Call for SUMMER 2019
Green Teams Corporate /Agency Applications
May 29th – August 8th

Due February 1, 2019, 5:00 pm

The Opportunity

The PSEG Institute for Sustainability Studies (PSEG ISS) and New Jersey Higher Education Partnership for Sustainability (NHHEPS) offer a unique opportunity for your organization to receive the assistance of a transdisciplinary Green Team of undergraduate students to address one or more sustainability problems posed by your organization.

• Teams typically save an organization in excess of $250,000.
• Teams are comprised of 5 students from top universities and a variety of disciplines and backgrounds, depending on your needs.
• Teams are trained by subject matter experts to achieve high levels of competence in areas required to address sustainability challenges at your organization.
• You request the outputs and deliverables together with our consultation.
• Interns work for 10 weeks to achieve your expected deliverables. Your team will produce a comprehensive written report and Powerpoint presentation.

To guide the Green Teams’ progress and supply necessary information, we ask that you identify a contact with whom the Green Team assigned to your organization will have regular interaction consisting of weekly 1-2 hour meetings at either location or via virtual means. The goal of this program is to meet your sustainability needs while training students on professional expectations in sustainability-aligned careers, bridging the gap between classrooms and careers.

For more information about PSEG ISS and examples from the 2016, 2017, and 2018 Green Teams, go to our web site: www.montclair.edu/csam/iss

To apply, visit https://orgsync.com/128979/forms/328877

If you have any questions please contact Dr. Amy Tuininga at tuiningaa@montclair.edu and (973)655-3667.
