor and appropriate Chairperson and Dean.

The one exception to this policy is the dissertation. All dissertation credits will be assigned a grade of incomplete until after the dissertation defense.

Independent Study
Following are University regulations related to independent study at the doctoral level.

Requirements for Students to take an Independent Study. Students may register for independent study in the fall, spring, or summer. Students admitted to doctoral programs post-Master’s must have completed at least 6 credits toward the degree (their PhD) being pursued and have a GPA of at least 3.0 to engage in independent study.

Application for Independent Study. Students must submit an Independent Study Application form, available online through the Registrar’s Office website. The form must be completed as specified and must be signed by the student, instructor, and Department Chairperson or Program Director. The completed form is submitted in person by the student to the Office of the Registrar at the time of registration.
The student and faculty member must develop a written agreement, which includes: (a) name of student and instructor; (b) title of the independent study; (c) semester; (d) course number on application form; and (e) brief delineation of goals/learning outcomes, assignments, and work products along with dates due, criteria for grading evaluation, and schedule of meetings between student and instructor. The agreement should be signed by the student and instructor and submitted to the DPD along with a copy of the Application for Independent Study form. These will be kept in students’ files.

**Time for Completion of Independent Studies.** Independent study assignments are expected to be completed by the end of the session specified on the Independent Study Application form.

**Leave of Absence**

*Students may request ONE leave of absence for the entire duration of the graduate program.* A leave of absence is considered ONE semester. The leave of absence will be excluded from the time limit for completion of a graduate program. Requests for a leave of absence must be submitted to The Graduate School using their online Leave of Absence form by the end of the Add/Drop period (the second week of the semester) and no requests will be granted retroactively. There will be no exceptions. If a leave of absence is granted, it is the student’s responsibility to withdraw from any registered courses. Students on a leave of absence are not required to register for the Continuous Matriculation course. Students will be held accountable for any costs incurred for registered courses. If you are readmitted into a graduate program and have taken a leave of absence previously, you will not be granted an additional leave of absence.

**Time Limitations for Completion of Doctoral Degree Program**

Students have seven (7) years from the date of matriculation, excluding any leaves of absence, to complete the PhD in Counseling. Only under special extenuating circumstances is it possible to request and obtain an extension of time beyond this seven-year limit. If a time extension is necessary, a request for the extension must be filed with the Graduate Dean. The Graduate Dean, in consultation with the DPD, will review the student's progress. Following this review, a decision will be reached. The Graduate School will notify the student and the DPD of the decision.

**Title IX**

Title IX of the Education Amendments of 1972 ("Title IX"), 20 U.S.C. §1681 et seq., is a Federal civil rights law that prohibits discrimination on the basis of sex in education programs and activities. All public and private colleges, and universities receiving any federal funds must comply with Title IX. Under Title IX, discrimination on the basis of sex can include sexual harassment or sexual violence, such as rape, sexual assault, sexual battery, and sexual coercion.

Through the policies and procedures outlined, Montclair State University seeks to comply with all Department of Education Title IX regulations. While the University cannot guarantee that campus individuals will always act with good judgment and with the best of intentions, the University can assure that it will endeavor to comply with these regulations while ensuring that students have "an environment as safe as possible." For guidelines on how to file sexual harassment/sexual assault complaints go to [http://www.montclair.edu/sexual-harrassment/sexual-harassment-complaint-procedures-students/](http://www.montclair.edu/sexual-harrassment/sexual-harassment-complaint-procedures-students/)
Transfer Credits
Up to two courses or six credit hours (which have not been credited towards another degree) can be transferred towards the doctoral degree. The grade in these transfer courses must be a "B" or higher and all transfer credits must be approved by students’ Advisory Committee members, the DPD and the Dean of the Graduate School upon receipt of the Transfer Credit form, which can be accessed at: http://www.montclair.edu/media/montclairedu/graduateschoolthe/pdfs/transferCredit.pdf

RESOURCES FOR PHYSICAL, PSYCHOLOGICAL, SOCIAL, & SPIRITUAL WELLNESS

The Campus Recreation Facility features a six-lane swimming pool; a two-court gymnasium with an elevated running track; two racquetball courts; two-level fitness, strength and cardio training areas; space for aerobics and other fitness activities; and locker rooms. Go to http://www.montclair.edu/campus-recreation/ for additional information.

