Program Objectives

Listed below are the Program Objectives for the Undergraduate History Major at Montclair State University. They are divided into three categories: Critical Understandings about the nature of history and historical knowledge; Intellectual Skills necessary for and fostered by historical study; and Intellectual Dispositions characteristic of students seriously engaged in the study of history.

A. Critical Understandings:

1. Human Agency and Historical Contingency: History is the product of human agency and as a result is never inevitable or foreordained.
   Objective: At the end of the program students will be able to describe examples of human agency in historical development.

2. Causation and Complexity: Human agency is always the product of multiple causes and history as a result is inherently complex.
   Objective: At the end of the program students will be able to describe examples of the causal complexity of significant historical developments.

3. Change and Continuity: Historical time is characterized by constant change and lasting continuity
   Objective: At the end of the program students will be able to describe examples of how change and continuity mark historical time.

4. Interpretive: Knowledge of human history is always interpretive.
   Objective: At the end of the program students will be able to describe examples of the interpretive nature of historical knowledge.

5. Factual Basis: A basis in fact is a necessary condition of all historical knowledge.
   Objective: At the end of the program students will be able to describe examples which demonstrate the importance of factual accuracy in all historical knowledge.

6. Perspective: Individual perspective is a critical condition of historical knowledge.
   Objective: At the end of the program students will be able to describe examples of which demonstrate the importance of perspective in all historical knowledge.

B. Intellectual Skills:

1. Posing Historical Questions: At the end of the program students will be able to pose historical questions.
2. Formulating Historical Hypotheses: At the end of the program students will be able to formulate historical hypotheses.
3. **Using Various Research Media**: At the end of the program students will be able to demonstrate proficiency in using several research media.

4. **Using Primary and Secondary Sources**: At the end of the program students will be able to distinguish between primary and secondary sources and also use both in constructing an historical argument/interpretation.

5. **Evaluating Evidence**: At the end of the program students will be able to evaluate historical evidence on the basis of factual reliability and relevance to a specific topic.

6. **Citing Evidence**: At the end of the program students will be able to cite evidence, using one of several standard citation systems.

7. **Distinguishing Fact and Opinion**: At the end of the program students will be able to distinguish fact and opinion.

8. **Distinguishing Cause and Effect**: At the end of the program students will be able to causes and effects.

9. **Constructing Chronology and Sequencing Events**: At the end of the program students will be able to construct a chronological sequence of events.

10. **Communicating Conclusions in Written and Oral Formats**: At the end of the program students will be able to communicate conclusions in both written and oral formats.

C. **Intellectual Dispositions**:

1. **A Healthy Sense of Skepticism**: Throughout the program students will demonstrate a healthy sense of skepticism.

2. **A Purposeful Curiosity**: Throughout the program students will demonstrate a purposeful curiosity.

3. **A Sense of Intellectual Persistence**: Throughout the program students will demonstrate a sense of intellectual persistence.

4. **A Resourceful and Deliberative Spirit**: Throughout the program students will demonstrate a resourceful and deliberative spirit.

5. **An Enthusiastic Sense of Joy in Learning**: Throughout the program students will demonstrate an enthusiastic sense of joy in learning.
Sample Assessment Strategies

1. In-Class Examinations: Examination of student comprehension of class lectures and/or assigned readings by means of restricted and constructed response questions, but most often emphasizing the latter.

2. Take-Home Examinations: Examination of student comprehension of class lectures and/or assigned readings, almost always by means of constructed response essay questions.

3. Focused Literature Reviews: Annotated bibliographical essays about a series of topically related readings.

4. Synthesizing Essays: Essays in which students synthesize a series of short readings about a related topic, usually involving both primary and secondary sources.

5. Monograph Analyses: Essays in which students critically analyze the thesis and argumentation of a monographic study.

6. Film Analyses: Essays in which students critically analyze the thesis and representative argumentation of a historical film, viewed either in class or out.

7. Formal Research Papers: Semester-long research paper, usually 8-18 pages in length, in which all of the requirements of a publishable-quality manuscript are followed.

8. Quizzes: Relatively short in-class examination of student comprehension of a recent lecture and/or assigned reading, usually involving a series of limited constructive response questions.

9. Scored Discussions: Students, either individually or in small groups, lead a full-class discussion about a single or short series of assigned readings.

