Activity Worktag Request

The Activity worktag is an additional worktag which may be used on transactions to capture data for reporting, specific control or reconciliation purposes. The Activity worktag may be used on all types of transactions, for example: supplier invoices, purchase orders, cash sales and journal entries. Using the Activity worktag, when included with Additional worktags, provides the ability to track revenues and/or expenses for a particular activity.

This guide provides steps for an Activity Worktag Request to be completed directly in Workday.

The Security Groups allowed to initiate this Activity Worktag Request process are Cost Center Finance Specialist, Cost Center Manager and Division Manager. Central users have access to initiate all Workday worktag Requests.

If access to Workday is required please use the Security Role Request Form
