Who Does STEER Serve?

- All upperclassmen students in need of additional academic or developmental support
- Students whose Cumulative GPA have trended downward in recent semesters (for one reason of another), specifically falling below a 2.250 GPA.
- New Junior and Senior transfer students (60 or more credits earned)

Campus Partners:

- Center for Academic Development and Assessment (CADA– The tutoring Center)
- Career Services and Cooperative learning
- Center for Advising and Student Transitions
- Center for Writing Excellence (CWE)– The Writing Center)
- Office of Financial Aid
- Office of Residential Education & Services

When the Road to Success is not so clear...

We are here to help you navigate the road ahead.
We are an academic program that is aimed at providing academic, social, and advisory support to students in need of a boost or assistance. STEER aims to assist students in becoming aware of negative influences that may contribute to poor academic performances as well as to redirect their academic energies.

The areas of attention that STEER will focus on will include:

- Transitioning to MSU
- Managing Your Time
- Choosing a Major
- Effective Study Strategies
- Personal/Other Issues

Advising team members provide direct one-on-one support to each student via customized advising plans.

This is where you step in. Our advising team is excited at the prospect of assisting you in any way we can to help you reach your full academic potential.

With that in mind, STEER starts with you developing a relationship with our advising team to determine which elements need the most attention. Once this process has been completed we will work to design a customized advising plan for you. Plans can range from simply meeting with a team member regularly to crafting a semester long success plan.

STEER is intended to support all upperclassmen students who, may be experiencing a drop in their grade performance or who could use a stronger connection to the campus. We aim to proactively address issues in a self motivated fashion.

STEER is a supportive program.
