### Internship Information

Participation in an internship is required while enrolled in JUST 497. Unless you have an extenuating circumstance where an internship would cause an unreasonable hardship, you must complete an internship to graduate with a major in Justice Studies. Students are responsible for securing and confirming their internship with the Applied Learning Specialist prior to the start of the semester they plan to take JUST 497. Students are encouraged to actively search and apply for internships of interest early. The Applied Learning Specialist can assist students with finding and applying to internships, but specific internships are not guaranteed as the internship site makes the final decision on who to hire based on the student's credentials, resume, and interview. Internships must be related to Justice Studies, have a direct professional supervisor, be an ongoing meaningful learning experience, and be 90 hours of work and a minimum of 10 weeks (8 in the summer) during the designated semester. If you are already working, we may be able to use your existing position in lieu of a new internship if it is related to Justice Studies.

32. Do you have an extenuating circumstance that would present an unreasonable hardship for you to complete the internship?