The University Health Center (UHC) is a comprehensive outpatient health care facility serving all registered students. The department functions in the same manner as a private medical office. Students enrolled at MSU pay a mandatory University Health fee which covers most services at UHC. Prescription medication and diagnostic testing are common additional costs. Call 973-655-4361 or visit https://www.montclair.edu/university-health-center/

Counseling and Psychological Services (CAPS) offers individual and group counseling to students, as well as a variety of educational and consultative services. Counselors, supervisors, and faculty who have self-insight are more effective in fulfilling their various roles and in reducing the likelihood of personal issues negatively impacting their work with clients, supervisees, or students. If you're experiencing difficulties, CAPS (located on the 1st floor of Russ Hall; 973-655-5211) is one campus resource available to assist students. Services are free and confidential. Visit http://www.montclair.edu/caps/.

The Disability Resource Center (DRC) (http://www.montclair.edu/drc/):
MSU is committed to the full inclusion of students with disabilities in all curricular and co-curricular activities as mandated by Section 504 of the Rehabilitation Act of 1973. It is faculty responsibility to provide appropriate services to all students, including those with documented disabilities. Please make an appointment with your instructors if you need to discuss individual accommodations. Contact the DRC (located at 100 Webster Hall) for questions at 973-655-5431. The DRC staff will assist you in receiving reasonable accommodations and services necessary to equalize access. The DRC provides assistance to students with physical, sensory, learning, psychological, neurological, and chronic medical disabilities.

The Women's Center offers women and men from campus and surrounding communities an opportunity to explore topics of individual and collective importance to women in an open and comfortable atmosphere. Services offered are meant to support individuals in their search for personal development, their quest for self-esteem, and their achievement of individual and social empowerment. The Center is located in the Student Center Room 421. Call 973-655-3282/5114.

The Council for Faith and Spirituality is located in the Student Center Building, Suite 112. Their mission is to encourage faith-based collaboration, discussion, and exploration within an environment that promotes interfaith understanding. The Council offers a place for students to meditate as well as
activities and events throughout the year that support all faith traditions. Call 973-655-7130 or go to [http://www.montclair.edu/dean-of-students/ministry/](http://www.montclair.edu/dean-of-students/ministry/) for additional information.

**The Lesbian, Gay, Bisexual, Transgender, Queer (LGBTQ) Center**, located in room 110 of the Student Center, seeks to create an open, accepting, and affirming atmosphere for LGBTQ students, faculty, staff, and their allies at MSU. Through education, programming, and discussion groups, the LGBTQ Center allows for unique and important conversations to occur regarding LGBTQ issues. All members of the campus community are welcome. Call 973-655-7563 or go to [http://www.montclair.edu/lgbt/](http://www.montclair.edu/lgbt/) for additional information.

In case of **emergencies call University Police** at 973-655-5222.
APPENDIX A: COUNSELING PROGRAM FACULTY AND STAFF

Department Chair and Staff

Kathy A. Gainor, Department Chair, Counseling and Educational Leadership
Office: University Hall, Room 3161
Phone Number: (973) 655-7216
Email: gainork@mail.montclair.edu
Professional Research/Interests: Multicultural Counseling, Career Counseling, Counselor Training and Pedagogy.

Susan Fuller, Program Assistant, Ph.D. Program in Counseling
Office: University Hall, Room 3162
Phone: (973) 655-3133
Email: fullersu@mail.montclair.edu

Mary Andreoli, CEL Department Secretary
Office: University Hall, Room 3162
Phone Number: (973) 655-7216
Email: andreolim@mail.montclair.edu

Lucille A. Gesualdi, CEL Department Administrator
Office: University Hall, Room 3165
Phone Number: (973) 655-6844
Email: gesualdil@mail.montclair.edu

Kathleen M. Mangano, Clinical Coordinator
Office: University Hall, Room 2170
Phone Number: (973) 655-3455
Email: manganok@mail.montclair.edu

Counseling Program Faculty

Muninder Kaur Ahluwalia*
Office: University Hall, Room 3185
Phone Number: (973) 655-7622
Email: ahuwaliam@mail.montclair.edu
Professional Research/Interests: Multicultural Counseling Training, Issues of Identity and Self Among South Asians, Discrimination and Asian American Women, and methodological issues in qualitative research.

