

REQUISITION TYPE METHODOLOGIES

The chart below outlines the different Workday Requisition Types and the methodologies for each. Refer to <https://www.montclair.edu/procurement/forms/> for any referenced forms (all are bolded).

In all cases, the quote (or contract, if applicable) must be attached to the requisition and must be referenced on the requisition, preferably in the “Memo to Suppliers” field.

Please select the most applicable requisition type. For example, even if a requisition is under \$7,800, if the good/service is under a University Contract, BOT Waiver of Advertising, or one (1) of the four (4) Cooperative Contract methods, please select that applicable requisition type. This guidance applies to all requisition types.
