

Finance: Procurement Lifecycle

Procurement

Requisitions are used to request goods and services for Montclair State University. This guide details the entire purchasing process, from creating a requisition through the purchase order process to receiving and returns. It is important to note that the Requester is responsible for managing the lifecycle of each request and following through to ensure all requests are completely closed.

The requesting and managing functionalities are available to Administrative Assistants. The approval functionality is available to Cost Center Managers.

Procurement Guidelines

The first step in purchasing goods or services, is to ensure the proper procurement process is followed and adhered to prior to entering a requisition into Workday. While this Procurement Lifecycle Job Aid will not speak to that process in detail, the below chart is a high-level overview of the procurement thresholds.

Goods & Services Contract Value	Prevailing Wage Contract Value	Requirements *
\$0 - \$22,179	\$0 - \$7,879	1 Quote (Competition is not required, but is recommended)
\$22,180 - \$110,899	\$7,800 – \$39,399	3 Quotes (except for limited sole source exceptions in which the sole source form must be completed, use of a Cooperative Contract in accordance with the methodology listed on the website)
\$110,900 and above	\$39,400 and Above	Bid Threshold - Three Potential Methodologies 1) Public Bid ; 2) RFP Waiver of Advertising (if an exception exists); or 3) Use of a Cooperative Contract (in accordance with the methodology listed on the website)
\$500,000 and Above		Board of Trustees Approval (required for all procurements regardless of methodology)

* **University Contracts (UNC's)** may be utilized for any threshold. [University-wide UNC's](#) are posted on the website.

In addition to the procurement thresholds, the following is required for all individual or cumulative purchases within a fiscal year or the aggregate contract value totaling the below thresholds. The “Confirm Supplier in Workday” provides additional information regarding how compliance with these forms can be checked in Workday:

General Goods & Services Threshold	Prevailing Wage Threshold	Requirements
\$16,635	\$5,910	Business Registration Certificate (BRC)* (for individual or cumulative purchases within a fiscal year or the aggregate contract value totaling 15% of the bid threshold or more) – Non-profits and public entities are exempt.
\$17,500		Chapter 51 Approval (EEO333 Political Contributions) * (for individual or cumulative purchases within a fiscal year or the aggregate contract value totaling \$17,500 or more) – Non-profits and public entities are exempt.
\$110,900	\$39,400	Certificate of Employee Information Report (Affirmative Action) * (for individual or cumulative purchases within a fiscal year or the aggregate contract value totaling the bid threshold or more)
Not Applicable	\$2,000	Public Works Registration Certificate* (related to prevailing wage)

More detailed information is located on the [Procurement Services](#) website.

Requisitions

The two types of requisitions within Workday are Punch-Out Catalog Requests and Special Requests (Non-Catalog Items). Punch-Out Catalog Requests incorporate specific supplier websites with whom we have contracts for specific products. Requesters will be able to navigate to the appropriate website, select the items needed, and assign MSU information to the request in order to place their order.

Special Requests (Non-Catalog Items) constitute those requisitions for goods and/or services that are not part of the pre-set Punch-Out collection. These will be the majority of most requesters' requisitions.

Workday Procurement Process

The Workday Procurement process is a set order of steps to ensure appropriate buying procedures have been followed.

Confirm Available Budget

Before a purchase request is entered into the system, the available budget should be confirmed so that the request does not get delayed by any budget review issues.

Confirm Supplier in the System

The Requester should confirm in the system that the supplier information has been set up and is complete. All Software as a Service (SaaS), otherwise referred to as "Cloud," solutions must have their cybersecurity practices and accessibility reviewed and approved by Information Technology. If the purchase is of any SaaS software where the Supplier does not have a valid, HECVAT, HECVAT Review Form, and a VPAT Form in Workday, the Requisitioner must obtain and submit the required documents for approval. For more information, please click on the link below for HECVAT <https://www.montclair.edu/information-technology/security/hecvat/>. For VPAT <https://www.montclair.edu/digital-accessibility-initiative/information-for-vendors/>

Enter Requisition

Enter the requisition details into the system and include any attachments as needed.

Approvals

Once the requisition has been submitted, it will be routed the Cost Center Manager, and any specialty Approvers as needed. Any of these approvers can send the request back for changes or approve the request and have it continued through the process.

Procurement Buyer

The Procurement Buyer will then review the request and any related attachments to confirm all information is complete and then approve the request and have a purchase order issued.

PO Change Request

Any allowable changes to a purchase order need to be made by the requester and sent through the approval cycle, once the budget has been confirmed as available for the modifications.

Receiving

When goods are in hand, or services have been delivered, the Requester will need to confirm receipt in the system and attach the related documentation - packing slip for goods, and the completed Certification of Receipt of Services form for services.

Returns

Returns can be initiated in the system after the Requester contacts the supplier to receive a Return Merchandise Authorization (RMA) number. When completing the Return information in the system, the original packing slip must also be attached to show proof of receipt.

Invoice to Accounts Payable

The Supplier should be sending their invoice to invoices@montclair.edu, and it must include the PO number. When sent directly to Accounts Payable at this email address, the turnaround time for payment can be optimized. Should a requester get an invoice, they must ensure that it has

the purchase order number on it and then include the receipt number along with their name and extension before sending it to invoices@montclair.edu.

Payment to Supplier

Accounts Payable will match the purchase order with the receipt and the invoice so that a payment can be generated from the system and sent to the supplier.

Check Budget

The first step in creating a requisition is to check the available budget for your organization (Cost Center, Gift, or Project) by running the R002 Report. For Grants, run the R134 Report. If the Requester does not have access to these reports, they should speak with their Cost Center Manager to confirm the budget information.

- In the *Search* field, enter **R002** to find and run the **Budget Report**.

Review the appropriate Parent level Available Budget column to ensure there is money available for the proposed purchase.

If there is not enough budget in the correct parent account, a budget amendment will need to be completed and approved. Please go to the Workday 2020 website to access the

Budget Amendment Reference Guide.

Confirm Supplier in Workday

BEFORE beginning the Requisition process, confirm the supplier exists in Workday.

- 1) Type **Find Suppliers** in the *Search* field, and click **Find Suppliers**

- 2) On the *Find Suppliers* screen, enter the name of the supplier on the **Supplier** field.
- 3) Click **Enter** to process the search.

The screenshot shows the 'Find Suppliers' form with a blue header. The 'Supplier' field is highlighted with a red box. Below it are fields for Supplier Name, Supplier ID, Tax ID, Supplier Status, Supplier Classifications, Supplier Category, Supplier Group, Customer Account Number, DUNS Number, Payee Alternate Names, and Supplier Contacts. At the bottom, the 'OK' button is highlighted with a red box, and the 'Cancel' button is visible next to it.

- 4) From the list of search results, click the **selection box** next to the appropriate supplier for the request.
- 5) Click the **OK** button.

The screenshot shows the 'Find Suppliers' form with a red header. The 'Supplier' field contains the text 'sharp'. A dropdown menu is open, showing search results for 'sharp' (3 results). The first result, 'SHARP ELECTRONICS CORPORATION', is highlighted in blue and has a selection box next to it, which is highlighted with a red box. Below it are two other results: 'MERCK SHARP & DOHME CORP' and 'DOUGLAS SHARPE LLC'. At the bottom, the 'OK' button is highlighted with a red box, and the 'Cancel' button is visible next to it.

In the supplier report:

- A status of “Active”, in the *Supplier Status* column, indicates the supplier is available to use. Other statuses include “Inactive” (supplier has not been used in a specific period of time), “Hold” (temporarily unavailable if there is an issue with this supplier file), and “Draft” (the file is being created or updated).
- The *Supplier Contacts* column lists the name(s) of the connection(s) within the supplier that works with Montclair State University.
- The *Primary Remit-To Address* shows the default location of where payments are sent for this supplier.
- The *Remit-To Connections* displays the alternate addresses on file for where payments can be sent.
- The *Order-From Connections* lists the associated addresses for where the purchase orders should be sent for this supplier. When checking the status of the supplier, make note of the preferred address of where your specific purchase order should be sent, as you will need to indicate this on the corresponding requisition.
- The *Affirmative Action, Business Registration Certificate, and Chapter 51* columns indicate which documents are on hand, the ID numbers, issue and expiration dates for the specific supplier.
- Software as a Service (SaaS) (a/k/a “Cloud”) Suppliers must have approved HECVAT (HACVAT and HECVAT Review Form) and VPAT documents in Workday with a valid date. Please check the “Find Suppliers” report for the valid date. If the field is blank or has an expired date, the requesting department must submit a completed HECVAT in **.xlsx** format. HECVAT Review request in **.docx** format and VPAT form when creating the requisition. The detailed guidance is available here: for HECVAT <https://www.montclair.edu/information-technology/security/hecvat/>. For VPAT <https://www.montclair.edu/digital-accessibility-initiative/information-for-vendors/>

Find Suppliers

Does Supplier have approved HECVAT	HECVAT Expiration Date	HECVAT Review Form Expiration Data	Does Supplier Have Approved VPAT	VPAT Expiration Date	
Yes	10/25/2022	10/25/2025	Yes		

If the supplier does not exist in the system or the supplier's contact information is incomplete or needs updating, please have the supplier complete the Supplier Create/Maintain Form. Once you have received the completed form from the supplier, along with their W9 or W8, fill out the header section of the form with your information so that you will be notified once it is done. The form and W9 or W8 must be sent to suppliercreate@montclair.edu.

The Supplier Create/Maintain form can be found on the Procurement Services website under [Forms](#).

A supplier can be used in a transaction, ONLY if their status is “Active”, and there is data in both the “Primary Remit-To Address” and “Order-From Connections” fields.

Enter a Requisition

- 1) Enter **Create Requisition** into the *Search* bar and click **Create Requisition – Task**.

Alternately, click the **Cost Center Finance & Budget** icon in the *Application window* on the Home page and select **Create Requisition** from the *Tasks* pane on the *Requisitioning* tab.

The Create Requisition screen displays and defaults data in the following fields:

- Company
- Requester
- Currency
- Deliver-To
- Ship-To
- Cost Center
- Division

Additional Worktags – Fund, Location, Program

The screenshot shows the 'Create Requisition' form with the following fields and values:

- Company: Montclair State University
- Requester: Becky Pataki
- Currency: USD
- Deliver-To: Main Campus > University Hall
- Ship-To: 1 Normal Avenue Montclair, NJ 07043 United States of America
- Requisition Type: (Empty field, highlighted with a red box)
- Cost Center: CC10315 Instructional Technology and Design Services
- Division: D70 Information Technology
- Additional Worktags: Fund: F10 Unrestricted Operating Fund, Location: Main Campus, Program: N10 Instruction

At the bottom, the 'OK' button is highlighted with a red box, and the 'Cancel' button is visible next to it.

2) Click the **prompt** icon to select the **Requisition Type** (previously called the Purchasing Methodology) and is a required field. Requesters must choose from the following:

- 1 Quote
- 3 Quotes
- University Contracts (UNC#)
- BOT Waiver of Advertising
- State of New Jersey Cooperative Contract
- Federal GSA Cooperative Contract
- Local Cooperative Contract
- Nationally Recognized Cooperative Contract
- Sole Source
- Emergency Procurements
- Punch-Out Catalogs

If the Requisition Type contains an identifying number (contract ID number, BOT Waiver number, etc.), the system will prompt you for the number AFTER you click the Submit button at the end of the requisition. Once the questionnaire is launched, complete the field with the corresponding number and submit the questionnaire to the system.

Please refer to the “Requisition Type Methodologies” document posted on Procurement Services website for additional detail on these requisition type and

the requirements for each.

