Are any Major and General Education fulfillment: through the program? ________________

Describe the target student group

_____________________________________________________________________________________

_____________________________________________________________________________________

List current enrollments in pre-requisite or similar courses:

_____________________________________________________________________________________

_____________________________________________________________________________________

_____________________________________________________________________________________
**Rationale for course and destination choice:**

How does this program and this destination enhance your academic program and the university’s goals for internationalization?

How would you integrate experiential learning and classroom learning in this program?

**Faculty Expertise:**

What experience and expertise do you currently have regarding the location and language for the proposed program?

Budget and enrollment permitting, a second faculty member is sometimes sent with each group. Do you have a particular faculty member to propose for this role, and what experience and expertise can this person contribute to the program?

What international affiliations, if any, would be integral to this program and how would that enhance your academic program and the university’s goals for internationalization?

Summer Session programs are open to visiting students from other universities. What resources or connections can you contribute toward recruiting these students?
