

## **Our Logo on Industry Web sites**

*When using our logo on a web site, the PMS 200 red that is used in print can look pink on some monitors.*

*As such, there is an equivalent “web red” that should be used for web sites – only. Use of our logo on others sites is strictly limited to other non-profits where we are a member or a sponsor and it is in the best interest of the University—in its entirety—to be there. Our logo should not be used on commercial web sites. When in doubt, ask!*

*If you need a logo for a Web site, please contact [webmaster@montclair.edu](mailto:webmaster@montclair.edu)*
