Please also upload this document to the NJCCIS File Cabinet using the GNJK Readiness Checklist document type. Standards and training documentation should also be added to the NJCCIS File Cabinet using the applicable GNJK category for the document type. The information on this page and on the Classroom Information List must be fully completed and submitted with any additional applicable documents requested for their program. This checklist will serve as notification to Grow NJ Kids Rating of your readiness to begin the rating process.

Documentation Review Waiver for NAEYC-Accredited Programs

Programs should consider the NAEYC standards from the year in which the program was accredited*, and the aligned GNJK standards to determine the number of points possibly waived. The standards successfully met through NAEYC Reports will be put towards the total points for the requested Star Rating. The program should also review their **NAEYC Accreditation Decision Report**. Grow NJ Kids standards aligned to the NAEYC standards listed as “unmet” on the decision report or found on the Areas for Ongoing Improvement section of the decision report are **not waived**. Based on the findings from the Accreditation Decision Report and the completed NAEYC Annual Reports for years 1-3 by Grow NJ Kids Rating, additional documentation may be required to demonstrate evidence of meeting Grow NJ Kids standards and meeting points requirements for the requested Star Rating. The required amount of points for each Star Rating can be found on Page 20.

Submitting Documentation

A program may submit documentation from any level or category in order to ensure they have reached enough points for the applied for star rating. If additional documentation is required to submit and/or resubmit in order to ensure point requirements have been met, Grow NJ Kids Rating will notify you of this information.

*The Quality Rating Coordinator will review the GNJK standards aligned to the NAEYC standards from the year the program received accreditation documentation when determining which GNJK standards are waived. Programs whose NAEYC accreditation was granted based on standards from a year other than the year during which they received their accreditation should provide evidence as such.

Observation Agreement

Independent Raters will arrive a few minutes before the scheduled observation to ask questions pertaining to non-observable items on the Environment Rating Scale such as the total number of children enrolled, if there are any children with identified disabilities, etc.

The Independent Raters entering the classroom(s) are there solely to observe, and will do their best to stay out of the way and not be disruptive to your program. Because the Raters are there to observe as much as possible during the three-hour observation, please keep interactions with Raters during this window to a minimum.

All adults in the state of NJ are mandated reporters. Whenever there is reasonable cause to believe that a child has been subjected to abuse or neglect by a provider/center staff member or any other person, our Raters must verbally notify the NJ Department of Children and Families State Central Registry. If there is any imminent danger(s) or hazard(s) that threaten the health and safety of children in a provider's home or childcare center, the Department of Children and Families Office of Licensing will be notified.

Star Rating Readiness Certification

I certify that my program has completed all Level 1 and Level 2 GNJK Standards and that my program's child care license is in good standing. I have also worked with my Technical Assistance Specialist to successfully prepare my center/school for the rating process as required for the star rating I am seeking. On this Star Rating Readiness Checklist, I have noted all documentation that has been submitted electronically and the onsite documentation to be reviewed and considered towards the final rating decision.