- 3) If this requisition is for a cost center other than the one defaulted, or for a gift, grant, or project, change the worktags on this screen by clicking the **X** in the corresponding field to remove the default fields and search for the appropriate worktag via the **prompt** icon. The updated worktags will then be updated on each line of the requisition.

Note - If a requisition is created for another Cost Center, Grant, Gift, or Project that the requester does NOT have access to view, the system will display the following soft warning:

Alert

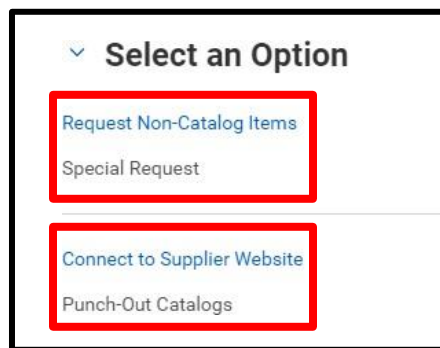

1. Page Alert

- You have used a cost center(s) that you are not listed as a requisitioner for. This will prevent you from being able to run financial reports and see payment detail. If you need this access, please request access to the following Cost Center(s):

Impacted Cost Centers:
CC10249 VP Facilities (Requisition)

This soft warning will not prevent the request from being submitted in the system.

- 4) Click the **OK** button.
- 5) On the *Create Requisition* screen, under the **Select an Option** section, select the type of request to create:
 - a. **Request Non-Catalog Items** –All purchases that are not within a Punch-Out catalog. Click the **Request Non-Catalog Items** link to begin a Special Request requisition and display the Request Non-Catalog Items request screen.
 - b. **Connect to Supplier Website** – All purchases related to Punch-Out catalogs from which to create requests. Click the **Connect to Supplier Website** to select from a list of Punch-Out Catalogs. See the Create a Punch-Out Requisition section of this guide for more details.

No Charge Goods Line

Zero value line items should be added into requisitions to better track and receive free,

sample, and replacement items.

Line item 2, below, is an example of a zero-line item added to a requisition from a quote.

Goods Lines 2 items							
Goods Order Line	Line	Item and Category	Tax	Tax Recoverability	Tax Option	Quantity	Cost
Q	1	Item Item Description Montclair State Memo Pads 5.5 x 8.5 Spend Category SC0172 Office Supplies	Tax Applicability Tax Code			Ordered 1 Received 0 Invoiced 0	Unit of Measure Case Unit Cost 51.50 Extended Amount 51.50
Q	2	Item Item Description Sample Notepad Spend Category SC0172 Office Supplies	Tax Applicability Tax Code			Ordered 1 Received 0 Invoiced 0	Unit of Measure Each Unit Cost 0.00 Extended Amount 0.00

Discounts and Credit Memos

Please note the following parameters when dealing with discounts and credit memos in requisitions:

- Workday does allow for discounts to be taken as a separate line item entered as a negative number. If the discount is \$5,000 or more, please enter this information on the header, in Other Charges field.
- If a quote has been received from the supplier with a discount, use the original price and the discount figures because the discount will automatically be deducted from the total price in Workday.
- Any credits memos should be sent to Accounts Payable directly, and NOT attached to a requisition.

Non-Catalog Items – REQUEST GOODS VS. SERVICES

Goods vs. Service Type: Goods should be selected when requesting physical objects or in the case of services that need to capture the breakdown of hours and hourly rates (such as Consulting Services). For services that do not require the breakdown of a Unit of Measure (UOM) and are task-oriented orders based on dollar amounts, Services should be selected. A requisition can have both Goods & Services lines, if applicable.

Non-Catalog Items – REQUEST GOODS

Complete the required fields as listed below:

NOTE: If the supporting quote has fifteen or fewer line items, the requisition must have all lines. If more than fifteen lines on the supporting document, one line is acceptable.

- a) **Non-Catalog Request Type:** Select Goods when requesting physical objects or, **in the case of services that need to capture the breakdown of a unit of measure (UOM) such as hours and hourly rates (Consulting Services is an example).** Any items requested will need to be received in Workday by the requester once delivered.
- b) **Item Description:** As this information will print on the purchase order for the supplier, enter all details for the item, including the quote number, manufacturer or part number, and specific description of the item/service being requested.
- c) **Spend Category:** Represents the commodity being requested (previously called the Account/Category Code). Click in the field and enter the number, and name of the category, or use the dropdown list provided to locate and select the appropriate spend category.

Note – Select the spend category based on what is being purchased, not based on the related child account in the budget.

Note- Once the spend category has been selected, click the related actions **twinkie** to confirm the parent pool name for the spend category.

- d) **Supplier** – Leave this field blank as it should be completed at the end of this process unless instructed to complete by the Procurement Department.
- e) **Supplier Contract** – Leave this field blank unless instructed to complete by the

Procurement Department.

- f) **Quantity** – Enter the number of items for goods, or hours for services, being ordered. **Note** – Workday does not support fractions within the quantity field.
- g) **Unit Cost** – Enter the cost of one unit of the line item.
- h) **Unit of Measure** – Select the appropriate unit of measure from the dropdown list.
- i) **Extended Amount** – This field auto-calculates based on the quantity and cost fields.
- j) **Memo** – Enter information in this field for the approver and buyers. This is an internal memo line and does not print on the purchase order.

Complete the required fields as listed below:

- Non-Catalog Request Type:** Indicate Services for task-oriented orders based on dollar amounts rather than quantity. These items will need to be received in Workday based on dollars due rather than quantity. **Note: Select Goods in the case of services that need to capture the breakdown of a unit of measure (UOM) such as hours and hourly rates (Consulting Services is an example).**
- Item Description:** As this information will print on the purchase order for the supplier, enter all details for the service being requested.
- Spend Category:** Represents the type of service being requested (previously called the Account/Category Code). Click in the field and enter the number, name of the category, or use the dropdown list provided to select the appropriate category. **Note** – Select the spend category based on what is being purchased, not based on the related child account in the budget.
Note - Once the spend category has been selected, click the related actions **twinkie** to confirm the parent pool name for the spend category.
- Supplier** –Leave this field blank as it should be completed at the end of this process unless instructed to complete by the Procurement Department.
- Supplier Contract** – Leave this field blank unless instructed to complete by the Procurement Department.
- Start Date/End Date** – If the service begins and ends on specific dates, enter them here. This information will print on the purchase order, and is used only as reference within the system.
- Extended Amount** – Enter the total cost of the service here.
- Memo** – Enter information in this field for the approver and buyers. This is an internal memo line and does not print on the purchase order.

Once the “Request Goods” or “Request Services” have been filled in:

- 1) Click the **Add to Cart** button in the lower left corner of the screen to include the line information in the request.

The *Add to Cart* confirmation pop-up message displays on the top banner of the screen.

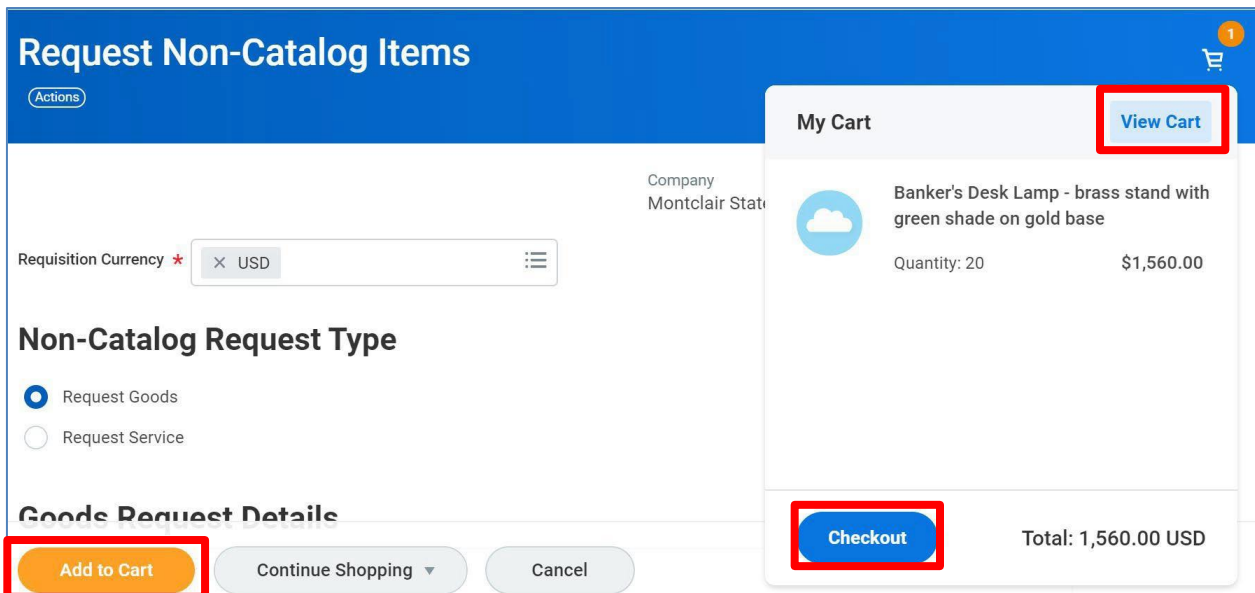

- 2) Fill in the blank form with the next line item of your order, and click the **Add to Cart** button until all lines have been added to the requisition.
- 3) Click the **shopping cart icon** in the upper right corner of the screen to review line items in the cart.

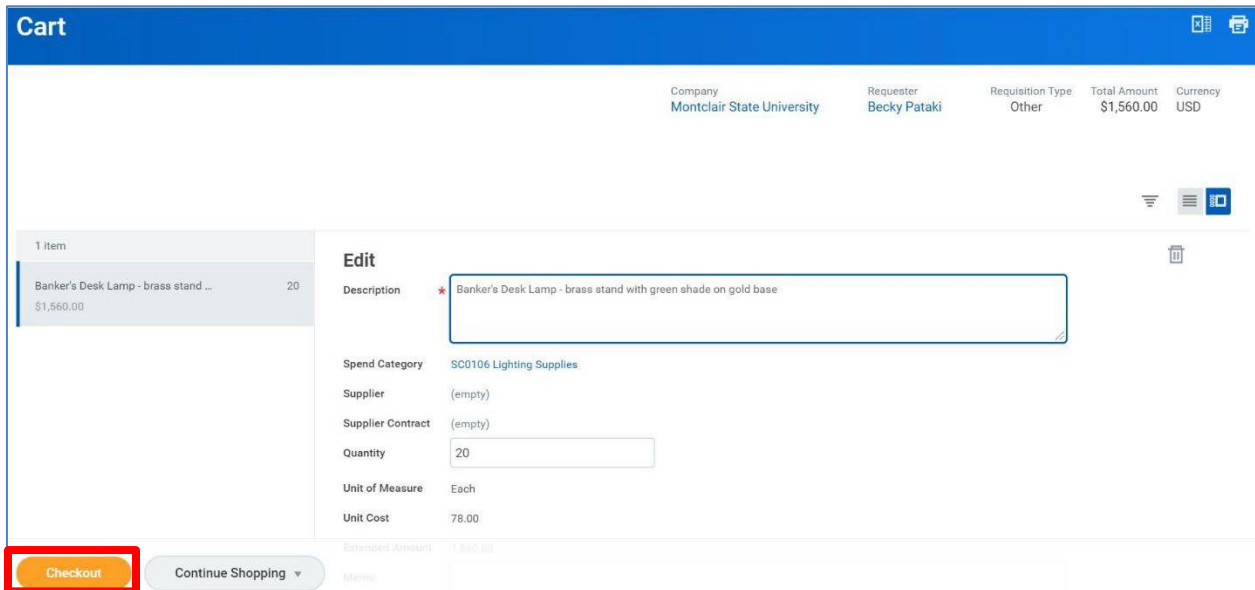

The Cart pop-up window displays the goods and/or services that have been added to the cart, on the upper right corner of the screen.

