I. Points of Information:

Answers to bidder questions:

Question: The plans for Freeman hall show tapered to be installed but does not specify the pitch. What is the desired pitch for the Tapered insulation?

Answer: Freeman Hall has an existing pitched concrete deck. The tapered insulation added would be to elevate ponding areas. ¼” per foot is desired however 1/8” per foot would be acceptable.

Life Hall: The plans specify "existing pitch to remain" Q: Is the existing pitch from the deck or is the insulation tapered? What is the pitch?

Answer: The roof has an existing pitched deck. The existing pitch is ¼” per foot.
