Gainful Employment Disclosures

Federal Regulations require universities to provide information to current and prospective students who enroll in non-degree certificate programs where students are eligible to receive funding through Federal (Title IV) student aid programs. The information is intended to inform students about the occupations the programs prepare students for, the cost of the programs and average student loan indebtedness of students completing the programs, the success rate of recent students in completing their program in a normal time frame.

American Dietetic Association Certificate Program

- This program prepares students for a career as a dietician. U.S. Department of Labor’s Standard Occupational Classification (SOC) code is 29-1031. The occupational profile for a career as a dietician can be found on the O*NET OnLine web site at http://www.onetonline.org/link/summary/29-1031.00.

- Of the eight students completing program requirements in 2012-2013, 100% completed the program within a normal time frame.

- This program requires successful completion of up to 150 credits hours of coursework. At current tuition and fee rates, the cost for the complete program would be approximately $92,550 for in-state students and $135,900 for out-of-state students.

- The estimated cost of books and supplies for the complete program is $9,000.

- The median student loan debt for a student completing this program is zero in Federal Students Loans and zero in privately funded student loans.