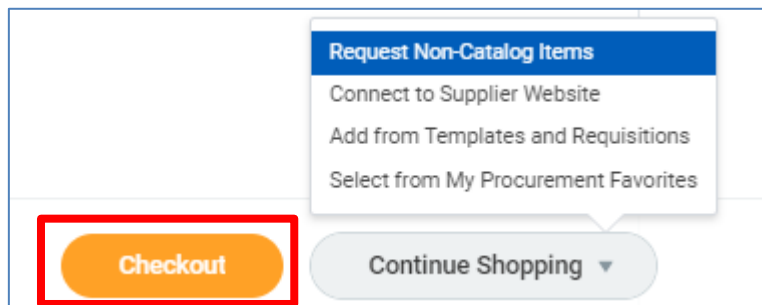

- 4) To review the details of the line items within the cart, click the **View Cart** button, within the pop-up window. If you do not need to adjust any of the line items, click the **Checkout** button in the lower left corner of the pop-up window.

- 5) Review each item’s information in the cart and click the **Checkout** button to proceed with the request when done. **Note** - The only fields which can be edited on this screen are: Description, Quantity, and Memo. Should any line need to be deleted, click the trash can on the corresponding line.

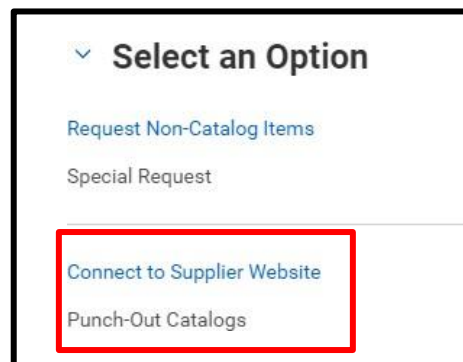

- 6) If additional items need to be added to the cart, click the **Continue Shopping** button then select the **Request Non-Catalog Items** option.
- 7) Click the **Checkout** button to continue.

Create a Punch-Out Requisition

- 1) On the *Create Requisition* screen, under the *Select an Option* section, select **Connect to Supplier Website** to open the list of Punch-Out catalogs available.

- Click the **Connect** button on the far right of the appropriate catalog name to be brought to the associated website.

Connect to Supplier Website					
Company Montclair State University			Requester Robin Walker	Currency USD	Requisition Univers
Logo	Supplier Link Name	Multi-Supplier	Supplier	Description	
	W W GRAINGER INC		W W GRAINGER INC (PUNCH OUT)		Connect
	Dell		DELL COMPUTERS (PUNCH OUT)		Connect
	W B Mason		W B MASON (PUNCH OUT)		Connect
	HD Supply		HD SUPPLY FACILITIES MAINTENANCE LTD (PUNCH OUT)		Connect
	Drew & Rogers		DREW & ROGERS (PUNCH OUT)		Connect
	Fisher Scientific		FISHER SCIENTIFIC (PUNCH OUT)		Connect

The selected website displays.

- In the *Search* field, enter a keyword to locate the item(s) you are purchasing, and click the **magnifying glass** to run the search.

The Workday *View Cart* screen displays and lists the items selected for the request.

Note-As this is a punch-out request, no changes can be made.

6) Click the **Checkout** button.

Note - Punch-out requests, once submitted, cannot be edited or canceled. Requesters will need to receive all goods and return them if an inaccurate quantity or item was ordered from the supplier. Please see the [Returns](#) section in this document for details on this process.

Checkout Process for a Requisition

Once the Checkout button has been selected, the system displays the Checkout screen.

Note – When the Checkout screen displays, an Error bar will appear. This is to indicate that the Supplier field must be completed. **DO NOT** complete the supplier field at the beginning of the form as it will then need to be manually added into each following line. Instead, the supplier should be selected at the end of the request on the **Edit Requisition Defaults** screen in order to be automatically completed on each line.

The requisition is broken down into five separate sections. Review the information within each section and complete those which are required to process the request.

- 1) The *Shipping Address* information defaults in based on the user, and cannot be changed. **Note:** The information in the **Ship-To Address** field prints on the purchase order for delivery.
- 2) Scroll down to the *Requisition Information* section.

Checkout ?

Requisition Information

Request Date: * 02 / 12 / 2020

Currency: * USD

Submit Save for Later Continue Shopping ...

- 3) In the *Requisition Information* section, review and complete the following fields:
- The **Request Date** field defaults in as the current date.
 - The **Currency** field populates as USD (U.S. Dollars).
 - Leave the **High Priority** check box blank as it is not being used by MSU.
 - Leave the **Sourcing Buyer** field blank.
 - The **Requisition Type** field populates based on the previous selection.
 - Leave the **Sourcing Buyer** blank as the system will populate after approval.
 - The **Other Charges** field should be completed in the header of the requisition for any specific additional charges, such as shipping and handling or hazardous materials surcharge. If there are no other charges, then leave this field blank. Please do not add freight as an additional line item.
 - In the **Memo to Suppliers** field, enter **“Attn: your full name, building code, room number”** on the first line of the field. Enter any other comments to the supplier below your “Attn to” details.
 - Enter any additional comments regarding the order for the approver or buyer in the **Internal Memo** field. For example, Grant ID#, Project #, Gift #, etc.

Currency: * USD

Requisition Type: Other

High Priority:

Sourcing Buyer:

Submitted by: Becky Pataki

Freight Amount: 0.00

Other Charges: 0.00

Memo to Suppliers:

Internal Memo:

1 Error

Submit Save for Later Continue Shopping ...

- j) **Freight Amount**, if provided by the supplier, can be completed by entering the amount in the header of the requisition or by adding an extra line in “Services.”

Option 1: Freight on the Header of the requisition

Consolidate Requisitions on Purchase Orders	<input type="checkbox"/>
Exclude Ship-To Address when Consolidating Requisition Lines	<input type="checkbox"/>
Freight Amount	<input type="text" value="0.00"/>
Other Charges	<input type="text" value="0.00"/>
Memo to Suppliers	<input type="text"/>

Note – If this option for freight is utilized, the freight amount is distributed equally among any lines (and in turn, spend categories) on the requisition. Alternatively, freight can be added as an extra line to the requisition if freight is to be paid separately and not partially against each line item on the requisition. The process for adding freight as a separate line is outlined below.

Option 2: Freight adding an extra line to the requisition

If adding an extra line, the line **must be created as a service line** so that it can be received multiple times if needed. Click in the “+” sign under Services.

Goods

Order	Image	Item	Fulfillment Source	Item Description	*Spend Category	Inventory Site Location
		Purchase Item	Purchase Order	Printing of transcript paper.	SC0181 Print (Non Marketing) Items	

Services

Order	Image	Item	Fulfillment Source	Description	*Spend Category	Extended Amount	Date
No Data							

Enter freight in the description area of the newly added line, the extended amount, and any other required information.

Services

1 item

Description	*Spend Category	Extended Amount	Date	Deliver-To	*Ship-To Address	S
Freight		125.00	Start Date MM/DD/YYYY		1 Normal Avenue Montclair, NJ 07043 United States of America	
			End Date MM/DD/YYYY			

Attachments

Last but not least, enter the same spend category being used to procure the goods/services (if multiple spend categories are being used, choose one). **DO NOT** select a separate spend category for shipping or freight as the freight is related to the spend category for the requisition.

Goods

1 item

Order	Image	Item	Fulfillment Source	Item Description	*Spend Category	Inventory Site Location
		Item Purchase Item	Purchase Order	Printing of transcript paper.	SC0181 Print (Non Marketing) Items	

Services

1 item

Order	Image	Item	Fulfillment Source	Description	*Spend Category	Extended Amount	Date
			Purchase Order	Freight	SC0181 Print (Non Marketing) Items	125.00	Start Date MM/DD/YYYY
							End Date

- 4) Scroll down to the Goods section.
- 5) In the *Goods* or *Services* sections of the requisition, use the scroll bar to review each field within the specific line and verify the following fields are complete and correct:

Spend Category – confirm this is the appropriate code for the line item.

Supplier – DO NOT complete the Supplier field on the line item. Use the **Edit Requisition Defaults** function at the very end of the request process.

- 6) Scroll to the far right on the line details to review the Worktag fields.

Cost Center – The department number of the requester. Can be a driver field used as the basis to populate Additional Worktags.

Division – Represents the section within the University for the Cost Center and defaults in based on the driver worktag selected.

Additional Worktags – A collection of other identifying data. Requester can complete their Project, Gift, or Grant to populate other fields (such as Cost Center and Division) on the line.

Note: When any driver worktags are selected, the Fund, Division, Program, and Cost Center will auto populate. These defaulted values should not be changed.

****For *Facilities orders*, please select and complete the **Location** option from the *Additional Worktags* field to indicate to which building the purchase is assigned.**

The screenshot displays a requisition form with two main sections: 'Goods' and 'Services'.

Goods Section: Labeled '1 item', it contains a table with the following data:

Image	Item	Item Description	*Spend Category	*Quantity	Unit Cost	Extend Amot
	Item Purchase Item	Banker's Desk Lamp - brass stand with green shade on gold base	SC0106 Lighting Supplies	Quantity * 20 Unit of Measure * Each		

A red error banner at the top right of the Goods table indicates '1 Error'.

Services Section: Labeled '0 items', it contains a table with the following data:

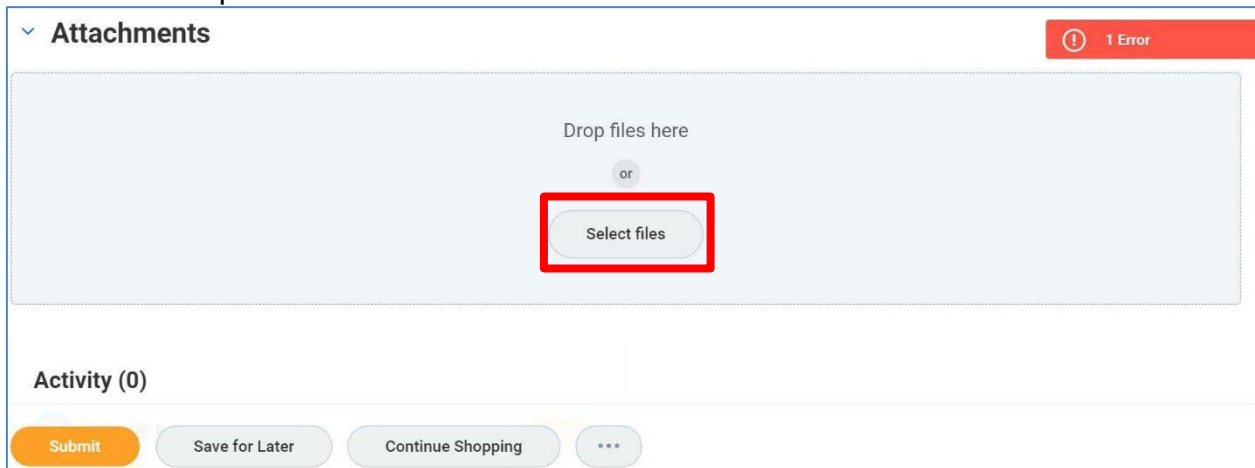

Image	Item	Description	*Spend Category	Extended Amount	Date	Deliver-To
No Data						

7) Scroll down to the *Attachments* section.

Attach back up documentation on all requests, which can include quotes, proposals, rate sheets, contracts, sole source justifications, etc. **Note** - Each attachment should be added as a **separate file** into the system.

8) In the *Attachments* section, click **Select files** to attach any required/relevant, documents - such as quotes, logo files, etc., to this request.

