Introduction to PowerPoint 2013

Viewing a Presentation

When you create a Blank Presentation in PowerPoint, the workspace opens in Normal view. Normal view is divided into three areas:

1. Slide Pane - shows the full layout of a slide
2. Thumbnails – shows slide thumbnails
3. Notes Pane – used to input text relevant to a specific slide

Other views include Slide Sorter view which shows thumbnails of the entire presentation and Slide Show view where you preview your presentation as your audience will see it.

Creating a New Presentation

To Create a New Presentation:
1) Click on the File tab
2) Click on New
3) Select either a Blank Presentation or search for online templates and themes
4) Double-click Blank Presentation to create a new presentation
Entering Text on a Slide

When you create a new presentation, the first slide to appear is a Title slide. It contains two placeholders: a title placeholder and a subtitle placeholder. To add text, click within the placeholder and type.
Formatting

PowerPoint provides a wide variety of themes that apply a distinctive look to the text, bullets, background colors, and graphics in a presentation. Using a theme is a big time-saver and immediately adds a professional touch to your presentation. You can apply a theme when you create a new presentation and you can change the theme as many times as you want.

To Apply a Theme:
1) Click on the Design tab
2) Select one of the themes in the Themes group

To see more themes, click on the dialog box launcher.

To Format Text:
1) Click within the placeholder
2) Select the text to format
3) Click on the Home tab
4) Click on the formatting buttons in either the Font or Paragraph groups

You can also use the Mini Tool Bar that appears when the text is selected.
Adding New Slides

Each slide in PowerPoint has a slide layout. Slide layouts contain formatting, positioning, and placeholders for all of the content that appears on a slide.

PowerPoint includes nine built-in slide layouts:

To Add New Slides:
1) Click on the Home tab
2) Click on New Slide in the Slides group
3) Choose a slide layout
Content from the Insert tab:
There are six types of content that you might often use, which are located under the Insert tab

1) Tables
2) Charts
3) Smart Art Graphics
4) Pictures
5) Online Pictures
6) Video

Click on the type of content you want to create and PowerPoint will provide the tools needed to create it.

Applying Slide Transitions
A transition is a special effect that determines how a slide appears as it enters or leaves the screen.

To Apply Transitions:
1) Click on the Transitions tab
2) Click on the drop down arrow in the Transition to This Slide group to see a listing of all available transitions
3) Click on the transition you want to apply
   Click on Apply to All to apply the transition effect to the entire presentation