Vanessa Alleyne
Office: University Hall, Room 3171
Phone Number: (973) 655-6996
Email: alleynev@mail.montclair.edu
Amanda L. Baden*
Office: University Hall, Room 3211
Phone Number: (973) 655-7336
Email: badena@mail.montclair.edu
Professional Research/Interests: Multicultural Counseling Competence, Racial and Cultural Identity, Counseling Adoption Triad Members, Transracial/International Adoption, Microaggressions.

Kathy A. Gainor, Department Chair, Counseling and Educational Leadership
Office: University Hall, Room 3161
Phone Number: (973) 655-7216
Email: gainork@mail.montclair.edu
Professional Research/Interests: Multicultural Counseling, Career Counseling, Counselor Training and Pedagogy.

Harriet L. Glosoff*
Office: University Hall, Room 3189
Phone Number: (973) 655-3482
Email: glossofh@mail.montclair.edu
Professional Research/Interests: Professional ethics and ethical-decision making; cultural and spiritual issues in counseling, supervision, and counselor education; preparing counselors as social justice advocates; and best practices in clinical supervision.

Email: shurtsm@mail.montclair.edu  
Professional Research/Interests: Premarital counseling, Romantic relationship development, consultation, holistic wellness, Counselor preparation and supervision, Technology and counseling.

*These faculty have been granted doctoral faculty status.*
APPENDIX B: ACADEMIC STRUCTURE AND ACCREDITATION

University Organizational Structure
The PhD Counseling Program at Montclair State University (MSU) is part of the Department of Counseling and Educational Leadership (CEL) within the College of Education and Human Services (CEHS). The Dean of the College is Dr. Tamara Lucas and the Chair of CEL is Dr. Kathy Gainor. Dr. Angela Sheely-Moore is the Doctoral Program Director (DPD) and Dr. Susan Fuller is the Doctoral Program Assistant.

All programs that offer graduate degrees at MSU are coordinated by the Graduate School. The Dean of the Graduate School is Dr. Joan Ficke. The Graduate School sets university-wide policies and procedures for graduate programs in partnership with individual colleges. The DPD is charged with all administrative and academic responsibility of the doctoral program, in conjunction with the Chair of the Department. In order for the College, Department, and PhD Program to operate efficiently, all concerned must be aware of the procedures involved. These procedures are primarily addressed in documents posted on the Graduate School website, http://www.montclair.edu/graduate/.

The CEL Department also grants Master of Arts degrees. In the M.A. Counseling program, students are prepared to work with diverse populations in one of the following areas: addictions counseling, clinical mental health counseling, school counseling, and student affairs/higher education. The Master's Counseling Program Coordinator is Dr. Matthew Shurts; Department Administrator is Ms. Lucille Gesualdi; Department Secretary is Ms. Mary Andreoli; and the Clinical Coordinator is Ms. Kathleen Mangano.

The department also offers a number of post-Master's programs for the professional development of counselors. These programs of study allow students to: (a) gain requirements for New Jersey Licensed Professional Counselors; (b) meet requirements toward the New Jersey State School Counselor Certification; (c) meet requirements to become a New Jersey Clinical Supervisor (doctoral students take these courses as part of their doctoral program); and (d) meet requirements to become a Director of School Counseling Services.

Accreditation
Our PhD in Counseling program, as well as our Master's program concentrations in community counseling, school counseling, and student affairs counseling in higher education are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The Clinical Mental Health Counseling program is CACREP accredited as a Community Counseling program under the 2001 standards. Faculty intends to submit an application for the program to be accredited under current Clinical Mental Health Counseling standards, no later than our accreditation renewal date of 2017.
APPENDIX C: REQUIRED FORMS CHART

Students are required to submit the forms listed during the doctoral program. Students are responsible for submitting the forms to the Program Assistant. The Program Assistant will make copies for our files and forward them to the Graduate School/Registrar and also complete distribution once the signed forms have been returned.

Copies of forms used only by the PhD Counseling Program are located within Canvas. Independent Study registration forms are obtained from the Office of the Registrar. Remaining documents are located within the Graduate School website at [http://www.montclair.edu/graduate/current-students/forms/](http://www.montclair.edu/graduate/current-students/forms/)

*This chart does not account for cognate or required EDFD courses.
**Students must receive approval from the DPD and/or your Advisory Committee the semester before taking this course. See Canvas for further details.
Courses with low enrollment will more than likely be cancelled for that particular semester. Plan accordingly with your Advisory Committee should you encounter this situation.