9) Select the **External** checkbox to have the specific attachment sent to the supplier with the purchase order.

10) At the bottom of the screen, click the grey button with the ellipse on it, and select **Edit Requisition Defaults**, to open the option to set the Requisition Defaults.

The *Edit Requisitions Defaults* page displays.

The information entered in the *Edit Requisition Defaults* screen is where the supplier and corresponding order-from connection for the request, and any line splits for the entire request, should be entered.

- 11) In the **Supplier** field, click the **prompt** icon to add the specific supplier for this request. **Note:** only one supplier can be listed on a requisition.
- 12) In the **Order from Connection** field, click the prompt icon and select the appropriate address for the purchase order. It is required to select a Supplier and an Order From Connection.
- 13) If worktags other than those which default in with the Requisitioner need to be assigned to this request, select the **Use Default Worktags** option under the *Default Worktags and Splits* section to assign the new worktags all lines within the request. Worktags, along with cost breakdown, can be set at this field for the requisition.
- 14) If line items need to be split among different entities (cost centers, grants, gifts, and/or projects), select the **Use Default Splits** option under the *Default Worktags and Splits* section and assign the breakdown of the splits for each entity to be assigned to each line item within the requisition. If only one or some of the line items need to be split, that should be done on the specific line item(s) within the requisition and not on this screen.

Edit Requisition Defaults

Requisition	Status	Total Lines	Total Amount	Currency
RQ-00002057	Draft	1	\$1,560.00	USD

Enter default values to replace current selections on applicable requisition lines. Leave fields blank to keep the current values on the lines. New requisition lines will use the defaults you set here. You can change individual line values when editing the requisition.

Requested Delivery Date: MM / DD / YYYY

Supplier:

Order-From Connection:

RFQ Requirements Keep Current Selections to leave requirements unchanged and new lines will have RFQ Required: No. Click Select All or Deselect All to update RFQ requirements for existing lines and use the default requirement for new lines.

Default Worktags and Splits Select worktags to use for all requisition lines. Keep Current Worktags leaves your current selections unchanged. Use Default Worktags replaces all values on existing lines and uses the default worktags for new lines. Use Default Splits applies once to all lines.

Keep Current Worktags
 Use Default Worktags
 Use Default Splits

- 15) Click the **Apply** button to apply this information and return to the requisition.

Split the Cost of a Line Item*

- 1) To split the cost of a line, scroll to the far right of the line and click the zero in the **Splits** column.
- 2) On the pop-up, click the drop-down to select if the split will be based on dollar amount or quantity.

*** Please note, that lines cannot be split between Bloomfield College and Montclair State University.**

- 3) On the displayed line, enter the percent or amount of the first portion of the split.
- 4) Enter the appropriate driver worktag in either the **Cost Center** field or the **Additional Worktags** field.
- 5) Click the **plus sign** immediately under the Item counter, and complete the split information on the inserted line.
- 6) Continue to add lines until 100% of the total line amount has been allocated.
- 7) Click **Done** to return to the requisition.
- 8) Click the **Submit** button to submit the request to the approver.
- 9) If the **Complete Questionnaire** button displays, click the button and complete the questionnaire to list the corresponding number for the specific purchase (i.e., contract number, board of trustees' waiver number, Co-Op number, etc.). At the end of the questionnaire (if required), click the **Submit** button to submit the request to the approver.

- 4) Based on the information provided, decide if a Budget amendment needs to be completed, or if the request should be edited to adjust the Worktags.

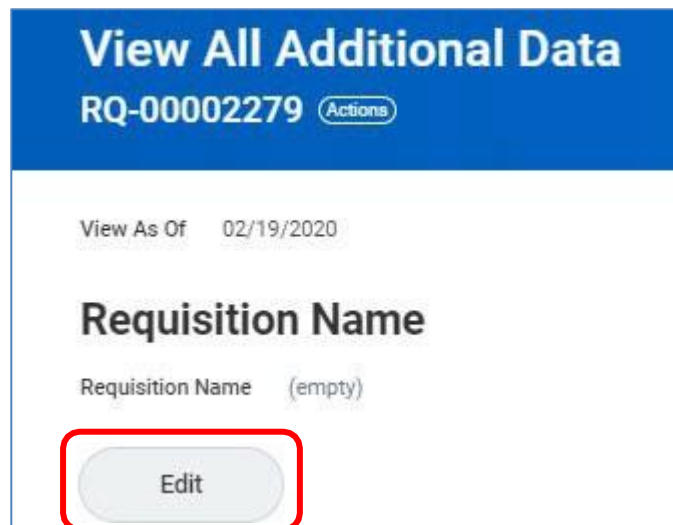

Name a Non-Catalog Requisition

In order to easily identify specific requisitions when in the receiving process, each requisition should be given a unique, easily recognizable name. Once the requisition has been submitted for approval, the Requester must add a name onto the Additional Data of a request.

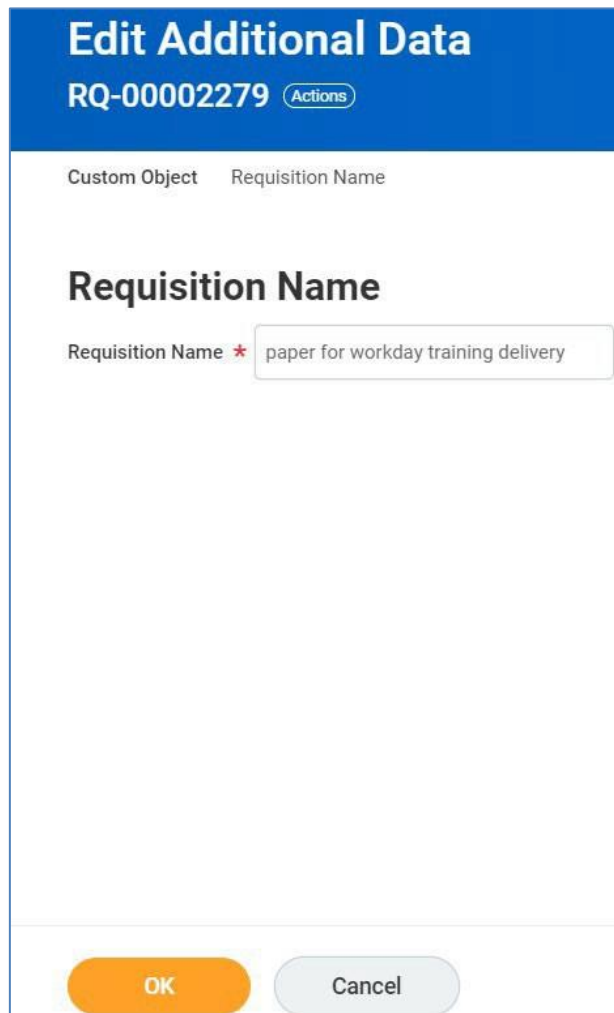

- 1) From the *My Requisitions* report, click the **related actions** button of the appropriate requisition.
- 2) In the *Actions* pop up menu, select **Additional Data** and **View All**.

Requisition	(UNC#)							
RQ-000000234								
RQ-000000178	University Contracts (UNC#)		08/20/2019	125.00	USD	COMPASS GROUP USA INC		In Progress
RQ-000000146	University Contracts (UNC#)		08/14/2019	150.00	USD	COMPASS GROUP USA INC	PO-000000127	Successfully Completed
RQ-000000141	Other		08/13/2019	1,860.00	USD	MAACBA		Draft

- 3) On the *View All Additional Data* screen, click the **Edit** button to add the requisition name for this request.

- 4) On the *Edit Additional Data* screen, type the unique name in the **Requisition Name** field and click **OK**.

- 5) When the system confirms the name of the request, click the **Done** button.

The name of the requisition will be included on the Lifecycle Report, under the Requisition Name column, to help identify the appropriate request when receiving goods and services.

Edit a Non-Catalog Requests

Once a request has been submitted and before the Approver has processed the request, the Requester can edit a non-catalog requisition.

- 1) From the *My Requisitions* report, click the **related actions button** of the appropriate requisition.
- 2) In the *Actions* pop up menu, select **Requisition** and **Edit**.

The screenshot displays a table titled "Procurement Requisitions" with 8 items. The table columns include Requisition, Requisition Type, Requesting Inventory Site, Document Date, Total Amount, Currency, Suppliers, Purchase Orders, Request Status, and Memo to Suppliers. The row for requisition RQ-000000060 is selected, and its "Actions" menu is open. The menu options are: Requisition, Edit, Accounting, Add More, Additional Data, Cancel, Favorite, Company, Procurement, Worker, Supplier Link, Shipping Address, Date, and Currency. The "Requisition" and "Edit" options are highlighted with red boxes. The details for requisition RQ-000000060 are shown on the right, including "In Progress" status, "Montclair State University" as the company, "Robin Walker" as the worker, and the shipping address "1 Normal Avenue Montclair, NJ 07043 United States of America".

- 3) On the *Edit Requisitions* screen, navigate to the field(s) to change and make your edits.
- 4) When all changes are made, click the **Submit** button to send the revised request back through the approval flow.

Edit Requisition

- Please do not use the Alternate address. It will prevent the requisition from being processed into PO.
- Requisition Type is required.
- Please do not enter the Sourcing Buyer information.

System Drafts - Requisitions

If a requester is in the process of entering a requisition and does not select Checkout or Save for Later in Workday, the system will retain the in-progress requisition with no number associated to it. Additionally, there is no encumbrance held against this type of system draft. The requester should go into the system, and periodically clean any of these requests so as to reduce the number of unnecessary requests in the system.

- 1) To locate these requests, type **Find Requisitions** in the *Search* bar, and select the same task from the results list.
- 2) Locate the line(s) within the displayed list that has no assigned requisition number(s).
- 3) Click the **twinkie** next to the magnifying glass to the far left of the targeted line.
- 4) In the **Actions** column of the pop-up window, hover over the **Requisition** option and click **Add More**.

- 5) When the *Cart* screen opens, click the **Checkout** button in the lower left corner of the screen.

Note – Any errors in the request must be resolved before the request can move forward and be canceled.

- 6) On the *Checkout* screen, click the **Save for Later** button in the lower left corner.

The requisition will now have a number associated to it.

- 7) Click the **Actions** button on the banner, next to the requisition number, then hover over the **Requisition** link and click on the **Cancel** option.
- 8) When the page refreshes, click the **OK** button in the lower-left corner of the screen to confirm to cancel this request.

Save for Later

- 1) When the **Save for Later** button is selected, your request has been saved in the system and can be returned later.

- 2) Type **My Requisitions** in the *Search* bar in the upper left corner of the screen and select the same option from the search results to view a list of your requisitions.

The *My Requisitions* screen displays.

The report displays the list of your requisitions listing the requisition number, type, date, amount, supplier, corresponding purchase order number (if any), status, memo to supplier, and internal memo.

To review the specific requisition details, click the requisition number in the list.

Approval Process

Once submitted, the request moves forward for reviews and approvals. The specific approver will receive a notification in their Workday Inbox.

Note: all chemical requisitions (hazardous or non-hazardous) will route to a Specialty Manager in Environmental Health and Safety for approval.

- 1) To access the item for review, click the **Inbox** icon in the top right corner of the Workday homepage.
- 2) Click the **Actions** tab, and click on the corresponding item to display the requisition.

Details to Review

> Shipping Address

Approve Send Back Add Approvers

- 3) Expand and verify the following areas within the requisition before selecting to approve or send back a request.

Shipping – The ‘deliver to’ information.

Information – Header information of the request.

Goods/Services – Select the corresponding expansion arrow at the section to review and display the line item details. Review all details and verify the appropriate goods/services have been listed with anticipated related costs and quantities. At the far right of each line, the selected worktags display as well as any cost splitting information.

