BILL S2019-026
Authors Report: Jack: motion to make a formal amendment. In the first whereas, after parenthesis SGA parenthesis the INC, should be spelled out to incorporated.
Primo: Amendment adopted.
Questions for the Author: none.
Joe: So we're not going to go too in depth with this, because as you already know, we voted on each article one by one, but this going to be one comprehensive vote the entire document. Once this gets passed this will be sent to (inaudible) who is going to add it to the ballot. So it's going to be one of the referendum questions, when students go to vote, they will have two different links and be able to compare the changes. Also on the second one the changes are going to be right on there with the strikeouts, just like you see here, so its as transparent as possible. I'm not going to go in depth,m just hit some key points. If anyone has any questions please do ask.
Joe: one of the big changes that's being imposed is the name change from the legislature to the senate. Purely for publicity. The reasons, there's really no other reasons besides that- most other schools operate as a student senate, so were kinda adopting that into us.
I just wanna make a note so the duties aren't really changing, were just amending the constitution to the way we are now. A Lot of things are outdated, that's not how we operate now, if we operated according to this document it would be highly unethical so we've had to stray away from it a little bit.
Elshama: so the duties of the president pro tempore aren't changing?
Joe: Just vaguely. Most of the real changes are occuring in the statutes which we already voted on.
Joe: I will say, when it comes to GPA, the GPA requirements are being changed. Most of them are bing boosted very slightly. For the justices, they no longer have to have a minimum of 9 credits here at montclair, none of the other branches require that.
Joe: This is a big one, officer compensation. Cleary taking out officer, it's got to read officials. Subsidiary organizations shall not receive as a reward for performed duties, financial, or material. Really this is just saying that our Eboards and organizations cannot be paid still, however this is adding the possibility of being paid in the SGA. Thats a much larger discussion to be had, it's going to have to go through the treasurer's office, and they pay for them is going to have to be debated especially in the statutes because thats where its listed. Thats where their pay is listed for the summer, so that's a really big discussions to be had but will not be had this semester. Purely for budgeting reasons as well to make sure that we can still do that.
Joe: Recall- really outdated, no other school has it, so thats why were taking it out
Joe: The fee that we all pay, it's not increasing, if we wanted it to increase, that would have to be held with the BOT’s. The BOT’s are some of the most, when it comes to pricings increasing,
very very challenging, so the SGA would have to prove the need for increasing it. Were really not in that position of need to go to them asking for increase, for them to turn around and say but yall arent even using the entire budget that you have right now.

Joe: Really this change is just reflecting accurately how were charging students. This is a big change right now it requires 20% of the student population to amend the constitution but as you can see were changing it to 5%. That would be around 3,500 students and people don't even get that for national or local elections so were making it a more feasible number at 5%.

That's everything does anyone have any questions?

Nick: How much is 20%  
Joe: We’re a school of 21,000 so if someone wants to do the math

Arianna: its like 800.

Arianna: do you think that in the bill it should say, instead of next semester, it should say June 1, so that way it goes into effect when the new administration takes office?

Joe: So fun fact even once we vote on it, it's going to go through our attorney, so once it gets approved from him. So it doesn't really matter.

Sera: In the corporate budget , that's just so the SGA functioning kinda like the Eboard has access to, there is a line for payroll, where our summer pay comes out of, and where we pay our two professional staff members, so my first instinct is to more things around and not touch any of the money that is allocated for the organizations, we would not touch anything like that.

Joe: And once again this is just to get the bill onto the elections, voting opens up april 8th-12th.

Marie: If someone did not agree or wanted to make potential changes what is the process?

Joe: They should have come last year, we have been advertising for students to come get involved in the constitution changes, so if they disagree, then you have the vote to put a no confidence vote in.

Committee Report: Jack: G and A gave this bill a 0,3,1 negative recommendation due to pending amendments. The amendments have now been made.

Questions for the Committee: Nick: what amendments?

Joe: The one we started off with, putting incorporated into the initial bill.

Elshama: Is that the only amendment?

Joe: Yes.

Debate and Discussion:

Primo: so anyone can say anything in the meeting, and this is a really important one, so legit speak up or forever hold your peace.

James: didn't we need to show the recommendation from the committee?

