

Bonnie Lustigman Research Fellowship Application

Purpose: To financially assist talented undergraduate and graduate students to defray expenses of their own research while enrolled as a full-time Biology/Molecular Biology major at Montclair State University in the year in which the funds are awarded. An Award recipient must demonstrate a commitment to biology and molecular biology scholarship and research. This award is founded in loving memory of Professor Bonnie Lustigman.

Eligibility: Full-time undergraduate or graduate student enrolled in at least six credits and majoring in a major housed within the Department of Biology, in good academic standing, with a minimum grade point average of 3.5 in the major.

Amount: Up to two awards per year, to be used the following academic year; \$1000-\$2500 each based on fund availability

Application Deadline: Applications will be considered beginning March 1. Submit materials to HazardL@montclair.edu.
