INTENT: This Addendum forms a part of the Contract Documents and modifies the Original Bidding Documents and Prior Addenda, if any, as identified above. Acknowledge receipt of this Addendum in the space provided on the Bid Form. Failure to do so may subject Bidder to disqualification.

I. Points of Information:

Question 1: Regarding your DPMC classification requirement of C089 can you please confirm that a contractor with classification of C008 and C091 ($25,000,000 rating) would be eligible to bid this contract directly. We are exclusively a modular bldg provider and have never been given clear direction from the State on the difference between an C089 and C091(one is for Prefabricated bldgs. and the other is for Relocatable bldgs. so they are essentially the same thing).

Response: No that can not be confirmed, the DPMC classification requirement of C089 is what is required.

Question 2: Please confirm how you want pricing broken out. Proposal form (page 4) calls for a lump sum and (page 10) call for monthly payments. Is the lump sum number on page 4 just for the one time delivery and installation costs and then you would add the page 10 units costs to this? Where should we include the tear down cost?

Response: The lump sum price is for the delivery, setup, installation, build-out and demobilization costs. The monthly payments are for the duration of the lease term.

Question 3: Can you extend bid date by one week? This is a very technical set due to the elevation and grading on site and I would like time to bring crane and set crew to the site.

Response: No

Question 4: Please confirm a single point of connection for sewer will be brought under the bldg. and stubbed up by others.

Response: See RFP 1314 for utility service connections and note that the contractor shall be responsible for coordination of this item.
**Question 5:** Please confirm a single point of connection for water will be brought under the bldg. and stubbed up by others.

*Response: See RFP 1314 for utility service connections and note that the contractor shall be responsible for coordination of this item.*

**Question 6:** Please confirm we are to provide gutters and downspouts and site contractor will tie these to storm system.

*Response: The gutter and downspout requirements are as shown on the drawings and note that the contractor shall be responsible for coordination of this item.*

**Question 7:** Please confirm all low voltage including Fire Alarm is by others.

*Response: Fire Alarm is by others, however the contractor shall be responsible for coordination of this item.*

**Question 8:** Are permit fees waived for the university?

*Response: Yes, permit fees are waived.*

**Question 9:** Can dirt from excavation for footings be left on site?

*Response: No, all excavated material must be removed from the University property and properly disposed of.*

**Question 10:** Are you able to confirm if you will be accepting Used trailers for this temporary office requirement?

*Response: The trailers specified must comply with the contract drawings and specifications.*