Primo: yes

Adonis: So you guys are basing our school constitution on other schools constitutions?
Joe: we really studied other organizations, emma has had a lot of outreach with other schools that have better GAs than us, so in comparison we said, hey this would really work well here at Montclair but no we still have to adjust it into montclair state.
Adonis: you said the Sga doesn't really use the entire budget, can some of the money go to organizations?
Joe: That's not a discussion to be had right now, that's more of a conversation to be had while the treasurer is here. When the financial policies go up, definitely voice your opinion.
Evan: Thanks for all the hard work in this process jack (inaudible) I was just wondering what are the gpa requirements?
Jack: so in the constitution- in the senate it's a 2.5, for the eboard, its 2.75, and for the justices, its 2.75.
Scott: so the name change for the senate has been voted on but when exactly does it take place.
Jack: Fall administration.
Guy in the back: So because you need 150 signatures would that be a reason for not having involvement in the SGA?
Joe: SO the process for being a legislator is being revamped a bit, but realy students should be elected for this position, and that's something that were trying to fix, it's not a real accurate representation of the student body, someone could walk around the student center cafe and have people sign this, so this process is trying to be worked on.
Jack: i wanna applaud the members of G and A for their revisions, it's a pain in the butt to have to come up here and stand and read all of these changes, even eating myself say the same things over and over again, but thank you to the committee for dealing with my mundane voice.
BILL PASSED WITH A 2 / 3 MAJORITY VOTE

BILL S2019-020
Authors Report:
Angela: Basically it's a temporary solution for students with housing insecurity and would be a maximum 14 day stay in an unoccupied dorm, and the bill is asking the Sga to start a new line to give funding to this concept.
Questions for the Author:
Elshama: You said 14 days, how many people does this cover?
Angela: Well this is just to start the line so the money is going towards room, so it would depend on the building the dorm is in.
Nick: What is the benefit of having someone stay in a dorm for 14 days?
Angela: That questions was asked a lot in committee, basically in the sense of a house fire, and someone needs a quick place to stay for at least two weeks and until you settle on whatever you personal situation is, This is a quick solution for issues like that
Joe: so 14 days also gives students some time to figure out what they wanna do, or plan forward. After those 14 days, especially with incorporating the dean of students office, you can go and
speak to the deans, and the 14 days time gives them more time to plan for the student whether it be an emergency scholarship, because the dean of students office does have that flexibility in matters like these.

Jack: This bill deals with money, why didn't residence life committee, contact appropriations?

Angela: this was lead by emma.

Jharel: after reading this is there a reason that its hotel, or residence life?

Sera: we brought this to res life already, last month we had monthly meetings and this was proposed there and to get some feedback. And sometimes they just don't have any unoccupied rooms. Now if they don't have it, and they don't have the money to keep someone in a hotel as an alternative.

Jharel: this is the bill that is creating a budget for it?

Nick: So if reslife has rooms they will give you one?

Sera: yes. They are onboard with this and are appreciative of their students in ways to help them out. They can't kick someone out, and if no one pays for it we can put them in that space.

Nick: what happens after the 14 days, if they don't have a place to go do you kick them out regardless?

Sera: were giving them time with the dean of students.

Nick: how does someone apply?

Angela: there would be an application that they would have to fill out.

Joe: it also states it on the form. Lists instructions.

Elshama: if this is a new bill how will students know about it.

Joe: just like anything in the sga it's about publicity-this is going to be a reslife and dean of students spearheaded by those offices, through notifications or emails.

Jack: there seems to be a lot of questions can we postpone until emma gets here and can provide further clarification?

Arianna: This is a bill that is being set up to start a line, this isn't something like a recommendation, once this bill passes we can further what we can do and grow, but as of now there is no harm in passing this bill. These important conversations have been being asked for quite some time, so they questions were asking aren't being useful.

Elshama: is this a recommendation bill or a regular bill

Joe: this is a bill that needs to be put into action by the eboard.

Committee Report: Positive recommendation

Questions for the Committee:

Debate and Discussion:

Joe: the title of this bill is exactly what it says its going to be; emergency housing. The sga doesn't have the ability to make anything permanent. We will let the prospective offices help with this, this is purely to set a foundation.

**Candidate:** Yes, political topics and other issues are touchy. We try our best to make sure everyone knows it's a safe space and there is no judgement for others, so we have never had a problem where people come in and have been hostile to other ideas- we have had disputes and oppoising onions, but those are settled fairly well.

Authors Report:
Sera: this year the eboard, started giving out scholarships in the fall and spring because money is tight year round, with that we gave out 12,000 last year, and we put the money back into the line, just so we have what we need to give out deserving students for the semester.

Questions for the Author: during appropriations we were told last admin put 20,000 into the scholarship fund, and the reason why you're not continuing is unclear, so can you explain why you're not doing what the last year did?
Sera: The sga was told we need to keep our budget nat 150,000 and keep it at that level, the last admin had not put it back into what we what we agreed to. We can talk to the new eboard about adding new ideas and money about this idea.
Arianna: motion to make a friendly amendment- amendment adopted
