INTENT: This Addendum forms a part of the Contract Documents and modifies the Original Bidding Documents and Prior Addenda, if any, as identified above. Acknowledge receipt of this Addendum in the space provided on the Bid Form. Failure to do so may subject Bidder to disqualification.

I. Points of Information: Please see below Questions from Bidders and answers from MSU.

Q.1 Is this Project being done in phases?

A.1 Yes construction will be in phases. One restroom must be completely finished before the other is started. During that time, the other restroom must be used by Diner customers as a unisex restroom. While the second is under construction, the first must be used as a unisex restroom. The Diner cannot close during the summer construction.

Q.2 If this project is being done in phases, being that one bathroom has to be active while the other is being renovated, are the plumbing lines isolated between each bathroom?

A.2 Each plumbing fixture in each restroom has its own shut-off valve. As part of this project, the contractor should replace each existing shut-off valve. To change them, the main Diner shut-off valve will have to be closed for a few hours for each restroom. The time period for closing the main shut-off will have to be coordinated with the Diner personnel, since the Diner will have to be closed to the public during that time. The contractor should include the cost of doing that work on overtime, after normal construction hours.

Q.3 Will a field office and related equipment as outlined in section 5.2 of the general conditions be required?

A.3 No field office and related equipment required

Q.4 Is a construction sign required?

A.4 No construction sign required

Q.5 Demolition plan calls for salvage/reinstallation of lavs. Finish plan calls for new. Please clarify.

A.5 Install new lavatories in both restrooms. Discard existing lavatories
