### Introduction to Word 2013

#### Screen Elements

1. **File Tab**: The File tab will bring you into the *Backstage View*. The Backstage View is where you manage your files and the data about them – creating, opening, printing, saving, inspecting for hidden metadata or personal information, and setting options.

2. **Ribbon**: An area across the top of the screen that makes almost all the capabilities of Word available in a single area.

3. **Tabs**: An area on the Ribbon that contains buttons that are organized in groups. The default tabs are Home, Insert, Design, Page Layout, References, Mailings, Review, View and EndNote X7.

4. **Title Bar**: A horizontal bar at the top of an active document. This bar displays the name of the document and application. At the right end of the Title Bar is the Minimize, Maximize and Close buttons.

5. **Groups**: A group of buttons on a tab that are exposed and easily accessible.

6. **Dialog Box Launcher**: A button in the corner of a group that launches a dialog box containing all the options within that group.
7. **Status Bar**: A horizontal bar at the bottom of an active window that gives details about the document.

8. **View Toolbar**: A toolbar that enables, adjusts, and displays different views of a document.

9. **Zoom Button**: A button that magnifies or reduces the contents in the document window.

10. **Quick Access Toolbar**: A customizable toolbar at the top of an active document. By default the Quick Access Toolbar displays the Save, Undo, and Repeat buttons and is used for easy access to frequently used commands. To customize this toolbar, click on the dropdown arrow and select the commands you want to add.

**Contextual Tabs** are designed to appear on the Ribbon when certain objects or commands are selected. These tabs provide easy access to options specific to the selected object or command. For example, the commands for editing a picture will not be available until the picture is selected, at which time the **Picture Tools** tab will appear.

To Create a New Word Document:

1. Click the **File** tab
2. Click **New**
3. Click **Blank Document**

- **Select an entire document**: Triple-click in the selection area or hit the CTRL + A keys
- **Undo an action**: On the Quick Access Toolbar click the Undo key

Deleting Text:

When deleting text in your document you can either use the **Delete** key or the **Backspace** key. The **Delete** key deletes text to the right of your cursor while the **Backspace** key deletes text to the left of your cursor.

Cut, Copy and Paste

Often times you will need to move text from one location in a document to another, or to a different application. In this case you will perform a Cut and Paste. To reproduce a specific part of a document and place it elsewhere, you will perform a Copy and Paste.

To Cut Text:

1. Select the text you want to move
2. Click on the **Cut** icon located on the Home tab in the Clipboard group
To Copy Text:
1. Select the text you want to copy
2. Click on the Copy icon located on the Home tab in the Clipboard group

To Paste Text:
1. Click in the area of the document where you want to paste your text
2. Click on the Paste icon located on the Home tab in the Clipboard group

Formatting a Document
To Make Font Changes:
1. Select the desired text that you want to format
2. Choose commands from the Font group on the Home tab
3. For additional formatting options, click on the Dialog Box Launcher in the lower-right corner of the group to launch the Font dialog box

You can also use the MiniToolbar. The Mini Toolbar is activated when you select text to be formatted. This toolbar is miniature and semi-transparent to help you work with fonts, font styles, font sizing, alignment, text color, indent levels, and bullet features.
Live Preview:
Using **Live Preview** temporarily applies formatting on selected text or objects whenever a formatting command is hovered. This allows you to quickly preview how the formatting options will look before they are made.

Select the desired text that you want to format
On the **Home** tab, in the **Font** group, do any of the following:
- Click the arrow next to the **Font** box and move the pointer over the fonts that you want to preview.
- Click the arrow next to the **Font Size** box and move the pointer over the font sizes that you want to preview.
- Click the arrow next to the **Text Highlight Color** button and move the pointer over the highlight or fill colors that you want to preview.
- Click the arrow next to the **Font Color** button and move the pointer over the font colors that you want to preview.

When you finish previewing the formatting choices, do one of the following:
- To apply the previewed formatting, click the selected font name, size, or color in the list.
- To cancel live previewing without applying any changes, press **ESC**.

Formatting a Paragraph:
A paragraph is a select group of text that can have its own formatting characteristics, such as alignment, spacing and styles.

1. Select the desired paragraph(s) that you want to format
2. Choose commands from the **Paragraph** group on the **Home** tab
3. For additional formatting options, click on the **Dialog Box Launcher** in the lower-right corner of the group to launch the **Paragraph** dialog box

You can also use the **MiniToolbar**.

Previewing and Printing a Document
