

WATER REDUCTION AT HACKENSACK UNIVERSITY MEDICAL CENTER

HUMC is the largest water consumer in the region at **112 MILLION GALLONS**

INITIATIVES

NATIVE/DROUGHT TOLERANT PLANTS

By using native and drought-tolerant plants since 2014, that has saved us **119,000 gallons** of water.

HYDRATION STATIONS

Installing hydration machines throughout our campus ensures that our team members stay hydrated.

WATER-EFFICIENT EQUIPMENT

Replacing our sterilization machines with water-efficient models has lowered our water consumption by 18%

These initiatives have led to a **23% reduction in water** usage since 2012.
