

List of Exemptions by Statute to Publicly Advertised Bids

Waivers of advertising are exceptions to the statutory requirement that purchases having a value of greater than \$42,600 for Public Works and \$119,800 for Non-Public Works be procured through formal publicly advertised bidding. However, the University must adhere to the requirement for competitive bidding.

To seek such a waiver for a purchase over any of these two thresholds, the user department should review the existing University contracts or the cooperative contracts available for use. Alternatively, the user department can contact Procurement Services to ascertain whether the item or service is available through an existing University contract or whether a cooperative purchasing agreement might be a viable procurement option. If none of these contracting options is viable, the user department will be advised by Procurement Services whether the item or service should be procured through a formal publicly advertised bid or may be procured through a waiver of advertising.

The Montclair State University Act permits waivers of advertising contracts in any of the following circumstances:
