**Searching for Content**
You can search for any keywords in the Search field to help you filter through everything you have access to within Panopto. It will search through all words spoken in the sessions, shown on the screen, and shown in the slides. If you are within a folder, the search bar will just search through that folder. You can click on the title or thumbnail to open to the beginning or click on an internal search result to open to that point in the video. You also have the options of viewing the videos in the player by Grid view, Image view or Detailed view.

Editing a Video

Very often you will need to edit your videos. Example: you need to trim the beginning and/or the end of your video.

To edit a video:
1) Navigate to the Panopto Video Library
2) Hover over the video you wish to edit
3) Select Edit

At the bottom of the page you will see a video timeline.
This timeline represents the entire length of your video showing each stream of content that makes up your session. The left side of the timeline is the start of your video, the right-hand side is the end of the video.

You can expand the timeline by selecting the arrow to show more detail.

4) Select the **Cut** tool to remove parts of the video

- To cut from the start of the video:
  - Click and drag the **edit** handle from the left to the right to cut from the start of the video
- To cut at the end of the video:
  - Click and drag the **edit** handle from the right to the left

- To cut a part in the middle:
  - Position the cursor over the point you would like to start the **edit** and click and drag to the right and then let go at the point you want the cut to finish.

This will remove the area highlighted from the video, and add a new handle at each edit point to allow you to finely trim your cut.
The items within the grey space will not be displayed to viewers. Although you cut it, the video is still all there in case you made a mistake with cutting.

5) When you have completed your editing, select the Publish option.

The session will now re-process to include the changes you have made.

**Creating Quizzes**

In Panopto you have the ability to add quiz questions to any video. Three different question types can be created: True/False, Multiple Choice, and Multiple Select. The default is Multiple Choice.

**To create a Quiz:**

1) Hover over the video and click **Edit**
2) In the left **Navigation** pane, click on the **Quizzes** link

![Navigation pane with Quizzes link highlighted](image)

3) Using the **Pointer** tool, navigate in the **Timeline** to where you want to put a quiz and click with your mouse

![Timeline with Pointer tool](image)
4) From Quizzes select Add a Quiz

5) Select the question type
6) Type the question in the Question field
7) Enter the possible answers in the Answer fields clicking Add answer to add more
8) Select the correct answer by clicking the radio button next to the answer

9) When finished click Done

Once you have created all of your questions, you can then set the quiz options below:

10) Select your quiz options and click Finish
When you are finished, click the **Publish** button.

**Notes:**
- A video can have multiple quizzes.
- During playback, the video will pause when it is time for a Quiz. Once the questions are answered, the video will resume.
- If a video that contains a Quiz is placed on a Canvas page, the Quiz will not be displayed. It will only be displayed if the quiz is integrated with a Canvas assignment. This is explained later.

**Viewing Quiz Results**

1) Login to the Panopto Video Library
2) Hover over the video and click **Settings**

3) On the left, click the **Quiz Results** tab to display the results

From this tab, you can see **Quiz Results Summary** which shows the total number of correct answers and questions, as well as the percentage correct for each quiz. You are also able to get a more detailed view of results by section.

4) Click the **Section** drop-down to select which quiz section to drill into.
5) You can also expand each user to see which questions they got correct and which questions they got incorrect

Integrating the Quiz Results with the Canvas Gradebook

Panopto videos that include Quizzes can be integrated with the Canvas Gradebook.

To integrate a Panopto Quiz within the Canvas Gradebook:
1) Login to Canvas and navigate to your course
2) Go to Assignments
3) Click +Assignment
4) Enter a name for the assignment
5) Enter a description
6) Enter Possible Points

1) Play the video in the timeline
2) Go to the caption you would like to edit
3) Click the **More** icon to the left of the time stamp
4) Select **Edit**
5) **Edit** the caption as needed
6) Click **Save**
7) Repeat the process until all captions are corrected

**To delete a caption:**
1) Click the **More** icon to the left of the time stamp
2) Click **Delete**

**To add a caption:**
1) Click on the timeline where you would like the caption to begin
2) Click where is says **Enter a Caption** (beneath your current captions)
3) Type the text for the caption
4) Press **Enter**
5) **Publish** the video

For information on manually uploading a caption file, visit the [Panapto Support Website](#)

**Embedding a Video in Canvas**

There are 3 ways to share a video with your Canvas Course:
1) Placing it on a Canvas page*
2) Add Panopto to the Course Navigation Menu*
3) Create a Panopto Assignment (Video contains quiz questions that you would like integrated into the Canvas gradebook)

*Indicates no Canvas Gradebook Integration

**To Share a Video with your class on a Canvas Page:**
1) Login to Canvas
2) Navigate to the course
3) **Create a Page**
4) Click the **More External Tools** icon on the WYSIWYG toolbar

5) Select **Panopto Recordings**
6) Select the video you would like to share
7) Click **Insert**
8) **Save and Publish** the page

**Sharing a Video by Adding Panopto Navigation in the Course Menu:**
You can create a custom navigation link in your course menu that gives access to all videos you have uploaded for your students.

**To create a Custom Navigation link:**
1) Login to your Canvas course
2) Go to **Settings**
3) Go to the **Navigation Tab**
4) **Drag** the Panopto Recordings menu item up in the course menu
5) Click **Save**

For additional information on Sharing a Video, visit the [Panopto website: Share a video](https://www.panopto.com/support/videos/create-and-insert-a-video-navigation-link-in-your-course-menu)