Attachment – If active, click the arrow next to Attachments to identify what has been associated to the request. Click the corresponding file name to open and review the file.

Questionnaire – If active, review and confirm the answer provided.

- 4) When all information has been reviewed and confirmed, click the **Approve** button at the bottom of the screen to approve the requisition and send it to the next approver in the workflow.

If there are changes needed, click the **Send Back** button and enter comments as to what needs to be changed. The Requester will receive a notification of the status, view the comments and edit the request.

Additional processing options are located behind the ellipse button . **Deny** terminates the request in the system. The **Cancel** option will close the screen being viewed and retain the item in the Inbox until an action is selected by the approver on the request.

Note: any comments and actions relating to this request will be captured and displayed at the bottom of the request in the *Process History* section of the screen.

enter your comment

Process History

Lisa Baker

Requisition Event – Step Completed

– Due 06/12/2019

The process moves forward for additional reviews and approvals to the list below.

Note: any of the approvers can Approve, Send Back the request to the Initiator with a comment on any changes to be made, or Deny which terminates the request.

- Cost Center Manager or Grant Manager (PI)
- Special Approver (if required) – Grants Accounting, Project Manager, Gift Manager, Spend Category Approver
- Buyer
- Additional Procurement Approver (if required)

When all approvals have been completed, the requisition is processed and a purchase order is created and issued to the selected supplier.

The Requester receives a notification and an email when a requisition becomes an issued purchase order.

Check the Status of a Requisition

- 1) Navigate to your **Inbox** and click on **Archive** to view your submitted requests in the system.
- 2) Click on the appropriate notification to view the details of the requisition.

- 3) In the **View Event** section of the screen, the **Details** tab displays the details of the requisition, and the **Process** tab shows the process history of the request.

To view all of your requisitions:

- 4) Type **My Requisitions** in the *Search* bar in the upper left corner of the screen and select the same option from the search results.

The *My Requisitions* screen displays.

- 5) The system is set up to display all of your requisitions. To filter your results to see specific requisitions, enter data in the displayed fields of the *My Requisitions* screen. With the Exclude Canceled and/or Exclude Closed boxes selected, the result will display requisitions meeting those classifications.

The report displays the list of your requisitions listing the requisition number, type, date, amount, supplier, corresponding purchase order number (if any), status, memo to supplier, and internal memo.

To review the specific requisition details, click the requisition number in the list.

Purchase Orders

When a requisition has been completely approved and issued as a purchase order, the Requester will receive a notification and an email. If the requester needs a copy of the issued PO, please contact the buyer.

Requesters can identify statuses on purchase orders and purchase order lines. PO headers display statuses to help requesters quickly identify purchase orders that are:

- Fully invoiced or paid.
- Fully shipped or received.
- Partially invoiced or paid.
- Partially shipped or received.

View Purchase Order

Purchase Order PO-0000009545 Status Issued **Receiving Status Partially Received** Budget Check Status Pass

Purchase Order lines display the detail status of receipt for each line.

Goods Lines 1 item				
Goods Order Line	Line	Item and Category	Supplier Item Identifier	Business Document Status
Q	1	Item	1XRL6	Receiving Status Partially Received
		Item Description		
		TK1162780T Paint Brush Brush Style Flat Sash Basic Coating Type All Paint Coatings Brush Size 2 In. Basic Bristle Material Synthetic Bristle Material Polyester Basic Handle Material Wood Bristle Stiffness Firm Paint Base Type Water Brush Thickness 916 In		
		Spend Category		
		SC0040 Painting Equipment		

If changes need to be made to the request, the Requester will need to create a Change Order. Changes to purchase orders can only be:

- Made up to the point of a purchase order being completely received.
- Completed on the price, description, and quantity/amount fields.
- New lines on the original request. (Entire line must be completed)

Any changes to a purchase order will re-initiate the approval flow. The complete change process is as follows:

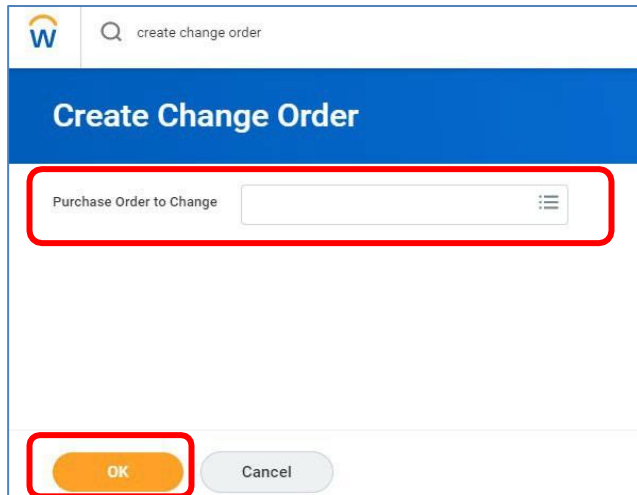

- Purchase Order is issued.
- Requester initiates a Change Order, after verifying appropriate funding is available.
- Approver(s)/buyer processes change request.
- Requester gets approval notification and must again confirm funding is available for the change.
- Requester approves the Change Order.
- Changes are sent to Supplier via purchase order version.

Create a Change Order – (This does not apply to Punch-Outs)

1) Enter **Create Change Order** into the *Search* bar and click **Create Change Order – Task**.

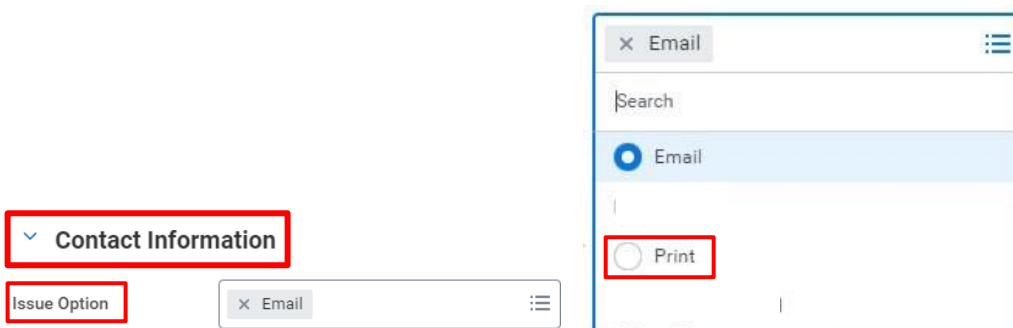

2) On the *Create Change Order* screen, enter the number of the purchase order that needs to be changed, and click the **OK** button.

- 3) A Comment Box has now been added to enter in a detailed reason as to what is being changed within your PO (For example, change order #1: changing price on line 2 from \$100 to \$80, etc.) and this comment is for the buyer's review. Your reason should also be entered in the Memo to Supplier area in order for the supplier to know what has been changed.

- 4) If you're only changing your Worktags and do not want the PO to be sent to the supplier, select the Issue Option and change it from Email to Print.

- 5) On the header section of the *Create Change Order* screen, the **Memo** field **MUST** be completed with the details of what fields are changing. This information will be sent to the Supplier on the purchase order version.

- 6) Scroll down and leave the “Apply Header Changes to all lines on Save or Submit” checkbox as blank.
- 7) Select either the **Goods** or **Services** tab per your change.
- 8) On the corresponding line to be changed, scroll to the appropriate field, and enter your changes. Change additional lines as needed and add or remove lines. Everything on a PO can be changed, except the **Supplier** and **Order-From Connection**.
- 9) When all changes are completed, click the **Submit** button to re-initiate the approval process.

Note: If this change caused the total to be \$7,800 or greater, an attachment is now required as the Requisition Type is now 3 Quotes.

The Requester receives a notification in their Inbox when all approvers have processed this change.

Create Receipt

Once the purchase order has been fulfilled by the supplier, the Requester will need to enter the receipt information into the system.

1) Enter **Create Receipt** into the *Search* bar and click **Create Receipt – Task**.

The image shows a search interface. At the top left is a logo with a 'W' inside a blue circle. To its right is a search bar containing the text 'create receipt'. Below the search bar, a search result is displayed: a blue square with a white 'C' followed by the text 'Create Receipt - Task'.

2) On the *Create Receipt* screen, enter the purchase order in the **Purchase Order** field, if known. Otherwise, click the **prompt** icon to filter on the supplier.

Alternately, go to the **My Requisitions** report, click the twinkie of the corresponding PO number to hover over the *Receipt* option, in the Related Actions area, and click

Create in order to enter the PO number into the initial *Create Receipt* screen. If Create receipt is not an option, please check the PO detail business document lines for any draft receipt before continuing.

Business Document Lines
RC-0000000101 for PO-0000000332 - Line 1 - Draft
RC-0000000703 for PO-0000000332 - Line 1 - Approved
RQ-00000363
Supplier Invoice: SI-0000004654 - 375

Note: The system will not allow multiple drafts. Only one receipt draft per PO is allowed.

- 3) ONLY if all items or hours have been received for the PO, click the **Fully Receive** checkbox.
- 4) Click the **OK** button.

The *Create Receipt* screen displays.

- 5) Scroll down and click on the **Lines** tab to enter the actual receipt for goods or services.

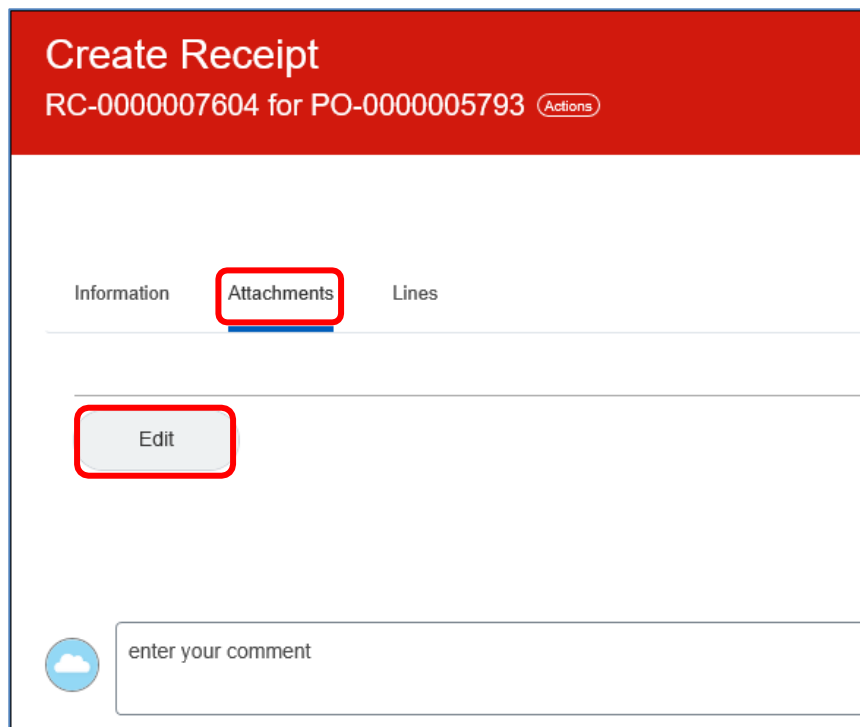

When receiving goods, click in the **Quantity to Receive** field on the corresponding item line and enter the **actual amount** of items received.

When receiving services, click in the **Amount to Receive** field on the corresponding service line and enter the **actual amount** of units received.

