

Name: _____
MATH 106

Due at the end of the class.

Identify one scribe to jot down key words and phrases. Complete sentences are not necessary

1.) How did your group see connections between mathematics and your items?

2.) What process did you employ to narrow the ideas down?

3.) Did you find anything that sparked your curiosity or interest

4.) List all of the mathematical questions you discussed, even if they ended up not being in your final product.

5.) What else did you think about during this process?
