Your staging area is located on the lawn (the Alumni Green) between College Hall and the Library.

Ensure that the roadway is clear for your own safety and that of arriving emergency responders.

In the event an alarm sounds, proceed to the exits, as indicated on the following pages. If on an upper floor, use the nearest stairwell, not an elevator, to exit.

Once you exit, proceed to your staging area, as noted above.

Note: All personnel, students, or other building occupants must leave the building upon an activation of the fire alarm. No one will be permitted to reenter the building until permission is granted from the local fire department, the University Police Department, or the Department of Fire Safety.