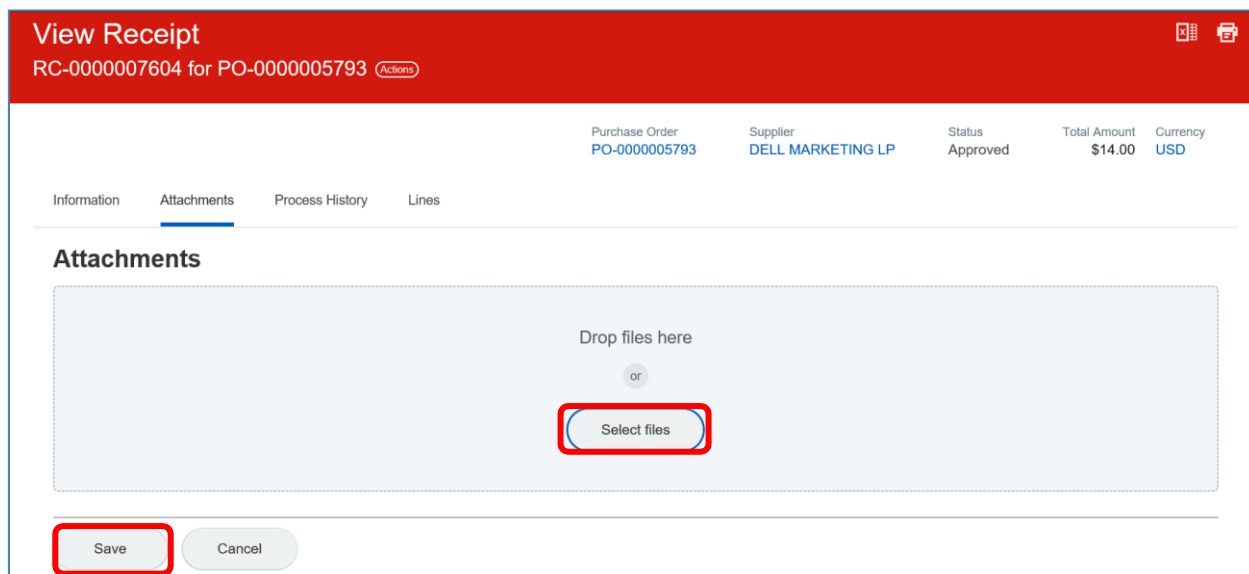

Note – When receiving within a multi-line purchase order, **all** lines must have a quantity entered. For those lines that do not have a current receipt associated with them, confirm a “0” is in the Quantity to Receive or Amount to Receive field.

You will not be able to over-receive good items; a change order must be created in order to adjust the amount for receiving.

- 6) Scroll up and click the **Attachments** tab to add your receiving document to the header of the request.
- 7) Click the **Edit** button on the Attachments screen.

- 8) Click the **Select files** button to add supporting documentation to the receipt and click **Save**. **Note:** Attachments are required for **ALL** receipts.

- 9) Scroll up and click the **Information** tab to change any information, such as the receipt date, add the tracking number and/or comments in the memo box.
10) Click the **Edit** button on the *Information* screen.

Cancel Receipts

- 1) To cancel a receipt, click the magnifying glass in the upper left corner of the *View Receipt* screen to display the related actions.
- 2) In the *Related Actions* window, click the **Receipt** option and select **Cancel** to remove the receipt from this purchase order.

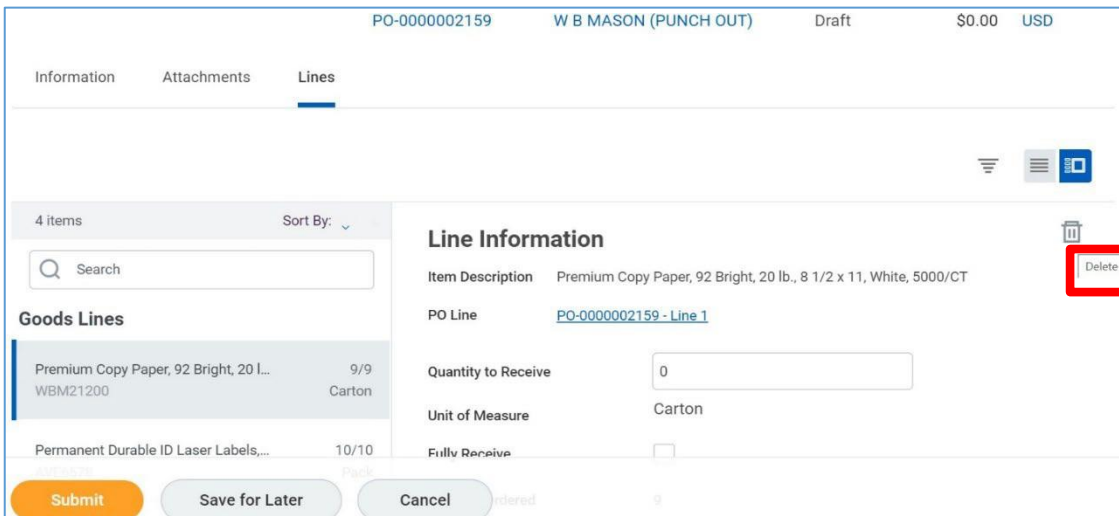

Cancel Draft Receipt When Only Edit is an Option

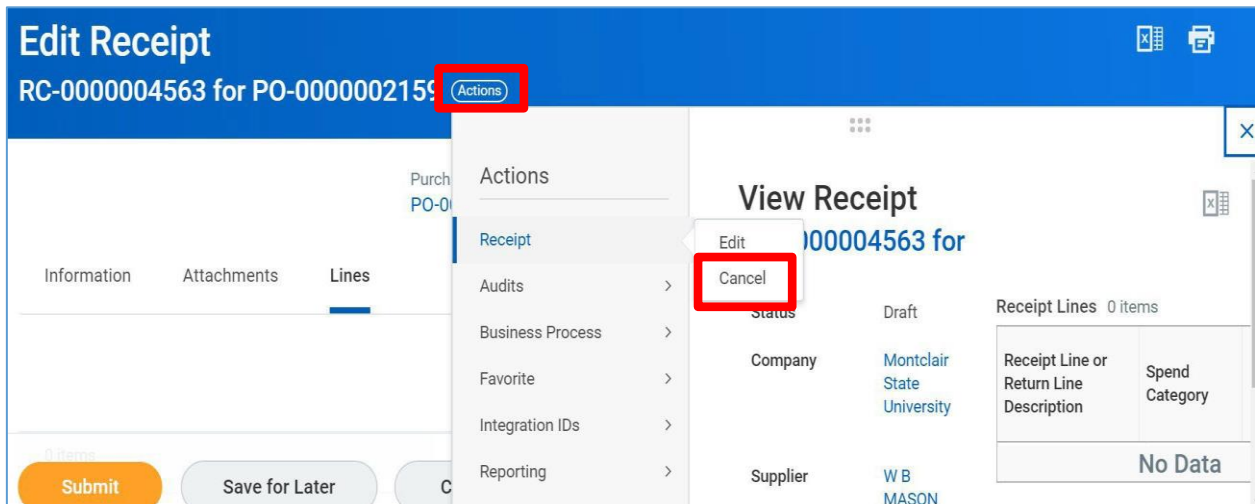

- 1) From within the *Edit Receipt* screen of the purchase order, click the **Actions** buttons and select **Edit** from the *Receipt* option.

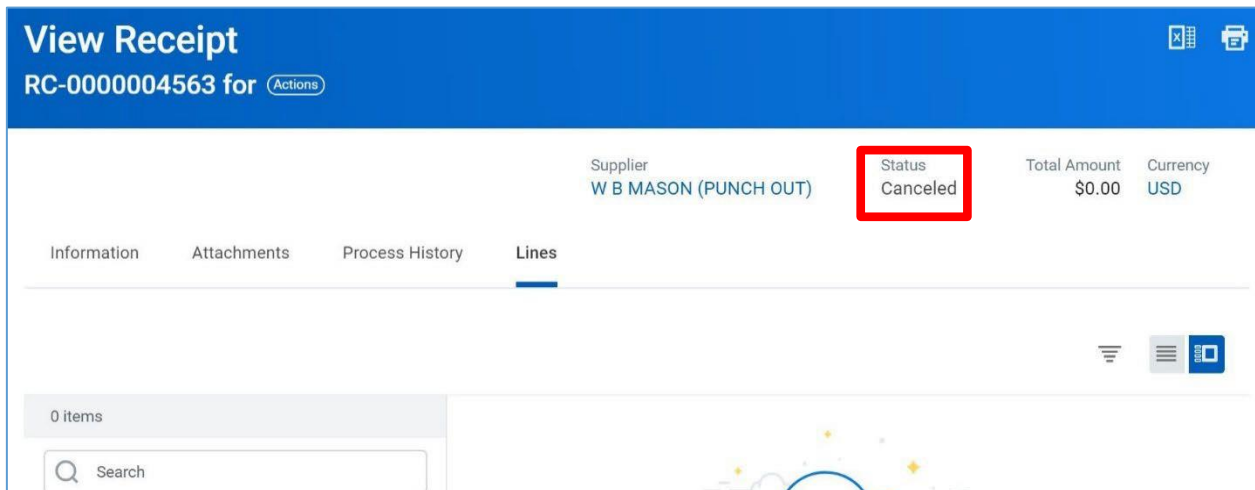

- 2) Delete the unwanted receiving lines by clicking the **trash can** on the corresponding line in the right side of the screen.

- From within the *Edit Receipt* screen of the purchase order, click the **Actions** buttons and select **Cancel** from the *Receipt* option, to cancel the draft receipt.

The draft receipt status now displays as canceled in the system.

Returns

When goods need to be returned to the supplier, either from over ordering or damage, the Return process needs to be completed in the system. Only items which have been received in the system can be returned.

- Enter **Create Return** into the *Search* bar and click **Create Return – Task**.

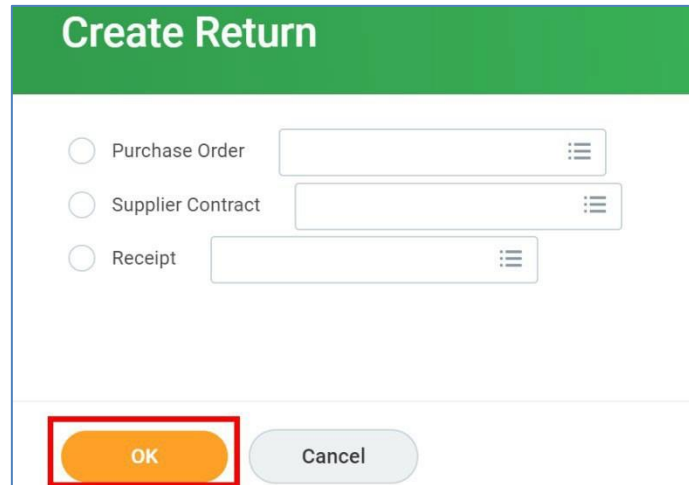

- On the *Create Return* screen, enter the number of the purchase order from which

the goods were ordered.

Alternately, go to the **My Requisitions** report, click on the twinkie of the corresponding PO number to hover over the *Return* option and click **Create** in order to enter the purchase order number into the initial *Create Return* screen.

- 3) Click the **OK** button to continue.

The *Create Return* screen displays.

- 4) The Requester must complete the **Return Reason** by clicking the **prompt** icon and selecting the appropriate reason for the return.
- 5) In the **Supplier RMA** field, enter the code received from the supplier when they were notified that returns were on the way.

1	1	0	<input type="text" value="0"/>	3,301.01	Each	0.00	
1	1	0	<input type="text" value="0"/>	2,669.00	Each	0.00	

Return for Replacement

- 6) Scroll down to the **Goods** tab and on the appropriate line, enter the quantity of the item to be returned in the **To Return** column.
- 7) Attachments are required for each return, and should be a copy of the corresponding packing slip or any written confirmation from the supplier regarding the return.
- 8) Click the **Submit** button to confirm the return within the system.

