

FRAUD ALERT TO SUPPLIERS

An unauthorized person has been using the University's name and credit references in an attempt to open accounts with vendors across the country. The credit reference letter is generally an altered version of the one previously used by the University, and the person(s) refers to themselves as being "Christine Palma, Executive Associate Director from Montclair State University." The ship-to addresses are to out-of-state locations having no relationship to the University. This is fraudulent and should be reported to palmac@mail.montclair.edu. If you receive any suspicious communications indicating it is from Montclair State University and requesting that the merchandise be shipped out of state, please contact **973-655-4423** immediately. Thank you for your cooperation.