10. Formal Debates: Students in small teams debate a specific historical thesis in front of the rest of the class.

11. Oral Presentations: Students, either individually or in small groups, make oral presentations to the rest of class about a relevant topic, issue or question.
A. Guidelines for Written Assignments

1. Final Course Grades: Final grades in all 200-, 300-, and 400-level courses should not be based solely on in-class examinations, but rather should include at least one significant out-of-class writing assignment of approximately the following lengths:
   a. 200-level courses 5-7 pages (i.e., 1250-2000 words);
   b. 300-level courses 7-10 pages (i.e., 1750-3000 words);
   c. 400-level courses 8-12 pages (i.e., 2500-3500 words);
   d. Senior Seminar 12-18 pages (3500-6000 words).

2. Professor’s Discretion: The specific nature of all writing assignments is the professor’s discretion.

B. Guidelines for Reading Assignments:

1. Total Amount of Reading
   a. 200-level courses: 1100-1500 total pages (i.e., about 75-100 pages per week)
   b. 300-level courses: 1500-2250 total pages (i.e., about 100-150 pages per week)
   c. 400-level courses: 1500-3000 total pages (i.e., about 100-200 per week)

2. Clarification: Totals should include estimate of reading for all research assignments

 Definitions of Letter Grades

- A: Excellent, superior in most every respect
- B: Good, better than what is expected of serious university student
- C: Acceptable, but lower than what is expected of serious university student
- D: Marginally acceptable work
- F: Unacceptable work

Brief Overview of Assessment Program

As indicated in both the Curriculum Alignment and Assessment Template documents below, the History Department has selected six of its established Program Objectives for this round of the Middle States Assessment Program. Each objective will be introduced to students in HIST 100 The Study of History and will then be assessed on an interim basis in HIST 300 Research Seminar and on a final basis in the capstone course, HIST 400 Senior Seminar. All three courses are required of History Majors and must be taken in the order indicated above, that sequence insured by the curricular prerequisite requirements outlined in the Curriculum Guide below. The specific strategy that will be used to assess all six objectives will be a significant research assignment which must conform to the department’s established Writing Guidelines for 300- and 400-level courses, with those Guidelines included above. The department has also developed a Rubric for these research assignments, included below, which will promote a high degree of standardization in grading, thus enabling comparisons of results over time.
Finally, only full time members of the History Department may teach HIST 100, HIST 300 and HIST 400.

Greater specificity in the Assessment Program is indicated in the documents below and also some of those included above.

---

1 This program was developed with the assistance of Barbara Ritola and Joanne Cote-Bonanno of the Provost’s Office. While the format for the Curriculum Alignment and Assessment Template documents do not conform to grids distributed to department chairs and program coordinators for this report, both Barbara and Joanne have agreed that the format used in the report is nevertheless satisfactory.

Assessment Template

Goal #1: At the end of the program students will be able to describe examples of the interpretive nature of historical knowledge.

1. Required Course Names:
   - Goal Introduced: HIST 100 The Study of History
   - Interim Assessment: HIST 300 Research Methodology
   - Capstone Assessment: HIST 400 Senior Seminar

2. Assessment Measures:
   - Interim Assessment: HIST 300 – A formal research paper
   - Capstone Assessment: HIST 400 – A formal research paper

3. Who Will Develop Measures:
   - Interim Assessment: HIST 300 – Department (in accordance with Department Assessment Guidelines attached)
   - Capstone Assessment: HIST 400 – Department (in accordance with Department Assessment Guidelines attached)

4. Where Will Assessment Take Place: HIST 300 and HIST 400

5. Assessment Schedule:
   - Interim Assessment: HIST 300 – Several sections of course offered every semester; prerequisite regimen will greatly influence when individual students take the course
   - Capstone Assessment: HIST 400 – Several sections of course offered every semester; prerequisite regimen will greatly influence when individual students take the course

6. Dissemination of Results:
   - Grade Distributions/Faculty: At the first department meeting each semester, grade distribution information for all sections of HIST 300 and HIST 400 from previous semester will be distributed to all department members
   - Grade Distribution/Administration: The same grade distribution information as above will be sent each semester to the Dean of CHSS and the Provost of the university approximately one week after it is distributed to all department members

7. Use of Data:
   - General Plan: Department members will review data every semester, making adjustments in individual courses and possibly the overall program organization as data seems to warrant.
   - Specific Plan: If 50% of the total number of students in either HIST 300 or HIST 400 fail to receive grades of B- or better, department will take specific remedial actions
Goal #2: At the end of the program students will be able to describe examples which demonstrate the importance of factual accuracy in all historical knowledge.