Close Purchase Order or Line

First Scenario (Notify the Supplier/Vendor before closing the PO for the item(s) or service(s)):

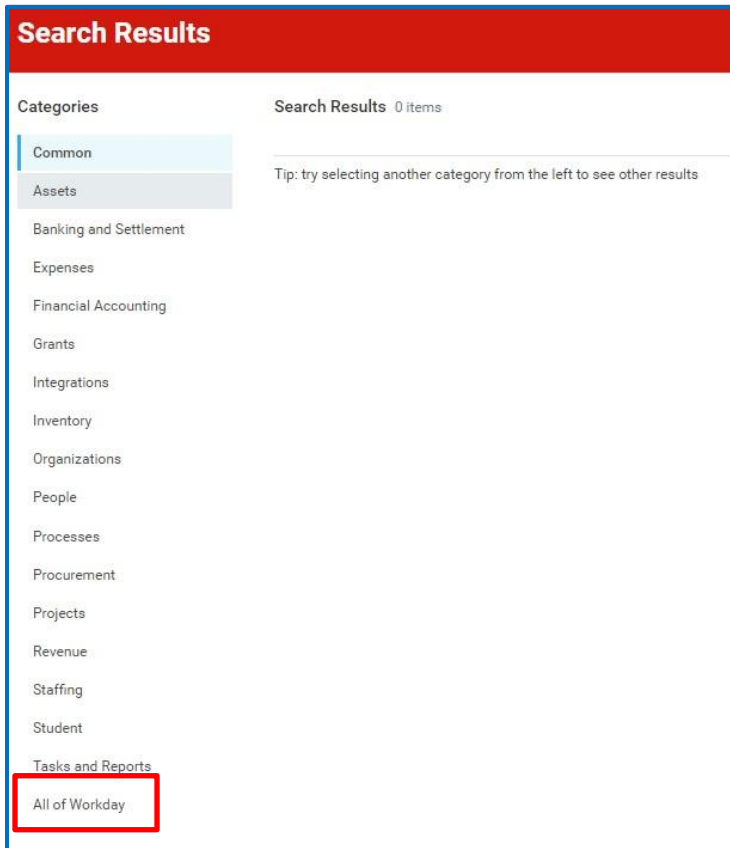

- If there is a purchase order with no receipt or payment, the requester can close the PO.
- If there is a PO with a receipt and no payment, the requester must cancel the receipt first, then close the PO.
- If the item has been shipped, after speaking with the supplier, please do not close the PO. Once the item is received, receive in Workday and create a return to send the item(s) back to the supplier.

If any of these scenarios applies, then follow the below steps.

1. In the search bar of Workday, type in the PO number that needs to be closed.
2. If the PO number doesn't appear click 'All of Workday' then click on the PO to

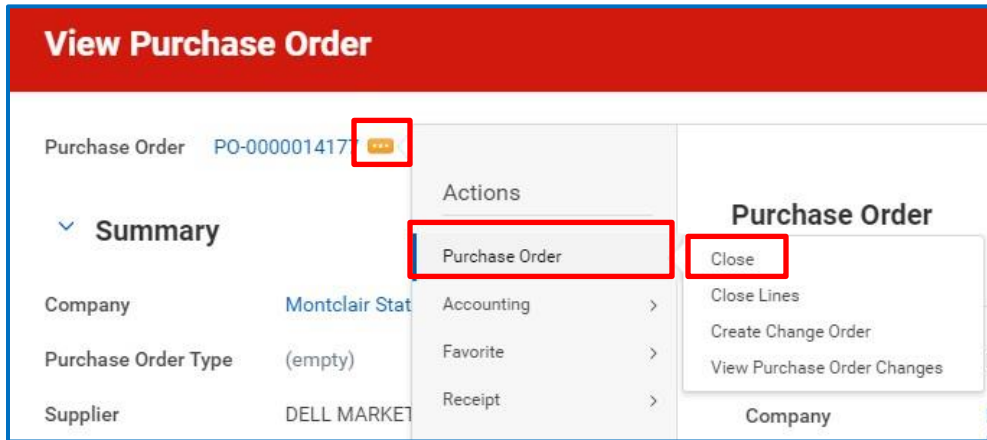

open it

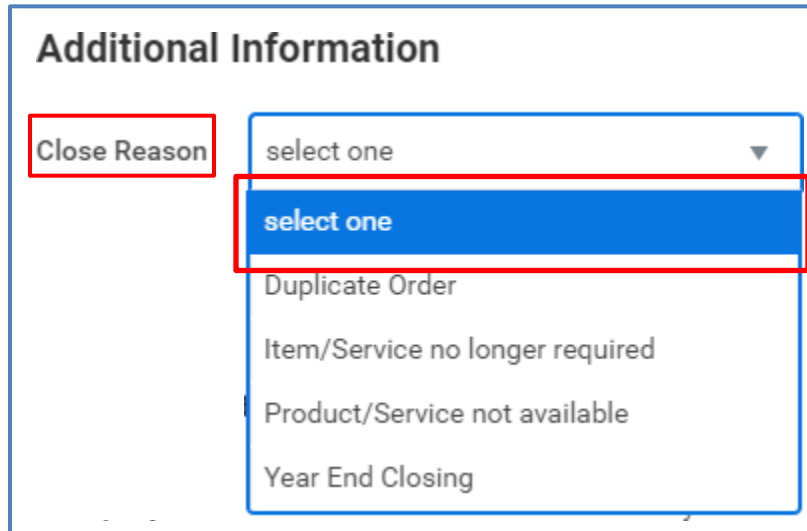

3. Click the **related action (three dot twinkie)** next to the PO number

4. When the Related Actions pop-up displays, select **Purchase Order** and **Close**.

5. A reason must be selected when closing a purchase order. Below are the **Close Reasons**

6. On the *Close Purchase Order* screen, click **OK** to close the PO.

Close Purchase Order

Cancel

NOTE - If **Close** is not listed as an option, there may be a **DRAFT RECEIPT** which must be canceled first before the purchase order can be closed. Please refer to the **Cancel Receipt and/or Cancel Draft Receipt When Only Edit is an Option** section of this job aid.

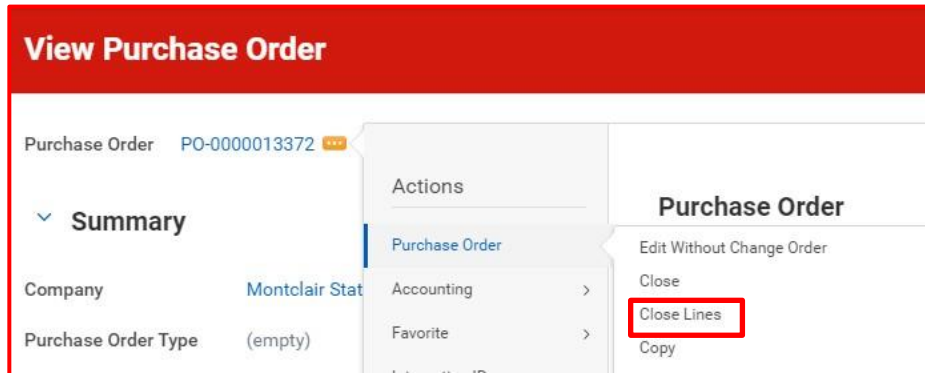

Ship-To Contact	Memo	Location	Business Document Lines
Russell Juzdan	265 Long Hill Rd (stone House) Gutter Cleaning - Inv 1630		<div style="border: 2px solid red; padding: 2px;"> RC-0000000587 for PO-0000000646 - Line 1 - Draft ⋮ </div> RC-0000000589 for PO-0000000646 - Line 1 - Canceled RC-0000000602 for PO-0000000646 -

7. Select **Done** to complete the Close Purchase Order process.

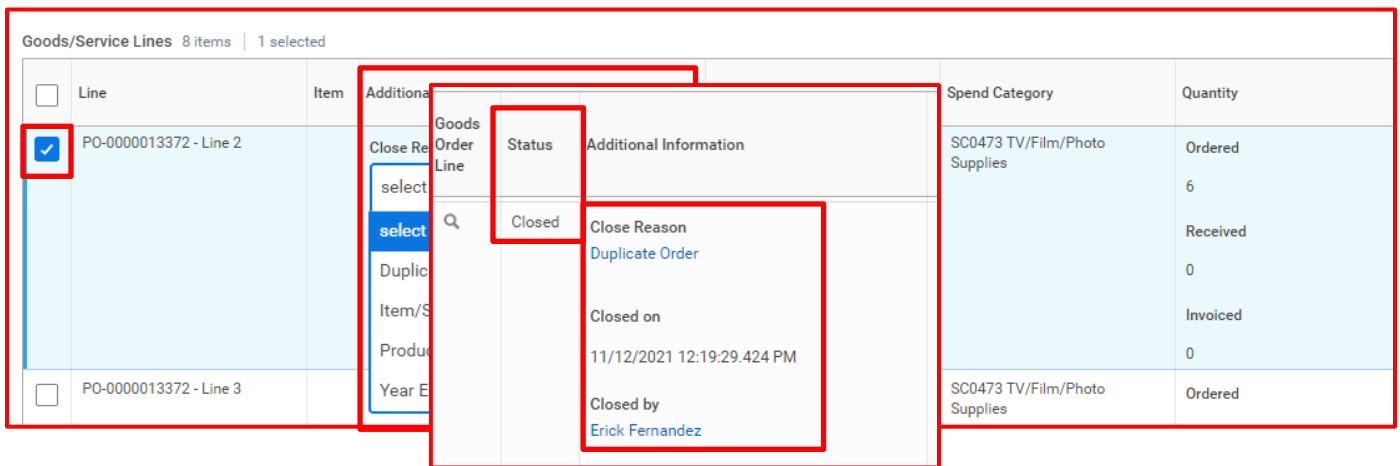

Second Scenario: Closing a Line on a PO (Notify the Supplier/Vendor before closing a line on the PO for an item(s) or service(s)):

1. When a receipt and/or payment is on a PO, but you are closing specific line(s) follow the below steps.

- Steps 1-3 in the first scenario. Click on **Close Lines**.
- Select the line number that should be closed by clicking on the box to the left of

the PO number. Select a reason for closing the line.

- Click **OK** to confirm your actions. The **Status** of the line will be changed to **Closed**, and the close reason will appear on the line.

Third Scenario: Change Order (The Change Order will be sent to the Supplier notifying of the change(s)).

When a payment has been made on a PO, a Change Order can be created. Please follow the Create a Change Order section of this Job Aid for this scenario.

Forth Scenario: Closing line on Punchout PO (Follow the second scenario steps 1-3).

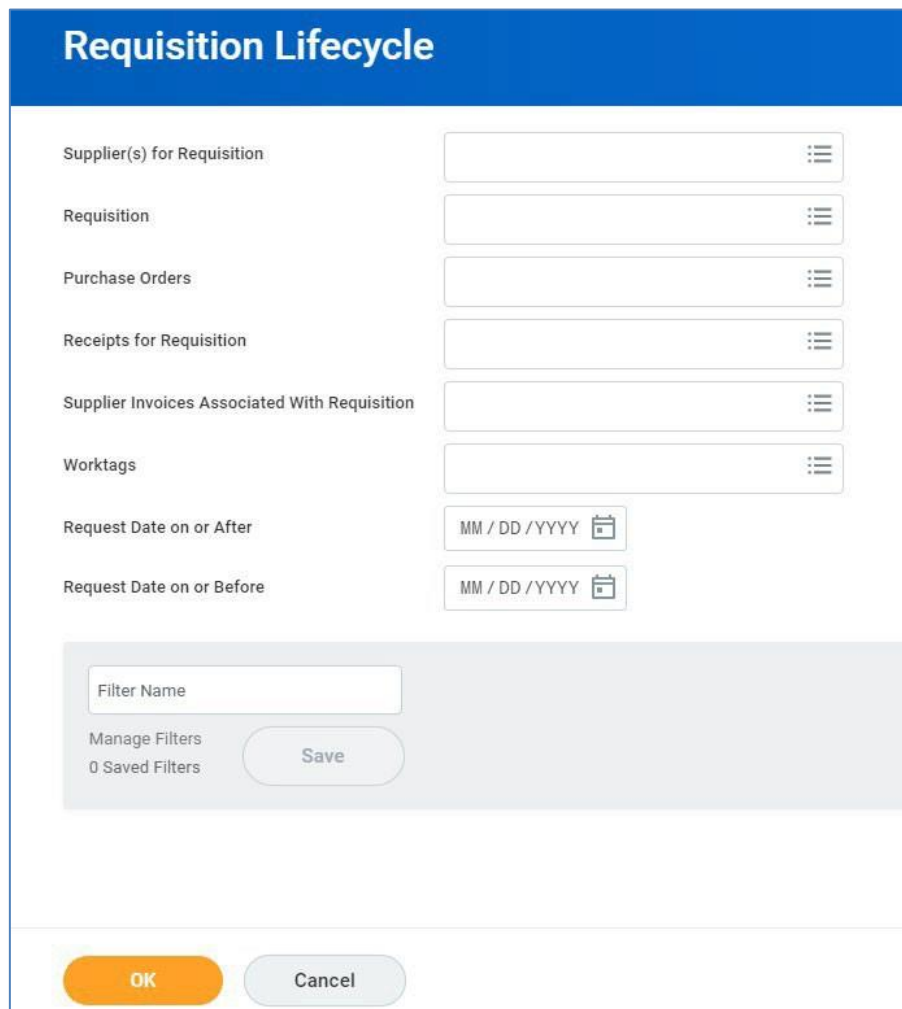

If the item has been invoiced, but not received, please contact Workday Customer Care at wccsupport@montclair.edu to notify Accounts Payable. You must also provide documentation or email from Supplier as backup in order for A/P to cancel the invoice.

Requisition Lifecycle Report

The Requisition Lifecycle Report displays all requisitions for a Cost Center, Grant, Gift, or Project, along with the related purchase orders, receipts, returns, and any payments and invoices. The report is organized by transaction type, and can be filtered on any of the requisition columns.

- 1) Enter **Lifecycle** into the search field and select **Requisition Lifecycle**.

Alternately, go to the Requisition Dashboard by selecting the **Cost Center Finance** application, and click the **Requisition Lifecycle** option in the *Reports* window.

The screenshot shows a configuration window titled "Requisition Lifecycle". It features several input fields for filtering data:

- Supplier(s) for Requisition
- Requisition
- Purchase Orders
- Receipts for Requisition
- Supplier Invoices Associated With Requisition
- Worktags
- Request Date on or After (with a date picker icon)
- Request Date on or Before (with a date picker icon)

At the bottom, there is a filter management section with a "Filter Name" input field, a "Manage Filters" button, and a "Save" button. Below this, it indicates "0 Saved Filters". At the very bottom of the window are "OK" and "Cancel" buttons.

- 2) Click **OK** to see the full list of all of the requisitions for which you have been granted access. This includes all transactions for the cost centers you have access to, as well as any grant purchases entered into the system.

The Requisition Lifecycle displays the following columns:

Requisition section

- **Requisition** – provides access to the related actions for the requisition, including view accounting, view/edit additional data, and create requisition.
- **Requisition Name** – displays the name the requester assigned to the request.
- **Requested By** – identifies the requester.
- **Requisition Amount** – shows the total amount of the request.
- **Freight Amount (Included in Requisition Amount)** - displays the freight cost for the request.
- **Other Charges (Included in Requisition Amount)** – displays any other charges related to the request.
- **Requisition Status** – displays the current status of the request.
- **Requisition Awaiting Persons** – lists any people who still need to perform an action on the request in order to move to the next step of the business process.

Purchase Order section

- **Purchase Order** - provides access to the related actions for the requisition, including closing POs, viewing accounting, and creating returns.
- **PO Number and Version** – displays the purchase order number with the current version number after the dash.
- **Purchase Order Status** – displays the current status of the PO.
- **Supplier** – indicates the purchase order vendor and if it is a punch-out order.
- **Issue Option** – displays how the PO was sent to the supplier.
- **Issued Date** – the date the purchase order was sent to the supplier.

- **Total Quantity Ordered** – shows the overall order quantity for the entire purchase order. For Service line items, the quantity will display as “0”.
- **Total Quantity Received** – shows the overall received quantity for the entire purchase order. For Service line items, the quantity will display as “0”.
- **Total Returned Received** – shows the overall returned quantity for the entire purchase order. For Service line items, the quantity will display as “0”.
- **Quantity Invoiced** – displays the total dollar amount of the invoices for the order.
- **Amount Ordered** – shows the total dollar amount of the order.
- **Amount Received** – shows the total dollar amount of goods/services received against the order.
- **Amount Invoiced** – total amount in dollars, that has been submitted via invoice(s) by the supplier, for the specific purchase order.

Supplier Invoice section

- **Supplier Invoice Document** – the original invoice(s) submitted by the supplier.
- **Invoice Number** – invoice number(s) submitted by the supplier.
- **Invoice Amount** – total amount of invoices, in dollars, submitted by the supplier.
- **Invoice Status** – current status of the invoice(s) submitted by the supplier.
- **Document Payment Status** – current pay status of invoice(s) submitted by the supplier.

Supplier Invoice Payments section

- **Payment Date** – the date the payment(s) was sent to the supplier.
- **Payment Amount** – the amount sent to the supplier.
- **Payment Type** – the mode of payment to the supplier – check or ACH.
- **Transaction Reference** – the reference number associated with the payment type.

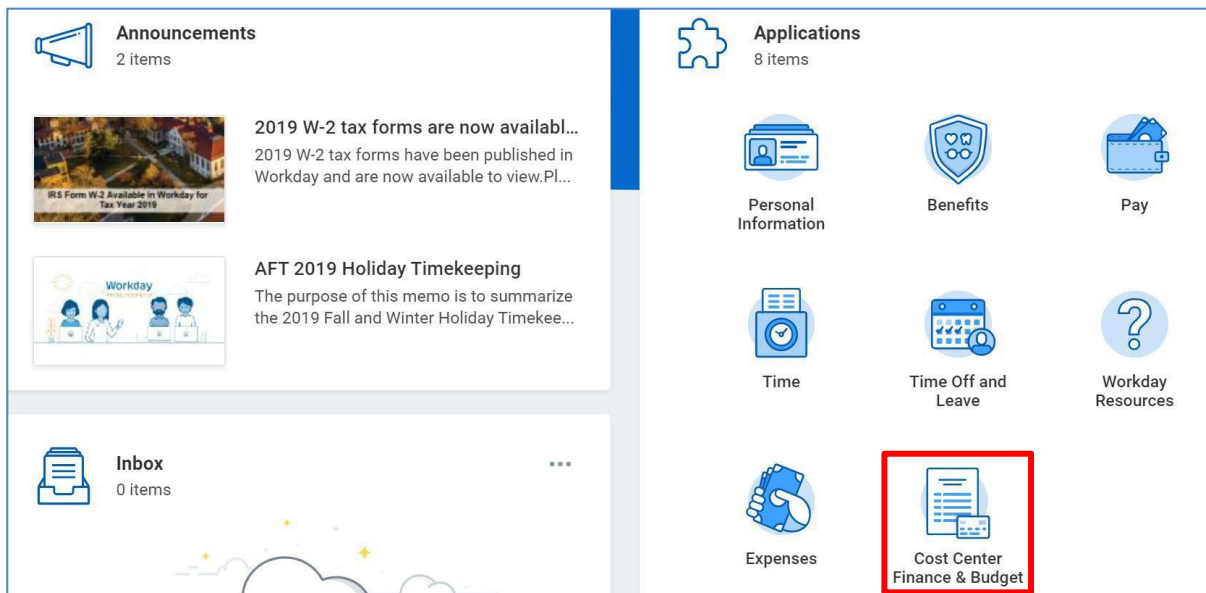

NOTES

- ✓ In order to better manage this data, each column can be filtered or sorted by clicking into the column header and selecting the appropriate action from the menu.
- ✓ Click on a **blue requisition number** to view the details of the requisition data.
- ✓ Click on the **Twinkie** (related actions) next to a requisition number to see the summary information of the request.

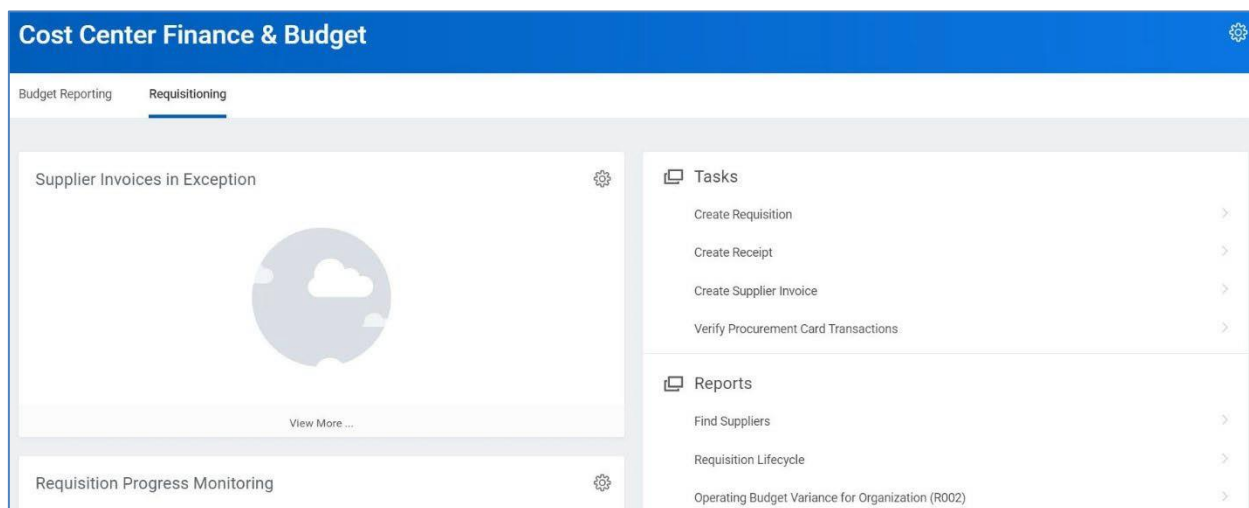

Requisition Dashboard

Dashboards are pre-configured pages related to functional areas within Workday. They are populated with related charts and data. Some may also include related tasks, menus, and announcements. In Workday, data can be entered using “tasks” and viewed using “reports.” The Workday Home page displays *Applications* that provide access to tasks and reports.

An easy way to see all of your requisitions and related transactions is to utilize your Cost Center Finance Dashboard. On your *Home* screen, click the **Cost Center Finance application icon** to launch the related dashboard for your cost center.

There are various windows on the Requisitioning tab within the dashboard, each reflecting related data for the requisitioner. Some examples of the information available are Requisition Summary by Spend Category, Requisition Summary by Supplier, Requisition Progress Monitoring, and Supplier Invoices in Exception. Additionally, there are Tasks, Reports, and Links sections that reflect the most frequently used items for requisitioners.

To see more detailed data on any of the windows, click on a data point, blue text, or the corresponding View More... bar in any window
